**The European Baptist Federation** Keith G. Jones,2009-11-01 A criticism often leveled at Baptists is that they have no theology of ecclesial reality beyond the local In this book Keith Jones describes the history and current reality of the European Baptist Federation EBF which brings together over fifty national Baptist groups in Europe and the Middle East and seeks to demonstrate that there is an ecclesial reality within the organization expressed in its communal life mission activity working on theological education in relationship to other Christian world communions and in its decision making processes The role of the pivotal figure of the General Secretary of the EBF is examined with particular reference to two significant figures The relationship of European Baptists during the cold war era is explored as is the relationship to two key mission agencies from the USA who have done much work in Europe This represents ground breaking work in terms of an examination of how Baptists in Europe work together trans nationally

**Beyond the Borders of Baptism** Michael L. Budde,2016-09-02 People worldwide find themselves part of overlapping communities of identity and belonging racial political cultural sexual ideological Some identities like brand loyalties are chosen some like class identity are imposed As followers of Jesus Christ those called to live in between the age that is and the age to come Christians ask what it means to be part of the body of Christ God s new creation from among the nations in a world filled with other nations Who and whose are we There is no easy answer no time at which Christians got it completely right Yet such questions must be addressed and the stakes are high Matters of war and peace exclusion and inclusion who starves and who does not the credibility of the gospel itself all are caught up in the whirl of identities allegiances imposed or refused and questions about what the church might possibly mean in such circumstances In this book a distinguished group of scholars from five continents asks How can the church respect the diversity of its members many nations cultures and communities while maintaining a coherent witness to the kingdom of

Mudrov, 2016-06-03 All too often religion is largely ignored as a driver of identity formation in the European context whereas in reality Christian Churches are central players in European identity formation at the national and continental level Christian Churches in European Integration challenges this tendency highlighting the position of churches as important identity formers and actors in civil society Analysing the role of Churches in engaging with two specific EU issues that of EU treaty reform and ongoing debates about immigration and asylum policy the author argues that Churches are unique participants in European integration Establishing a comprehensive view of Christian Churches as having a vital role to play in European integration this book offers a substantial and provocative contribution both to our understanding of the European Union and the broader question of how religious and state institutions interact with one another      **Essays in Ecumenical Theology I** Ivana Noble, 2018-11-26 In the first volume of Essays in Ecumenical Theology Ivana Noble depicts differences between what she calls a sectarian outlook and one which engages in the search for common roots dialogical relationships and shared mission in a world that has largely become post Christian but often also post secular Drawing on both Western and Orthodox scholarship and expressing her own positions Noble sketches what ecumenical theology is how it is linked to spirituality the methods it uses how it developed during the twentieth century and the challenges it faces Specific studies deal with controversial interpretations of Jan Hus Catholic Modernism the problematic heritage of the totalitarian regimes and responses to the current humanitarian crisis      *The Eschatological Person* Andrew T. J. Kaethler, 2022-07-12 Both Alexander Schmemmann and Joseph Ratzinger insist that the human person remains shrouded in mystery without God's self disclosure in the person of Jesus Christ Like us Jesus lived in a particular time and location and therefore time and temporality must be part of the ontological question of what it means to be a human person Yet Jesus the one who has time for us ascended to the Father and the bride of Christ awaits his return and therefore time and temporality are conditioned by the eschatological With this in mind the ontological question of personhood and temporality is a question that concerns eschatology how does eschatology shape personhood Bringing together Schmemmann and Ratzinger in a theological dialogue for the first time this book explores their respective approaches and answers to the aforementioned question While the two

