Turnbull,1994 This text takes a critical approach to both contemporary issues and trends and to the core areas and concepts of employee relations Case studies from a diversity of settings are integrated into the text which is based on extensive research and teaching experience Employer-employee Relations Wayne Leslie McNaughton,1946 *Contemporary Issues in Employment Relations* David Lewin,2006 Provides a new thematic treatment of key employment relations issues Includes collective bargaining worker disability the return to work alternative dispute resolution managerial misclassification and violations of overtime law new developments in performance based pay and retirement from work and managing one s own money **Employee Relationship** Ankita Verma,2013-08-10 Employee Relations An organization can t perform only with the help of chairs tables fans or other non living entities It needs human beings who work together and perform to achieve the goals and objectives of the organization The human beings working together towards a common goal at a common place organization are called employees In fact the employees are the major assets of an organization The success and failure of any organization is directly proportional to the labor put by each and every employee The employees must share a good rapport with each other and strive hard to realize the goal of the organization They should complement each other and work together as a single unit For the employees the organization must come first and all their personal interests should take a back seat Every individual shares a certain relationship with his colleagues at the workplace The relationship is either warm so so or bad The relationship can be between anyone in the organization between co workers between an employee and his superior between two members in the management and so on It is important that the employees share a healthy relationship with each other to deliver their best performances An individual spends his maximum time at the workplace and his fellow workers are the ones with whom he spends the maximum hours in a day No way can he afford to fight with his colleagues Conflicts and misunderstandings only add to tensions and in turn decrease the productivity of the individual One needs to discuss so many things at work and needs the advice and suggestions of all to reach to a solution which would benefit the individual as well as the organization No individual can work alone He needs the support and guidance of his fellow workers to come out with a brilliant idea and deliver his level best Employee relations refer to the relationship shared among the employees in an organization The employees must be comfortable with each other for a healthy environment at work It is the prime duty of the superiors and team leaders to discourage conflicts in the team and encourage a healthy relationship among employees Life is really short and it is important that one enjoys each and every moment of it Remember in an organization you are paid for your hard work and not for cribbing or fighting with each other Don t assume that the person sitting next to you is your enemy or will do any harm to you Who says you can t make friends at work in fact one can make the best of friends in the office There is so much more to life than fighting with each other Observation says that a healthy relation among the employees goes a long way in motivating the employees and increasing their confidence and morale One starts enjoying his office and does not take his work as a burden He feels charged and fresh
