All the Facts James W. Cortada, 2016-03-16 All the Facts presents a history of the role of information in the United States since 1870 when the nation began a nearly 150 year period of economic prosperity and technological and scientific transformations James Cortada argues that citizens and their institutions used information extensively as tools to augment their work and private lives and that they used facts to help shape how the nation evolved during these fourteen decades He argues that information's role has long been a critical component of the work play culture and values of this nation and no more so than during the twentieth century when its function in society expanded dramatically While elements of this story have been examined by thousands of scholars such as the role of radio newspapers books computers and the Internet about such institutions as education big business expanded roles of governments from town administration to the state house from agriculture to the services and information industries All the Facts looks at all of these elements holistically providing a deeper insight into the way the United States evolved over time An introduction and 11 chapters describe what this information ecosystem looked like how it evolved and how it was used For another vast layer of information about this subject the reader is directed to the detailed bibliographic essay in the back of this book It includes a narrative history case studies in the form of sidebars and stories illustrating key points Readers will find for example the story of how the US postal system helped create today's information society along with everything from books and newspapers to TV computers and the Internet The build up to what many today call the Information Age took a long time to achieve and continues to build momentum The implications for the world and not just for the United States are as profound as any mega trend one could

identify in the history of humankind All the Facts presents this development thoroughly in an easy to digest format that any lover of history technology or the history of information and business will enjoy *Remaking the John* Francesca Davis DiPiazza,2014-08-01 Did you know that about 40 percent of the world s population lives without toilets That s more than two billion people most of whom live in rural areas or crowded urban slums And according to the World Health Organization diseases spread by the lack of basic sanitation kill more people every year than all forms of violence including war In particular diarrheal diseases kill more than two million people each year most of them children Everyone needs to go to the bathroom and from the citizens of the world s earliest human settlements to astronauts living on the International Space Station the challenge has been the same how to safely and effectively dispose of human body wastes Toilet history includes everything from the hunt for the causes of infectious disease to twenty first century marvels of engineering In *Remaking the John* you ll explore the many ways people across the globe and through the ages have invented and reinvented the toilet You will learn about everything from ancient Roman sewers to the world s first flush toilets You ll also find out about the twenty first century Reinvent the Toilet Challenge an engineering contest designed to spur creation of an ecologically friendly water saving inexpensive and sanitary toilet And while you re at it mark World Toilet Day on your calendar Observed every November 19 this international day of action works to raise awareness about the modern world s many sanitation challenges

Fueling the Gilded Age Andrew B. Arnold,2014-04-11 If the railroads won the Gilded Age the coal industry lost it Railroads epitomized modern management high technology and vast economies of scale By comparison the coal industry was embarrassingly primitive Miners and operators dug coal bought it and sold it in 1900 in the same ways that they had for generations In the popular imagination coal miners epitomized anti modern forces as the so called Molly Maguire terrorists Yet the sleekly modern railroads were utterly dependent upon the disorderly coal industry Railroad managers demanded that coal operators and miners accept the purely subordinate role implied by their status They refused *Fueling the Gilded Age* shows how disorder in the coal industry disrupted the strategic plans of the railroads It does so by expertly intertwining the history of two industries railroads and coal mining that historians have generally examined from separate vantage points It shows the surprising connections between railroad management and miner organizing railroad freight rate structure and coal mine operations railroad strategy and strictly local legal precedents It combines social economic and institutional approaches to explain the Gilded Age from the perspective of the relative losers of history rather than the winners It beckons

readers to examine the still unresolved nature of America's national conundrum how to reconcile the competing demands of national corporations local businesses and employees *The Hidden History of Delaware County* Mark E. Dixon, 2010-12-03 Andrew Wyeth is renowned for his paintings of the Chadds Ford countryside but what about the his brother the inventor of the plastic soda bottle Then there is Bill Haley of Booth's Corner who along with the help of a few Delaware Valley teenagers came up with a new sound called rock and roll With a fascinating and occasionally uproarious collection of his Main Line Today magazine columns author Mark E Dixon explores the forgotten corners of Delaware County's history From the Upper Darby abolitionist who conducted more than two thousand people on the Underground Railroad to the Sun Shipyard press stunt that landed heavyweight boxing champion Jack Dempsey in hot water these offbeat histories will delight visitors and locals alike The Concept of Water Rupert D. V. Glasgow, 2009 Water is commonly taken for granted and treated with contempt yet it is the very foundation of human existence Assuming countless forms it is deeply associated both with life and death body and soul purity and pollution creation and destruction The Concept of Water seeks to bring together the various aspects of our deeply ambiguous relationship with water providing a systematic account of its symbolic and philosophical significance This involves looking at how water has been conceived and the role it has played in everyday thought mythology literature religion philosophy politics and science both across cultures and through history R D V Glasgow was born in Sheffield and currently lives in Zaragoza His previous books are Madness Masks and Laughter 1995 Split Down the Sides 1997 and The Comedy of Mind 1999 **A Million Years in a Day** Greg Jenner, 2016-06-21 First published Great Britain Weidenfeld Nicolson 2015 *Read On...History* Tina Frolund, 2013-10-21 Make history come alive This book helps librarians and teachers as well as readers themselves find books they will enjoy titles that will animate and explain the past entertain and expand their minds This invaluable resource offers reading lists of contemporary and classic non fiction history books and historical fiction covering all time periods throughout the world and including practically all manner of human endeavors Every book included is hand selected as an entertaining and enlightening read Organized by appeal characteristics this book will help readers zero in on the history books they will like best for instance titles that emphasize character tell a specific type of historical story convey a mood or are presented in a particular setting Every book listed has been recommended based on the author's research and has proved to be a satisfying and worthwhile read **At Home** Bill Bryson, 2011-10-04 In these pages the beloved Bill Bryson gives us a fascinating history of the modern home taking us on a room by room tour through his own house and using each room to explore the vast history of the domestic artifacts we take for granted As he takes us through the history of our modern comforts Bryson demonstrates that whatever happens in the world eventually ends up in our home in the paint the pipes the pillows and every item of furniture Bryson has one of the liveliest most inquisitive minds on the planet and his sheer prose fluency makes At Home one of the most entertaining books ever written about private life Meeting the Family Donovan Webster, 2010-04-20 Donovan Webster brings his vivid journalistic gifts to

