Traditionalism in the Works of Francisco de Quevedo Y Villegas Doris L. Baum, 1970 This study offers an investigation of the various facets of Spanish Traditionalism: political, religious, literary, cultural, and stylistic, through the works of Francisco de Quevedo and Villegas, one of the most complex authors of the Spanish Golden Age. Each chapter in the volume opens with a general history of the discreet facet of traditionalism that it treats. By this structure, the book is able to present a new approach to the understanding of the content and style of the works of Quevedo. Dr. Doris L. Baum consolidates the spirit of Quevedo's complex works, offering access to an underlying unity. *National Union Catalog*, 1981 *Dicenda*, 2002 *Devotional*

Music in the Iberian World, 1450-1800 Tess Knighton, 2017-07-05 From the fifteenth century to the beginning of the nineteenth century devotional music played a fundamental role in the Iberian world Songs in the vernacular usually referred to by the generic name of villancico but including forms as varied as madrigals ensaladas tonos cantatas or even oratorios were regularly performed at many religious feasts in major churches royal and private chapels convents and in monasteries These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and as they were often composed anew for each celebration the surviving sources vastly outnumber those of Latin compositions they can be counted in tens of thousands The close relationship with secular genres both musical literary and performative turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia In many cases the villancico repertory represents the oldest surviving source of music produced in these regions thus affording it a primary role in the construction of national identities The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period providing the first broad based survey of this important genre
