A Cultural History of Money in the Modern Age Taylor C. Nelms,David Pedersen,2021-03-11 Bracketed by global financial crises and economic downturns the modern age has been defined by debates about and transformations of money The period witnessed the consolidation of national currencies and monetary policies as well as the diversification of payment technologies and the proliferation of financial instruments Throughout even as it appeared abstracted by finance and depoliticized by expert ideologies money was revealed again and again to be a powerful medium of cultural imagination and practical inventiveness as well as the site of public and political struggles Modern money both as a form of liquidity and as a claim on wealth remains deeply unsettled caught between private and public interests and subject to epic struggles over the infrastructures of value creation and circulation and their distributional consequences Drawing upon a wealth of visual and textual sources A Cultural History of Money in the Modern Age presents essays that examine key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age

Monochrome Craig Staff,2015-09-17 The monochrome a single colour of paint applied over the entirety of a canvas remains one of the more contentious modernist artistic inventions But whilst the manufacture of these pictures of nothing was ostensibly straightforward their subsequent theorisation has been anything but More than a history Monochrome Darkness and Light in Contemporary Art is the first account of the monochrome s lively role in contemporary art Liberated

from the burden of representation the monochrome first stood for emancipation an ideological and artistic impulse that characterised the avant garde of the early twentieth century Historically the monochrome embodied the most extreme form of abstraction and pure materiality Yet more recently adaptations of the art form have focused on a broader range of cultural and interpretive contexts Provocative innovative and timely this book argues that the latest artistic strategies go beyond stylistic concerns and instead seek to re engage with ideas around authorship process and the conditions of the visible as they are given and understood through both light and darkness Discussing works by artists such as Katie Paterson Hiroshi Sugimoto Tom Friedman Bruno Jakob Sherrie Levine and Ceal Floyer the book shows that the debates around an artwork s form and its possibility for meaning that the monochrome first engendered remain very much alive in contemporary visual culture

Congdon, Kara Kelley Hallmark, 2012-03-19 Folk art is as varied as it is indicative of person and place informed by innovation and grounded in cultural context The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays American Folk Art A Regional Reference offers a collection of fascinating essays on the life and work of 300 individual artists Some of the men and women profiled in these two volumes are well known while others are important practitioners who have yet to receive the notice they merit Because many of the artists in both categories have a clear identity with their land and culture the work is organized by geographical region and includes an essay on each region to help make connections visible There is also an introductory essay on U.S. folk art as a whole Those writing about folk art to date tend to view each artist as either traditional or innovative One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits they are grounded in their cultural context and creative in the way they make work their own Such insights expand the study of folk art even as they readjust readers' understanding of who folk artists are Warhol Wool Newman Giuliana Bruno, Kunsthaus Graz, 2009 The present catalogue is a retrospective with a difference Taking the work of two contemporary American artists Christopher Wool and Sharon Lockhart it looks back at the work of their predecessors as painters and