a new subject tracing our deep genealogy using cutting edge DNA research to map our eons old journey from prehistoric Africa into the modern world With the same genetic haplotype as many white American males Webster makes an ideal subject he is a genuine Everyman While his voice and spirit are unique to him in exploring his own ancestry he shows us our own Drawing on National Geographic s Genographic Project the largest anthropologic DNA study of its kind Webster traces centuries of migrations everywhere finding members of his now far flung genetic family In Tanzania s Rift Valley he hunts with Julius whose tribe speaks a click language and wanders the ruins of ancient Mesopotamia with Mohamed and Khalid now Jordanian citizens In Samarkand Uzbekistan eastern frontier of his ancestral roaming a circus ringmaster becomes both friend and link to his primal bloodline Webster s genographic quest leads him to contemplate what traits he shares with those he meets and considers what they and their ways of life reveal about the deep history of our species A lifetime of journalistic travels among a wide range of cultures furnish Webster with a wealth of colorful threads to weave into a story as particularly personal as it is universally human *Santa Fe* Elizabeth West,2012 This question and answer book contains 400 reminders of what is known and what is sometimes forgotten or misunderstood about a city that was founded more than 400 years ago Not a traditional history book this group of questions is presented in an apparently random order and the answers occasionally meander off topic as if part of a casual conversation Troubled Waters Patrick Troy,2008-06-01 Australian cities have traditionally relied for their water on a predict and provide philosophy that gives primacy to big engineering solutions In more recent years privatised water authorities seeking to maximise consumption and profits have reinforced the emphasis on increasing supply Now the cities must cope with the stresses these policies have imposed on the eco systems from which they harvest water into which they discharge wastes and on which they are located Residents are having to pay more for their water while the cities themselves are becoming less sustainable Must we build more dams and desalination plants or should we be managing the demand for urban water more prudently This book explores the demand for urban water and how it has changed in response to shifting social mores over the past century It explains how demand for centralised provision of water might be reshaped to enable the cities to better cope with expected changes in supply as our climate changes And it discusses the implications of property rights in water for proposals to privatise water services The Plague Cycle Charles Kenny,2021-10-12 This history of mankind s battles against infectious diseases looks at how epidemics shaped empires and economies and how medical revolutions freed us from these cycles until new threats arose caused by changes in global trade and climate **Off the Deep End** William Hodding Carter,2008-01-01 A lifelong swimming enthusiast who had always dreamed of Olympic glory describes how despite his failure to qualify for the Olympic trials from 1976 through 2004 he took up his quest at the age of forty two by preparing for the Masters Championships undergoing a long difficult and effective training regimen in pursuit of his dream Global Garbage Christoph Lindner,Miriam Meissner,2015-12-14 Global Garbage examines the ways in which garbage in its diverse forms is being produced managed

experienced imagined circulated concealed and aestheticized in contemporary urban environments and across different creative and cultural practices The book explores the increasingly complex relationship between globalization and garbage in locations such as Beirut Detroit Hong Kong London Los Angeles Manchester Naples Paris Rio de Janeiro and Tehran In particular the book examines how and under what conditions contemporary imaginaries of excess waste and abandonment perpetuate but also sometimes counter the imbalances of power that are frequently associated with the global metropolitan condition This interdisciplinary collection will appeal to the fields of anthropology architecture film and media studies geography urban studies sociology and cultural analysis **Far Beyond the Moon** David P. D. Munns, Karin

Nickelsen, 2021-06-01 From the beginning of the space age scientists and engineers have worked on systems to help humans survive for the astounding 28 500 days 78 years needed to reach another planet They've imagined and tried to create a little piece of Earth in a bubble travelling through space inside of which people could live for decades centuries or even millennia Far Beyond the Moon tells the dramatic story of engineering efforts by astronauts and scientists to create artificial habitats for humans in orbiting space stations as well as on journeys to Mars and beyond Along the way David P D Munns and Karin Nickelsen explore the often unglamorous but very real problem posed by long term life support How can we recycle biological wastes to create air water and even food in meticulously controlled artificial environments Together they draw attention to the unsung participants of the space program the sanitary engineers nutritionists plant physiologists bacteriologists and algologists who created and tested artificial environments for space based on chemical technologies of life support as well as the bioregenerative algae systems developed to reuse waste water and nutrients so that we might cope with a space journey of not just a few days but months or more likely years
