Newman,2025-06-25 A sharp examination of the looming financial catastrophe of retirement in America As millions of Baby Boomers reach their golden years the state of retirement in America is little short of a disaster Nearly half the households with people aged 55 and older have no retirement savings at all The real estate crash wiped out much of the home equity that millions were counting on to support their retirement And the typical Social Security check covers less than 40% of pre retirement wages a number projected to drop to under 28% within two decades Old age poverty a problem we thought was solved by the New Deal is poised for a resurgence With dramatic statistics and vivid portraits acclaimed sociologist Katherine S Newman shows that the American retirement crisis touches us all cutting across class lines and generational divides White collar managers have seen retirement benefits vanish Teamsters have had their pensions cut in half bankrupt cities like Detroit have walked away from their commitments to municipal workers And for Generation X the prospects are even worse a fifth of them expect to never be able to retire Only the vaunted one percent can face retirement without fear Other countries are confronting similar demographic challenges yet they have not abandoned their social contract with seniors Downhill From Here makes it clear that America too can and must do better **Case Studies in Asian Management** Parissa Haghirian,2014 There is a lack of knowledge on how corporations in Asia develop strategies organize their work processes and deal with competition Western managers and business students need to know more about Asian corporations and their management styles Learning about Asia however has always been a challenging task The main challenge is the complexity encountered when dealing with Asian management issues which differ not only for different countries but also for different types of businesses not to mention national management preferences and styles This book tries to fill this gap by presenting case studies of various Asian countries including China Japan India Korea and The Philippines The case studies are as diverse as management activities in Asia can be and include a variety of different companies in several Asian countries This book attempts to present an overview on the variety and complexity of management and business processes in Asian countries It intends to support business people and students of international management to get a deeper understanding of Asian management practices by presenting practical examples of Asian firms and their strategies *University of Michigan Index*
