Charters of Freedom ,2012      **Documents of American Democracy** Roger L. Kemp,2010-04-13 This reference work presents 27 key documents from the historic origins of the United States government through its subsequent expansion and evolution The book is divided into five sections the first of which is an introductory essay about American democracy Section II includes three documents that laid the foundation for America s government the Magna Carta the 1628 Petition of Right and England s Bill of Rights The third section presents 13 core documents such as the Mayflower Compact the Virginia Declaration of Rights the Articles of Confederation the U S Constitution and the Civil Rights Act of 1964 Section IV provides 11 documents of America s territorial expansion from the Treaty of Paris through the Louisiana Purchase Treaty and the Alaska Treaty and Hawaii Resolution The final section is an essay about the future of democracy There are 12 useful appendices      **Prologue** ,2016      **The Code of Hammurabi** Jack Sholl,Jeane Breazeale,2013-09-17 This case study shows that a widely used U S Government high school textbook puts an ancient King of Babylon on the same level as American founding fathers George Washington Thomas Jefferson and John Adams The research study finds that the assertion that the Hammurabi Code is an underlying document of the United Statesas millions of American high school students are being taught todayis not correct The U S Declaration of Independence the U S Constitution and the Bill of Rights are the founding documents of the United States The study challenges the claim by both legalists and religionists to the presumed importance of this ancient code to the foundations of American governmentnow and in the past It warns that historical revisionism of this type poses a threat to U S national security at a time when American values are being challenged abroad especially in the Middle East It finds no overall uniform oversight or coordination of parties at all levels involved in high school textbook content The present system for fully reviewing textbooks and curriculaa combination of publishers school boards issue blind teachers and academics government and national security agenciesis not working Unless corrected the foundations of freedom and democracy and the Judeo Christian spiritual values upon which they are built will continue to be seriously eroded in the nations high schools      **Democracy in America: Is it in Peril?** Plammoottil V. Cherian,2023-02-23 Democracy in the world is backsliding in many countries around the globe at the present time due to various reasons Different nations may have their own particular reasons such as socioeconomic inequality poverty failure of checks and balances that may result in an abrupt military coup d etat to change from democracy to tyranny In nations where democracy failed there were no tanks on the street Constitution of the land remained but elected leaders became autocrats maintaining a veneer of democracy America being a nation with nearly 80 percent of Christians has been the strongest democracy in the world who championed it as the model for the rest of the world However democracy in America appears to be in peril because of political bickering partisan gridlock and promulgation of falsities misinformation and faux faith by one political party By introducing the foundational principles of democracy from the philosophical arguments of Socrates Plato and

Aristotle the author shows how and why the cornerstone of democracy in America shows signs of crumbling The book vividly explains Politics without God will shatter the foundation of democracy Present political system rejects the checks and balances laid by the founding fathers The right wing has cultivated a spirit of untruth that spreads like a wildfire Rejecting truth by political parties and leadership is a sign of strong delusion There is a clear moral bankruptcy in the present political sphere of our nation The brightness of democracy in America which Tocqueville praised has been tarnished Hypocritical and dishonest leaders should not reign lest the people be ensnared American politicians must register their solemn oath in heaven to act in truth No nation can be established in one day but can shatter in one day by a despot America must realign with God to lead the nation in truth justice and freedom for all Democracy turns to tyranny when a moral man becomes amoral With biblical prophecies and instructions the author shows that America faces a real threat to its democracy unless it resists tyrants with all their mind soul and strength which is obedience to God who can anchor the nation on its solid foundation set by the Founding Fathers Every citizen political and judicial leaders of the nation are the cupbearers and the watchmen of the nation

**What Do You Have To Lose?** David L. Nelson, Mary Margaret Serpento, 2024-11-14 This book is different It seeks to answer a question Donald Trump asked voters What the hell have you got to lose by showing how our right to vote in free and fair elections and to have our vote counted is under attack on several fronts some obvious some not It shows how the U S Constitution gave us that right and so much more But the January 6 2021 violence was the first time in our history the right came under direct assault by our own citizens It drove the message home voters you got skin in the game From the Civil War onward Americans have struggled to secure their rights in court and through the ballot box But the current threat is more than battles over voting rights and hot button issues vastly different from anything we faced before and very real This book inventories those rights and explains how they stand at the forefront of the American experience It walks the reader through the threat to our rights and representative democracy It emphasizes that voters only have a democracy if they keep it and vote

American Constitutionalism Heard Round the World, 1776-1989 George Athan Billias, 2011-12 Winner of the 2010 Book Award from the New England Historical Association American constitutionalism represents this country's greatest gift to human freedom yet its story remains largely untold For over two hundred years its ideals ideas and institutions influenced different peoples in different lands at different times American constitutionalism and the revolutionary republican documents on which it is based affected countless countries by helping them develop their own constitutional democracies Western constitutionalism of which America was a part along with Britain and France reached a major turning point in global history in 1989 when the forces of democracy exceeded the forces of

autocracy for the first time Historian George Athan Billias traces the spread of American constitutionalism from Europe Latin America and the Caribbean region to Asia and Africa beginning chronologically with the American Revolution and the fateful shot heard round the world and ending with the conclusion of the Cold War in 1989 The American model contributed significantly by spearheading the drive to greater democracy throughout the Western world and Billias s landmark study tells a story that will change the way readers view the important role American constitutionalism played during this era

**Annual Report** United States. National Archives and Records Administration, American Treasures Stephen Puleo,2016-08-30 Stephen Puleo s American Treasures is a narrative history of America s secret efforts to hide its founding documents from Axis powers and its national tradition of uniting to defend the definition of democracy A Boston Globe Bestseller On December 26 1941 Secret Service Agent Harry E Neal stood on a platform at Washington s Union Station watching a train chug off into the dark and feeling at once relieved and inexorably anxious These were dire times as Hitler s armies plowed across Europe seizing or destroying the Continent s historic artifacts at will Japan bristled to the East The Axis was rapidly closing in So FDR set about hiding the country s valuables On the train speeding away from Neal sat four plain wrapped cases containing the documentary history of American democracy the Declaration of Independence the Constitution the Gettysburg Address and more guarded by a battery of agents and bound for safekeeping in the nation s most impenetrable hiding place American Treasures charts the little known journeys of these American crown jewels From the risky and audacious adoption of the Declaration of Independence in 1776 to our modern Fourth of July celebrations American Treasures shows how the ideas captured in these documents underscore the nation s strengths and hopes and embody its fundamental values of liberty and equality Stephen Puleo weaves in exciting stories of freedom under fire from the Declaration and Constitution smuggled out of Washington days before the British burned the capital in 1814 to their covert relocation during WWII crafting a sweeping history of a nation united to preserve its definition of democracy

**Perfecting the Union** Max M. Edling,2021 In Perfecting the Union Max M Edling focuses on the reform of the American Union brought about by the framing and adoption of the Constitution and the resulting division of duties and powers between the national government and the states He argues that the Constitution profoundly altered the structure of the American Union and made the federal government more effective than under the defunct Articles of Confederation but does not accept that federal power expanded at the expense of the states He therefore offers a powerful new interpretation of the Constitution that has

important implications for our understanding of the American founding
