WORKBOOK Virginia S. Nicols, 2019-09-03 *Emergency Preparedness for Mobilehome Communities THE WORKBOOK* is not just a response to a public need but a drive to make emergency preparedness a community reality We all know it's important to stock up on water in the face of catastrophic events like earthquakes wildfires and hurricanes But what are your options in a mobile home What medicines should you store and what is the best way to do it Do you buy one or more of those pre-made survival packs or build one yourself What kind of lighting will you need during a power outage or a major emergency These are just a few of the dozens and dozens of choices you and your neighbors will be making in forming a community response team for your neighborhood Living in a mobile home community definitely has its advantages Neighbors are close and can readily lend a hand But natural disasters have taken a disproportionate toll on mobile home parks pointing to the necessity of

an organized population to cope with the challenges Fortunately most parks offer a perfect place for building a strong community preparedness culture But it does take time and effort THE WORKBOOK is aimed at SIMPLIFYING that process Emergency Preparedness for Mobilehome Communities was my first book on the topic Based on my years of planning experience with emergency preparedness and disaster recovery challenges it covers many aspects of preparedness from 1 personal readiness to 2 getting more neighbors involved to 3 actually putting together a written neighborhood plan Appendices of the book cover threats recruitment ideas legal cautions training options and emergency communications Throughout I've listed additional proven resources While the book has been well received readers have admitted to me that there was still too much for them to get their arms around So I wrote a companion THE WORKBOOK It follows the same content flow so you'll want to keep the book close at hand to refer to But THE WORKBOOK is truly a workbook as you'd expect It has simple questions and spaces for you to write your answers Step by step you'll be taking action Answering questions to help set personal priorities Researching what planning has already been done Making sure park management is on board Finding and inviting interested neighbors Getting training for yourself and your team Learning about park infrastructure utilities etc Picking which disasters to plan for Meeting the First Responders that serve your community Planning and holding meetings for all your park neighbors The Q & A format of THE WORKBOOK moves you and your group forward by simple steps one after another on your own time frame Many of the questions make it easy to engage others in your family household or group If you haven't been able to make the progress you'd like on your own readiness or if you want to help your whole mobilehome park community get better prepared get Emergency Preparedness for Mobilehome Communities and its companion THE WORKBOOK Everything you need to know is in these step by step guides It's not only an important tool in building your personal survival plan it actually turns the process into an enjoyable experience Each page you complete will increase your self confidence and peace of mind

Emergency Preparedness for Apartment

Communities - the WORKBOOK Virginia S. Nicols, 2019-09-11 From an Emergency Preparedness Planning perspective apartment living has some advantages over detached homes in that residents are housed closely together as opposed to being scattered throughout the community This makes it easier to communicate and in a disaster scenario it's likely that triage assessing seriousness of injuries can be conducted more expeditiously But there are also drawbacks particularly from the standpoint of stocking emergency supplies of food and water and ability to secure furniture and appliances by attaching them to walls etc Also depending on the type of apartment building's there may be limited avenues of escape and additional risks of fire or other hazards due to the close proximity of neighbors In 2018 I wrote the book Emergency Preparedness for Apartment Communities based on my own years as a both an apartment renter and a homeowner It covers many aspects of preparedness from 1 personal readiness to 2 getting more neighbors involved to 3 actually putting together a written plan Appendices in the book cover different threats recruitment ideas legal cautions training options and emergency

communications Throughout I ve listed additional resources People liked the book but admitted to me that there was still too much for them to get their arms around So I wrote a companion THE WORKBOOK It follows the same content flow but is truly a workbook just as you d expect It has simple questions and spaces for you to write your answers Step by step you ll be taking action Answering questions to help set personal priorities Researching what planning has already been done Making sure your owners and or managers are on board Finding and inviting interested neighbors to learn more Getting training for yourself and your team Learning about your community infrastructure utilities etc Picking which disasters to plan for Meeting the First Responders that serve your community Planning and holding meetings for neighbors to learn more about first aid ways to strengthen your home etc The Q A format of THE WORKBOOK moves you and your group forward by simple steps one after another on your own time frame Many of the questions make it easy to engage others in your family or group If you haven t been able to make the progress you d like on your own readiness or if you want to help your whole community get better prepared get *Emergency Preparedness for Apartment Communities* and its companion THE WORKBOOK Everything you re likely to need to know is in these step by step guides as well as how and where to go to find everything else