filmmakers from earlier generations The key figure of these reflections is Andy Warhol who both revolutionized painting as a medium and made a major contribution to the development of film His work spans both Barnett Newman's access to the materiality of pictures and the artistic exploitation of media images and their apparent reality with which Bruce Conner achieved such brilliant effects The publication contains an extensive complex panorama of art historical references combined with contemporary historical and political analyses Affinities and antitheses within the interrelationships substance and formal idioms of the five artists involved are explored in a variety of ways Along with illustrations of the paintings exhibited and films screened the catalogue thus contains articles by Giuliana Bruno Achim Hochd rfer Wolfram Pichler Christian H ller Hans Dieter Hubert Peter Pakesch Ferdinand Schmatz Marc Siegel and Ian White *Talk Art* Russell Tovey, Robert Diament, 2021-05-18 All we wanted to do was make art accessible non academic non elitist gossipy and fun Russell Tovey quoted in the New York Times Engaging informative and open to everyone *Talk Art* established itself as the must listen cultural podcast in both the UK and the US and it has now garnered 1.5 million downloads With infectious enthusiasm Russell and Robert have opened the doors to the art world and have welcomed people of all ages and backgrounds into the conversation *Talk Art* the book is a beautiful and accessible celebration of contemporary art and a guidebook to navigating and engaging with the art world Informal and jargon free this book proves that art really is for everyone With a wealth of knowledge *Talk Art* will become the must have book that art lovers return to again and again The book features highlights from interviews with Tracey Emin Rose Wylie Helen Cammock Jordan Casteel Edward Enninful Jerry Saltz Elton John Billy Porter Grayson Perry Michael Stipe Lena Dunham Rose McGowan Ian McKellen Deborah Frances White David Shrigley Toyin Ojih Odutola and Michael Craig Martin among others Chapters include Art Feminism Photojournalism as Art Art Political Change How to Navigate the Art World How do I Create My Own Collection Make Your Own Art Highlights from popular features of the podcast including Art Heist and Favourite Colour **The Last Picture Show** Douglas Fogle, 2003 Photography has become an increasingly pervasive medium of choice in contemporary art practice and is even employed at times by artists who do not necessarily consider themselves to be photographers How did this come to be *The Last Picture Show* will address the emergence of this phenomenon of artists using photography by tracing the development of conceptual trends in postwar photographic practice from its first glimmerings in the 60s in the work of artists such as Berndt portraiture and cultural identity the formal and social architectonics of the built environment societal and individual interventions in the landscape photography's relationship to sculpture and painting the visual mediation of meaning in popular culture and the poetic and conceptual investigation of visual non sequiturs disjunctions and humorous absurdities Bringing together a newly commissioned body of scholarship with reprints of important historical texts *The Last Picture Show* seeks to define the legacy that has produced a rich body of photographic practice in the art world today *Born in Flames* Bench Ansfield, 2025-08-19 A young historian's superlative debut this excellent book delivers the truth about the burning years Kirkus Reviews starred

review Riveting an outstanding expos of the predatory capitalist machinations behind the Bronx is burning saga Publishers Weekly starred review The explosive account of the arson wave that hit the Bronx and other American cities in the 1970s and its legacy today Ladies and gentlemen the Bronx is burning That legendary and apocryphal phrase allegedly uttered by announcers during the 1977 World Series as flames rose above Yankee Stadium seemed to encapsulate an entire era in this nation's urban history Across that decade a wave of arson coursed through American cities destroying entire neighborhoods home to poor communities of color Yet as historian Bench Ansfield demonstrates in Born in Flames the vast majority of the fires were not set by residents as is commonly assumed but by landlords looking to collect insurance payouts Driven by perverse incentives new government sponsored insurance combined with tanking property values landlords hired torches mostly Black and Brown youth to set fires in the buildings sometimes with people still living in them Tens of thousands of families lost their homes to these blazes yet for much of the 1970s tenant vandalism and welfare fraud stood as the prevailing explanations for the arson wave effectively indemnifying landlords Ansfield's book based on a decade of research introduces the term brownlining for the destructive insurance practices imposed on poor communities of color under the guise of racial redress Ansfield shows that as the FIRE industries finance insurance and real estate eclipsed manufacturing in the 1970s they began profoundly reshaping Black and Brown neighborhoods seeing them as easy sources of profit At every step Ansfield charts the tenant led resistance movements that sprung up in the Bronx and elsewhere as well as the explosion of popular culture around the fires from iconic movies like The Towering Inferno to hit songs such as Disco Inferno Ultimately they show how similarly pernicious dynamics around insurance and race are still at play in our own era especially in regions most at risk of climate shocks

Cheyney Thompson Christian Schaernack, 2023-05-23 One of the first book length publications on contemporary artist Cheyney Thompson whose work is known for its radically forward looking intellectualism and formal rigor Cheyney Thompson's b 1975 work responds to a long history of debates about how art depicts the world and about how we come to know the world visually In these meditations on the artist's work Christian Schaernack shows that for Thompson reality is something that we can know only in terms of probabilities not absolutes Thompson often produces work that explores contingency at the formal level sometimes in his artistic process itself as Jackson Pollock once did and sometimes through the use of external constraints such as computer algorithms which he subverts as often as he follows The meaning of observation has changed time and time again in the history of art just as it has in the history of science Delving into art history intellectual history and contemporary continental philosophy Schaernack offers a multifaceted study of an artist who challenges our assumptions about how the world is ordered From Thompson's early black paintings to his Chronochromes to the Stochastic Process Paintings which engage with the algorithms that govern our digital lives Schaernack presents a contemporary artist whose work embraces chance and responds to the shifting conditions of the present This is art that reimagines artwork itself