theologians share much in common it is only Ratzinger's relational ontological approach that by being consistently relational from top to bottom consistently preserves the meaningfulness of temporal existence      *Essays in Ecumenical Theology II* Ivana Noble, 2022-06-08 In this volume of *Essays in Ecumenical Theology* Ivana Noble engages in conversations with Orthodox theologians and spiritual writers on diverse themes These include the discovery of the human heart what illumination by divine light means the relationship between prayer and attitudes and acts of social solidarity the problematic nature of sacrificial thinking as the way to express redemption through Christ the ecological dimension of theological anthropology the need for freedom to coexist with love for others and why institutions need to turn not only to their own traditions but also to the Spirit that blows where it wills      **Meeting God in the Other** Alina Patru, 2020-03-04 The present volume unites 44 studies to honor Prof Dr Dorin Oancea Romanian Orthodox theologian and religious studies scholar well known as a bridge builder between Eastern and Western Christian Traditions The manifold studies reflect upon the fundamentals of interfaith and inter confessional openness offer insightful examples from past and present or point to the loci where this openness can and should be achieved today A meaningful collection for all those interested in present day ecumenical theology in inter confessional studies or theology of religions      **Speaking with Aquinas** David Farina Turnbloom, 2017-02-01 According to Thomas Aquinas the Eucharist is meant to build up the unity of the church This desired ecclesial unity is however not often given adequate treatment In *Speaking with Aquinas* David Farina Turnbloom seeks to describe the relationship between the celebration of the Eucharist and the unity of the church By examining Aquinas's treatment of grace and virtues this book allows the reader to understand Aquinas's eucharistic theology within the context of the spiritual life of the church In the end Turnbloom retrieves a Thomistic theology of the Eucharist that arises from Aquinas's concern for the virtuous life of the church rather than a eucharistic theology that too narrowly focuses on theories of transubstantiation      *Embodied Words, Spoken Signs* Rhodora E. Beaton, 2014 The twentieth century witnessed a renewed interest in a Roman Catholic theology of the word The beginning of this renewal is marked by the work of Karl Rahner who before the Second Vatican Council decried the fact that Roman Catholicism in contrast to the Protestant theological tradition lacked an adequate theology of the word Rahner's contributions as well as those of sacramental theologian Louis Marie Chauvet demonstrate the Roman Catholic conviction that the word is fundamentally sacramental it has the capacity to bear God's presence to humanity Rooted in patristic and medieval sacramental tradition and engaged in dialogue with Reformation theologies Rhodora Beaton examines the further advances in Rahner and Chauvet to articulate the relationship between word and sacrament within the context of language culture and an already graced world as the place of divine self expression as well as analyzes the implications for Trinitarian theology sacramentality liturgy and action      **Sacramental Presence after Heidegger** Conor Sweeney, 2015-01-19 Theology after Heidegger must take into account history and language as constitutive elements in the pursuit of meaning Quite often this prompts a hurried flight from metaphysics to an

embrace of an absence at the center of Christian narrativity In this book Conor Sweeney explores the postmodern critique of presence in the context of sacramental theology engaging the thought of Louis Marie Chauvet and Lieven Boeve Chauvet is an influential postmodern theologian whose critique of the perceived onto theological constitution of presence in traditional sacramental theology has made big waves while Boeve is part of a more recent generation of theologians who even more wholeheartedly embrace postmodern consequences for theology Sweeney considers the extent to which postmodernism a la Heidegger upsets the hermeneutics of sacramentality asking whether this requires us to renounce the search for a presence that by definition transcends us Against both the fetishization of presence and absence Sweeney argues that metaphysics has a properly sacramental basis and that it is only through this reality that the dialectic of presence and absence can be transcended The case is made for the full but restless signification of the mother's smile as the paradigm for genuine sacramental presence

*The Future of the Global Church* Patrick Johnstone, 2014-01-17 In *The Future of the Global Church* Patrick Johnstone author of six editions of the phenomenal prayer guide *Operation World* draws on his fifty years experience to present a breathtaking full color graphical and textual overview of the past present and possible future of the church around the world

*Graphs of Groups on Surfaces* A.T. White, 2001-04-27 The book suitable as both an introductory reference and as a text book in the rapidly growing field of topological graph theory models both maps as in map coloring problems and groups by means of graph imbeddings on surfaces Automorphism groups of both graphs and maps are studied In addition connections are made to other areas of mathematics such as hypergraphs block designs finite geometries and finite fields There are chapters on the emerging subfields of enumerative topological graph theory and random topological graph theory as well as a chapter on the composition of English church bell music The latter is facilitated by imbedding the right graph of the right group on an appropriate surface with suitable symmetries Throughout the emphasis is on Cayley maps imbeddings of Cayley graphs for finite groups as possibly branched covering projections of surface imbeddings of loop graphs with one vertex This is not as restrictive as it might sound many developments in topological graph theory involve such imbeddings The approach aims to make all this interconnected material readily accessible to a beginning graduate or an advanced undergraduate student while at the same time providing the research mathematician with a useful reference book in topological graph theory The focus will be on beautiful connections both elementary and deep within mathematics that can best be described by the intuitively pleasing device of imbedding graphs of groups on surfaces

**God and the EU** Jonathan Chaplin, Gary Wilton, 2015-12-14 The current political economic and financial crises facing the EU reveal a deeper cultural indeed spiritual malaise a crisis in the soul of Europe Many observers are concluding that the soul of Europe cannot be restored to health without a new appreciation of the contribution of religion to its past and future and especially that of its hugely important but widely

neglected Christian heritage which is alive today even amidst advancing European secularization This book offers a fresh constructive and critical understanding of Christian contributions to the origin and development of the EU from a variety of theological and national perspectives It explains the Christian origins of the EU documents the various ways in which it has been both affirmed and critiqued from diverse theological perspectives offers expert theologically informed assessments of four illustrative policy areas of the EU trade finance environment science and also reports on the place of religion in the EU including how religious freedom is framed and how contemporary religious including Muslim actors relate to EU institutions and vice versa The book fills a major gap in the current debate about the future of the European project and will be of interest to students and scholars of religion politics and European studies
