

Unit 8—Cold War Study Guide

Name: _____

Vocabulary (continued)	
Space Race	Similar to the arms race, the U.S. and Soviet Union both raced to dominate in space exploration. They feared what might happen if the other dominated outer space. They were worried about nuclear weapons being launched from space, spying from satellites or that the other country might get some advantage by controlling outer space.
Demonstration	This word has multiple meanings. In the context of this unit, it means a public protest. Many people protested the war in Vietnam, because they didn't believe Americans should be dying in a war on the other side of the world.

OBJECT The student will discuss the origins and consequences of the Cold War.

SS.8.CW.1.1 Explain the origin and meaning of the term "Iron Curtain."

The term "Iron Curtain" was first used by Winston Churchill, the leader of Great Britain, shortly after WWII. He was describing how Europe had been split in half, with all of eastern Europe becoming communist countries and all of western Europe becoming capitalist. This happened mostly because of the way Europe was divided after the war. Germany had been defeated in WWII by Great Britain and the U.S., invading from the West and Stalin and the Soviet Union invading from the East. After the war the Soviet Union wanted countries to become communist and many of the Eastern European countries came under their control. Truman (U.S.) and Churchill (Britain) wanted countries to become capitalist because they feared that communism would cause countries to be ruled by strong government dictators. They feared dictators because dictators have all the power (such as Hitler in Germany). They also feared Stalin. Although he had helped defeat Hitler, he was a cruel dictator who was responsible for the death of more than 20 million of his own people.

Berlin Wall—The Berlin Wall is often compared with the Iron Curtain. The Berlin wall was actually a wall that was built through the middle of Berlin, Germany. The Iron Curtain is just a figurative divider, meaning it wasn't actually a wall in many places, but just a symbolic divider between communist and capitalist Europe. The Berlin Wall was built August 13, 1961 and it remained in place until 1989, when the Soviet Union was beginning to collapse. The city of Berlin was actually on the communist side of the "Iron Curtain" because it was in East Germany, but the city was split in half after the war. Half fell under Soviet control and half fell under capitalist control.

Communism

- Government controls almost everything (the money, even the food, property and even what job you had)
- Sounds good in theory because they promise equality for all
- However everyone is rewarded "equally." It causes a lack of motivation by workers and businesses to work hard, which causes the economy to suffer

Note: Many countries today that are considered communist are not completely communist like they were during the cold war. Many of today's communist countries like China still have a lot of government control, but most have free markets which allow for competition in business. Many of the old communist governments like the Soviet Union collapsed because the system had major flaws.

Capitalism

- People and businesses control much of the economy
- The system, in an ideal situation, would reward those who work hard and those who don't would struggle
- Competition causes the economy to grow because individuals want to work more so they work harder, and businesses want to be more successful, so they will do whatever it takes to be the best.

Note: The U.S. system is based on a free market or capitalist economy.
