Empires in Collision in Late Antiquity Glen Warren Bowersock, 2012 Political and military developments in the Arabian Peninsula on the eve of Islam **Empires in Collision in Late Antiquity** G. W. Bowersock, 2012-09-11 Political and military developments in the Arabian Peninsula on the eve of Islam The Apocalypse of Empire Stephen J. Shoemaker, 2018-11-09 In *The Apocalypse of Empire* Stephen J. Shoemaker argues that earliest Islam was a movement driven by urgent eschatological belief that focused on the conquest or liberation of the biblical Holy Land and situates this belief within a broader cultural environment of apocalyptic anticipation Shoemaker looks to the Qur'an's fervent representation of the imminent end of the world and the importance Muhammad and his earliest followers placed on imperial expansion Offering important contemporary context for the imperial eschatology that seems to have fueled the rise of Islam he surveys the political eschatologies of early Byzantine Christianity Judaism and Sasanian Zoroastrianism at the advent of Islam and argues that they often relate imperial ambition to beliefs about the end of the world Moreover he contends formative Islam's embrace of this broader religious trend of Mediterranean late antiquity provides invaluable evidence for understanding the beginnings of the religion at a time when sources are generally scarce and often highly problematic Scholarship on apocalyptic literature in early Judaism and Christianity frequently maintains that the genre is decidedly anti-imperial in its very nature While it may be that early Jewish apocalyptic literature frequently displays this tendency Shoemaker demonstrates that this quality is not characteristic of apocalypticism at all times and in all places In the late antique Mediterranean as in the European Middle Ages apocalypticism was regularly associated with ideas of imperial expansion and triumph which expected the culmination of history to arrive through the universal dominion of a divinely chosen world empire This imperial apocalypticism not only affords an invaluable backdrop for understanding the rise of Islam but also reveals an important transition within the history of Western doctrine during late antiquity **Rethinking the Qur'ān in Late Antiquity** Juan Cole, 2025-03-03 How the Qur'an reflects on and responds to the regional cultural religious and political currents swirling in Western Arabia and neighboring areas during the great war 603-630 between the Roman and Sasanian empires The book approaches the Qur'an through six case studies The first two consider the era 200-800 CE which classicist Peter Brown dubbed late antiquity The second two contextualize quranic stories and tropes in the era of Herakleios and Khosrow II The final pair consider issues in how the Qur'an was constituted both physically and stylistically and also sets these processes in their late antique context The book treats the constitution of the quranic text first physically and then rhetorically The use in the Qur'an of the technique of narrative apostrophe is for the first time subjected to a concerted analysis These themes are all united by a concern to understand better issues in why the Qur'an makes certain narrative choices how the narrative changes over time and how it articulates with other texts and perspectives *The Throne of Adulis* G.W. Bowersock, 2013-04-01 Just prior to the rise of Islam in the sixth century AD southern Arabia was embroiled in a

violent conflict between Christian Ethiopians and Jewish Arabs Though little known today this was an international war that involved both the Byzantine Empire which had established Christian churches in Ethiopia and the Sasanian Empire in Persia which supported the Jews in what became a proxy war against its longtime foe Byzantium Our knowledge of these events derives largely from an inscribed marble throne at the Ethiopian port of Adulis meticulously described by a sixth century Christian merchant known as Cosmas Indicopleustes Using the writings of Cosmas and a wealth of other historical and archaeological evidence from the period eminent historian G W Bowersock carefully reconstructs this fascinating but overlooked chapter in pre Islamic Arabian history The flashpoint of the war Bowersock tells us occurred when Yusuf the Jewish king of Himyar massacred hundreds of Christians living in Najran The Christian ruler of Ethiopia Kaleb urged on by the Byzantine emperor Justin led a force of 120 000 men across the Red Sea to defeat Yusuf But when the victorious Kaleb said to have retired to a monastery left behind weak leaders in both Ethiopia and Himyar the Byzantine and Persian empires expanded their activity in the Arabian territory In the midst of this conflict a new religion was born destined to bring a wholly unanticipated resolution to the power struggle in Arabia The Throne of Adulis vividly recreates the Red Sea world of Late Antiquity transporting readers back to a remote but pivotal epoch in ancient history one that sheds light on the collapse of the Persian Empire as well as the rise of Islam

The Capture of Jerusalem by the Persians in 614 CE by Strategius of Mar Saba Sean W. Anthony,Stephen J. Shoemaker,2024-12-31 In 614 CE the armies of Sasanid Persia shocked the Eastern Roman Empire when they besieged and captured Jerusalem taking a large swath of its population into captivity along with the city's patriarch and the famed relic of the True Cross This astounding Persian victory over Christian Jerusalem was a key episode in the last war between Rome and Persia in 602-628 CE and occurred at the high tide of Persian advances into the Roman territories in Asia Minor the Levant and Egypt Among those taken captive was a certain Strategius a monk of Mar Saba who subsequently took it upon himself to compose a homily recounting the events leading up to the Persian siege of the Holy City and its aftermath Strategius presents his pious and harrowing account as that of an eyewitness to many of the events he recounts For events he did not himself witness he purports to rely on contemporary informants who did making his treatise a source with few parallels in late antiquity Although Strategius's original account in Greek is lost it survives via later translations into Georgian and Christian Arabic two languages that attained prominence in the monasteries of Palestine during the Islamic period This volume provides for the first time a complete side by side English

