## **Collective Security Theory Law And Practice:**

*Collective Security* Professor Nicholas Tsagourias, Nicholas Tsagourias, Professor Nigel D White, 2014-02-21 A systematic analysis and assessment of the institutional operational legal and accountability parameters of the United Nations collective security system

**Collective Security** Nicholas Tsagourias, Nigel D. White, 2013-10-31 This analysis of collective security covers its institutional operational and legal parameters along with the United Nations system presenting it as a global public order institution for maintaining peace The authors study its constitutional premises as they are shaped by the forces of law and politics After an historical account of initiatives and projects for global peace the authors explain the morphology of collective security as a global public order institution and outline its triggers institutions actors components and tools They go on to analyse its legal properties and the processes of political legal and criminal accountability The analysis and assessment are informed throughout by practice drawn from examples including Korea Iraq and Libya and by a wealth of cases from national and international jurisdictions

**Research Handbook on International Law and Human Security** Oberleitner, Gerd, 2022-10-14 This comprehensive Research Handbook considers the place of human security both in practice and as a concept within international law examining the preconditions for and consequences of applying human security to international legal thinking and practice It also proposes a future international law in which human security is central to the law's purpose This title contains one or more Open Access chapters

**The Defining the Crossword of Sovereignty and Security** Bo Long, 2023-06-05 In general summary on the basis of the perspective of realism this book has thoroughly and critically assessed the international legal topic of the application of the UNCSS in territorial disputes Firstly from the discussion of the initial two chapters it can be learnt that territorial disputes and the UNCSS are mutually important to each other Meanwhile as the corresponding background there is a lack of relevant legal studies on the present research topic Secondly from the discussion of the middle two chapters it can be learnt that both territorial disputes and the UNCSS have their specific nature and characters As the result it also can be recognized that although the general environment of the international community is pursuing peace and security but the engagement between territorial dispute and the UNCSS is still inevitable Thirdly from the discussion of the final two chapters it can be learnt that due to their diversified advantages and shortages the various measures of the UNCSS can exert different effect on territorial disputes Nevertheless there are well directed ways for the reform of the UNCSS in this field and thereupon an applicable reform scheme can be drafted

**The Oxford Handbook of the International Law of Global Security** Robin Geiß, Nils Melzer, 2021-02-16

Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance of public international law in today's complex and highly dynamic global security environment Which concepts of security are anchored in international law How is the global security environment shaping international law and

how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a ground breaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area

*International Conflict and Security Law* Laurie R. Blank, 2023-02-14 This incisive book provides an extensive analysis of the robust array of international law applicable across the spectrum of international conflict and security With a particular focus on new and emerging technologies and domains such as cyber and outer space Laurie Blank illustrates how international conflict and security law applies to 21st century challenges

**The Law of War and Peace** Gina Heathcote, Sara Bertotti, Emily Jones, Sheri A. Labenski, 2021-01-28 The Law of War and Peace offers a cutting edge analysis of the relationship between law armed conflict gender and peace This book which is the first of two volumes focuses on the interplay between international law and gendered experiences of armed conflict It provides an in depth analysis of the key debates on collective security unilateral force the laws governing conflict terrorism and international criminal law While much of the current scholarship has centered on the UN Security Council's Resolutions on Women Peace and Security this two volume work seeks to move understandings beyond the framework established by WPS It does this through providing a critical and intersectional approach to gender and conflict which is mindful of transnational feminist and queer perspectives

International Law on the Maintenance of Peace Robert Kolb, This book offers a comprehensive study into the use of force and the maintenance of peace in international relations Whilst rooted in public international law it also approaches the question from different angles including its historical evolution and its sociological environment The competences and practice of the UN and of regional organizations in the maintenance of peace are examined before the focus is shifted to the inter State level the main non use of force rule and its claimed or recognized exceptions Robert Kolb analyzes each of these rules separately before concluding with insightful reflections on the current state of play and considerations for the future of this branch of the law

British Influences on International Law, 1915-2015 Robert McCorquodale, Jean-Pierre Gauci, 2016-06-27 This book considers British influences on the development of international law over 100 years from 1915 This century has been marked by unprecedented developments in international law not least the setting up of an array of international organisations including the United Nations and the League of Nations and international courts and tribunals including the International Court of Justice and its predecessor the Permanent Court of International Justice as well as the

