Beyond the World of Titans, and the Remaking of World Order Peter Baofu, 2009-03-26 Contrary to the conventional wisdom held by many not only the dominance of the U S in the post Cold War era is much exaggerated but also its days as a hyper power are ending Instead the world is slowly but steadily evolving towards what Dr Baofu originally calls the dawn of the post post Cold War era in the world of titans for a tremendous remaking of world order to be governed by different types of empires crossing regional borders This has important implications for understanding the logic of empire building be it in the past present or future to the extent that the current theoretical debate on international relations among different paradigms is as much misleading as obsolete The current debate also obscures something more tremendous in the long run in relation to the emergence of what Dr Baofu proposes as the union of the unions in the farther future that humans have never known both here on earth and later in deep space