translation of both the Georgian and the Arabic recensions **A Prophet Has Appeared** Stephen J. Shoemaker, 2021-03-02 Early Islam has emerged as a lively site of historical investigation and scholars have challenged the traditional accounts of Islamic origins by drawing attention to the wealth of non Islamic sources that describe the rise of Islam A Prophet Has Appeared brings this approach to the classroom This collection provides students and scholars with carefully selected introduced and annotated materials from non Islamic sources dating to the early years of Islam These can be read alone or alongside the Qur'an and later Islamic materials Applying historical critical analysis the volume moves these invaluable sources to more equal footing with later Islamic narratives about Muhammad and the formation of his new religious movement Included are new English translations of sources by twenty authors originally written in not only Greek and Latin but also Syriac Georgian Armenian Hebrew and Arabic and spanning a geographic range from England to Egypt and Iran Ideal for the classroom and personal library this sourcebook provides readers with the tools to meaningfully approach a new burgeoning area of Islamic studies The Qur'an Seminar Commentary / Le Qur'an Seminar Mehdi Azaiez, Gabriel Said Reynolds, Tommaso Tesei, Hamza M. Zafer, 2016-11-07 The present volume is the work of 25 scholars who represent various specializations important to the study of the Qur'an including Arabic language comparative Semitic linguistics paleography epigraphy history rhetorical theory hermeneutics and Biblical studies The starting point of this work was a series of five international conferences on the Qur'an at the University of Notre Dame over the academic year 2012 13 although the commentaries contributed during those conferences have been carefully edited to avoid repetition Readers of The Qur'an Seminar Commentary will find that the 50 passages selected for inclusion in this work include many of the most important and influential elements of the Qur'an including Q 1 al Fatiha Q 2 30 39 the angelic prostration before Adam Q 2 255 the Throne Verse Q 3 7 the muhkamat and mutashabihat Q 4 3 polygamy and monogamy Q 5 112 15 the table al ma'ida from heaven Q 9 29 fighting the People of the Book and the jizya Q 12 the story of Joseph Q 24 45 the Light Verse Q 33 40 the seal of the prophets Q 53 the satanic verses Q 96 including the passage often described as the first revelation Q 97 the night of qadr Q 105 the Companions of the Elephant Q 112 on God and the denial of a divine son The collaborative nature of this work which involves a wide range of scholars discussing the same passages from different perspectives offers readers with an unprecedented diversity of insights on the Qur'anic text *University Press of New England: Fall 2012 New Titles* , *Three Christian Martyrdoms from Early Islamic Palestine* , 2023-11-20 All three of the martyrdoms presented in this volume were composed at the Mar Saba monastery in the Judean Desert They share a common high literary style although each is very different in the manner that it portrays Christian martyrdom at the hands of the Muslims All three are attributed to famous members of this renowned monastic community The editions of each text have been corrected and compared with the manuscript evidence when available The English translations are the first for each into any modern language other than Russian A Guide to Early Jewish Texts and Traditions in Christian Transmission Alexander Kulik, Lorenzo

DiTommaso,2019 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions but its main sources have been preserved to a great degree through Christian transmission This Guide is devoted to problems of preservation reception and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era It approaches this corpus not as an artificial collection of reconstructed texts a body of hypothetical originals but rather from the perspective of the preserved materials examined in their religious social and political contexts It also considers the other non Christian channels of the survival of early Jewish materials including Rabbinic Gnostic Manichaeism and Islamic This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and traditions among diverse later cultures It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity

In Pursuit of Civility Keith Thomas,2018-06-05 Keith Thomas's earlier studies in the ethnography of early modern England *Religion and the Decline of Magic* *Man and the Natural World* and *The Ends of Life* were all attempts to explore beliefs values and social practices in the centuries from 1500 to 1800 In Pursuit of Civility continues this quest by examining what English people thought it meant to be civilized and how that condition differed from being barbarous or savage Thomas shows that the upper ranks of society sought to distinguish themselves from their social inferiors by distinctive ways of moving speaking and comporting themselves and that the common people developed their own form of civility The belief of

the English in their superior civility shaped their relations with the Welsh the Scots and the Irish and was fundamental to their dealings with the native peoples of North America India and Australia Yet not everyone shared this belief in the superiority of Western civilization the book sheds light on the origins of both anticolonialism and cultural relativism Thomas has written an accessible history based on wide reading abounding in fresh insights and illustrated by many striking quotations and anecdotes from contemporary sources

The Resistible Rise of Antisemitism Laura Engelstein, 2020-03-05 Antisemitism emerged toward the end of the nineteenth century as a powerful political movement with broad popular appeal It promoted a vision of the world in which a closely knit tribe called the Jews conspired to dominate the globe through control of international finance at the highest levels of commerce and money lending in the towns and villages This tribe at the same time maneuvered to destroy the very capitalist system it was said to control through its devotion to the cause of revolution It is easy to draw a straight line from this turn of the century paranoid thinking to the murderous delusions of twentieth century fascism Yet the line was not straight Antisemitism as a political weapon did not stand unchallenged even in Eastern Europe where its consequences were particularly dire In this region Jewish leaders mobilized across national borders and in alliance with non Jewish public figures on behalf of Jewish rights and in opposition to anti Jewish violence Antisemites were called to account and forced on the defensive In Imperial and then Soviet Russia in newly emerging Poland and in aspiring Ukraine notorious in the West as antisemitic hotbeds antisemitism was sometimes a moral and political liability These intriguing essays explore the reasons why and they offer lessons from surprising places on how we can continue to fight antisemitism in our times