International Criminal Court Two world wars complex transboundary issues and increased globalisation have shown the importance of international law This volume addresses these developments domestic regional and international and looks at how Britain and British people broadly defined have influenced these changes The contributors to the book have examined an array of different issues These include British influences on treaty making recognition and immunity as well as on specific fields of international law such as armed conflict criminal law environment and human rights It has commentary on the British influence on the sources of international law including by its courts and Foreign Office in the development of the European Union and in the idea of a professional international lawyer There are also reflections on many of the key people over the century The book provides a novel perspective which surveys and appraises the contributions of British people and institutions in domestic and international legal forums and their key role in the development interpretation and application of international law Please also see the following related titles

**The Role of Legal Advisers in International Law** British Contributions to International Law 1915 2015      **Regulating the Use of Force in International Law** Russell Buchan, Nicholas Tsagourias, 2021-06-25 This book provides a comprehensive and detailed analysis of the nature content and scope of the rules regulating the use of force in international law as they are contained in the United Nations Charter customary international law and international jurisprudence It examines these rules as they apply to developing and challenging circumstances such as the emergence of non State actors security risks new technologies and moral considerations

**The Oxford Handbook of the Use of Force in International Law** Marc Weller, 2015-01-15 The prohibition of the use of force in international law is one of the major achievements of international law in the past century The attempt to outlaw war as a means of national policy and to establish a system of collective security after both World Wars resulted in the creation of the United Nations Charter which remains a principal point of reference for the law on the use of force to this day There have however been considerable challenges to the law on the prohibition of the use of force in international law is one of the major achievements of international law in the past century The attempt to outlaw war as a means of national policy and to establish a system of collective security after both World Wars resulted in the creation of the United Nations Charter which remains a principal point of reference for the law on the use of force to this day There have however been considerable challenges to the law on the prohibition of the use of force over the past two decades This Oxford Handbook is a comprehensive and authoritative study of the modern law on the use of force Over seventy experts in the field offer a detailed analysis and to an extent a restatement of the law in this area The Handbook reviews the status of the law on the use of force and assesses what changes if any have occurred in consequence to recent developments It offers cutting edge and up to date scholarship on all major aspects of the prohibition of the use of force The work is set in context by an extensive introductory section reviewing the history of the subject recent challenges and addressing major conceptual approaches Its second part addresses collective security in particular the law and practice of the United Nations organs and

of regional organizations and arrangements It then considers the substance of the prohibition of the use of force and of the right to self defence and associated doctrines The next section is devoted to armed action undertaken on behalf of peoples and populations This includes self determination conflicts resistance to armed occupation and forcible humanitarian and pro democratic action The possibility of the revival of classical expansive justifications for the use of force is then addressed This is matched by a final section considering new security challenges and the emerging law in relation to them Finally the key arguments developed in the book are tied together in a substantive conclusion The Handbook will be essential reading for scholars and students of international law and the use of force and legal advisers to both government and NGOs

The Concept of Security in International Law Hitoshi Nasu, 2022-12-23 This book explores how the concept of security interacts with the rigid framework of international law to test the hypothesis that the system of public order among states is regulated under the rule of law

*Interactions between Regional and Universal Organizations* Laurence Boisson de Chazournes, 2016-11-01 Cooperation through international organizations is fundamental to the international legal order International organizations are nowadays ubiquitous and come in many different manifestations each allowing for different levels of international cooperation The profile of regional and universal organizations may vary greatly from one organization to another At the same time they do not live apart and this has led to the creation of a complex network of relationships These relationships have seldom been the object of scholarship and this book seeks to address that gap In general the relationships between international organizations can give rise to such issues as the conditions placed upon one organization by another demarcations of competence membership of other organizations and various forms of collaboration involving the conclusion of agreements between organizations Optimal coexistence cooperation and coherence all play a role in optimizing the relations between international organizations The volume concludes by analysing current challenges including those of legal identity responsibility and accountability as well as making proposals for reform such as through the development of a common law between organizations

**Protection of Civilians** Haidi Willmot, Ralph Mamiya, Scott Sheeran, Marc Weller, 2016-04-15 The protection of civilians is a highly topical issue at the forefront of international discourse and has taken a prominent role in many international deployments It has been at the centre of debates on the NATO intervention in Libya UN deployments in Darfur South Sudan and the Democratic Republic of the Congo and on the failures of the international community in Sri Lanka and Syria Various descriptions as a moral responsibility a legal obligation a mandated peacekeeping task and the culmination of humanitarian activity it has become a high profile concern of governments international organisations and civil society and a central issue in international peace and security This book offers a multidisciplinary treatment of this important topic harnessing perspectives from international law and international relations traversing academia and practice Moving from the historical and philosophical development of the civilian protection concept through relevant bodies of international law and normative underpinnings and on to politics and practice the volume presents

coherent cross cutting analysis of the realities of conflict and diplomacy In doing so it engages a series of current debates including on the role of politics in what has often been characterized as a humanitarian endeavour and the challenges and impacts of the use of force The work brings together a wide array of eminent academics and respected practitioners incorporating contributions from legal scholars and ethicists political commentators diplomats UN officials military commanders development experts and humanitarian aid workers As the most comprehensive publication on the subject this will be a first port of call for anyone studying or working towards a better protection of civilians in conflict

Non-Participation in Armed Conflict Constantine Antonopoulos,2022-03-03 Revisits the law of neutrality and discusses its relevance to contemporary international and non international armed conflict      **The European Union and the Use of Force** Julia Schmidt,2020-09-07 In The European Union and the Use of Force Julia Schmidt examines the development and activities of the EU as an emerging international military actor The author offers a comprehensive analysis of the conditions under which the EU can engage in military crisis management operations from the perspective of EU law as well as from the perspective of public international law with a particular emphasis on the EU s relationship with the United Nations and the EU s relationship with its Member States in the context of the use of force Throughout the monograph questions of European integration in the sphere of the common security and defence policy as well as the EU s place and role within the international community are put into focus      **Armed Intervention and Consent** Dino Kritsiotis,Olivier Corten,Gregory H. Fox,2023-07-06 Three experts address the law governing armed interventions based on real or alleged consent of states embroiled in military strife      Articulating Security Isobel Roele,2022-03-10 We live in a world of mobile security threats and endemic structural injustice but the United Nations go to solution of strategic management fails to stop threats and perpetuates injustice Articulating Security is a radical critique of the UN s counter terrorism strategy A brilliant new reading of Foucault s concept of disciplinary power and a daring foray into psychoanalysis combine to challenge and redefine how international lawyers talk about security and management It makes a bold case for the place of law in collective security for if law is to help tackle injustice in security governance then it must relinquish its authority and embrace anger The book sounds an alarm to anyone who assumes law is not implicated in global security and cautions those who assume that it ought to be      **Global Constitutionalism from European and East Asian Perspectives** Takao Suami,Anne Peters,Dimitri Vanoverbeke,Mattias Kumm,2018-11-29 Examines and compares East Asian and European perspectives of Global Constitutionalism      United Nations Peacekeeping and the Principle of Non-Intervention Jennifer Giblin,2024-03-26 Using a unique application of Third World Approaches to International Law TWAIL this book provides a critical interdisciplinary examination of the contemporary practice of UN peacekeeping Is peacekeeping intervention Since its conception in the mid 1950s peacekeeping has significantly evolved from traditional lightly armed passive operations to robust multi dimensional stabilisation peacekeeping operations This raises questions as to whether this is simply a natural evolution of peacekeeping

or whether it marks an expansion of the concept beyond its boundaries pushing it into the realm of peace enforcement or intervention In response this book examines the frameworks which govern UN peacekeeping and seeks to understand the relationship between peacekeeping and the principle of non intervention Providing practical examples from the United Nations operations in the Democratic Republic of the Congo and drawing upon interviews with key international actors including UN personnel the book explores the boundaries of peacekeeping contending that peacekeeping at times becomes a form of intervention This the book argues is detrimental both to the concept of peacekeeping and to the host state and it concludes by offering a series of recommendations to re affirm peacekeeping s boundaries and amplify the effectiveness of contemporary peacekeeping This book will be of interest to scholars and students in international law international relations politics history and criminology

## **Collective Security Theory Law And Practice** Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has be more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is really remarkable.
