timely *West Border Road* offers an interdisciplinary analysis of contemporary Canadian manifestations of three American genres the western the border and the road It situates close readings of literary film and television narratives from both English Canada and Quebec within a larger context of Canadian generic borrowing and innovation Katherine Ann Roberts calls upon canonical works in Canadian studies theories of genre and a wide range of scholarship from border studies cultural studies and film studies to examine how genre is appropriated and sometimes reworked and how these cultural narratives engage with discourses of contemporary Canadian nationhood The author elucidates Guy Vanderhaeghe's rewriting of the codes of the historical western to include the trauma of Aboriginal peoples Aritha van Herk's playful spoof on American western iconography the politics and perils of the representation of the Canada US border in CBC produced crime television and how the road genre inspires and constrains the Québécois and Canadian road movie A reminder of the power and limitations of American genres *West Border Road* provides a nuanced perspective on Canadian engagement with cultural forms that may be imported but never foreign

Cinema of Pain Liz Czach, André Loiselle, 2020-07-29 Since the defeat of the pro sovereigntists in the 1995 Quebec referendum the loss of a cohesive nationalistic vision in the province has led many Québécois to use their ancestral origins to inject meaning into their everyday lives *A Cinema of Pain* argues that this phenomenon is observable in a pervasive sense of nostalgia in Quebec culture and is especially present in the province's vibrant but deeply wistful cinema In Québécois cinema nostalgia not only denotes a sentimental longing for the bucolic pleasures of bygone French Canadian traditions but as this edited collection suggests it evokes the etymological sense of the term which underscores the element of pain *algos* associated with the longing for a return home *nostos* Whether it is in grandiloquent historical melodramas such as *Saphin un homme et son pch Binam* 2002 intimate realist dramas like *Tout ce que tu possèdes* 2012 charming art films like *C R A Z Y Vallée* 2005 or even gory horror movies like *Sur le Seuil* Tessier 2003 the contemporary Québécois screen projects an image of shared suffering that unites the nation through a melancholy search for home

Transatlantic Passages Paula Gilbert, Miléna Santoro, 2010-10-20 Despite a burgeoning interest in transatlantic and regional studies the long standing cultural connections between francophone communities on both sides of the Atlantic have received little critical attention *Transatlantic Passages* presents essays interviews and images that address the often neglected cultural commerce integral to understanding historical and contemporary identities in Quebec and francophone Europe

America, History and Life, 1998 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide

The Canadian Encyclopedia James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing

out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada s motto and a good description of this volume s range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada s finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada

Canadian Fantasy and Science-fiction Writers Douglas Ivison, 2002 Essays on the writers and works of Canadian fantasy and science fiction that have made this genre an important component of Canadian literature one that must be considered by Canadian literary scholars Documents the rapid development of Canadian fantasy and science fiction from the early 1980s to the beginning of the twenty first century

Immigrant and Ethnic-Minority Writers since 1945 , 2018-07-17 This study analyses how

immigrant and ethnic minority writers have challenged the understanding of certain national literatures and have markedly changed them. In other national contexts, ideologies and institutions have contained the challenge these writers pose to national literatures. Case studies of the emergence and recognition of immigrant and ethnic minority writing come from fourteen national contexts. These include classical immigration countries such as Canada and the United States, countries where immigration accelerated and entered public debate after World War II such as the United Kingdom, France, and Germany, as well as countries rarely discussed in this context such as Brazil and Japan. Finally, this study uses these individual analyses to discuss this writing as an international phenomenon.

Cury, Sarah De Mul, Sneja Gunew, Dave Gunning, Kristina Iwata, Weickgenannt Martina Kamm, Liesbeth Minnaard, Maria Oikonomou, Wenche Ommundsen, Marie Orton, Laura Reeck, Daniel Rothenb. hler, Cathy J. Schlund Vials, Wiebke Sievers, Bettina Spoerri, Christl Verduyn, Sandra Vlasta. The Semiotic Sphere, Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06. Although semiotics has in one guise or another flourished uninterruptedly since pre-Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions, semiotics as an organized undertaking began to bloom only in the 1960s. Workshops materialized with a perhaps surprising spontaneity over much of Europe, Eastern and Western, and in North America. Thereafter, others quickly surfaced almost everywhere over the literary globe. Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems, their comparative analysis, and their classification. More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward. Bit by bit, mutually supportive international networks were put together. Today it can truly be asserted that semiotics has become a global enterprise. This, of course, is far from saying that the map is uniform or even that world-wide homogeneity is in the least desirable. While our conjoint ultimate goal remains steadily in focus, the multiplicity of avenues available for its realization is inherent in the adventure of the search itself.

Marie-Claire Blais, Irene Oore, Oriel MacLennan, 1998-03. The most comprehensive reference guide to one of Canada's most distinguished writers. A three-time Governor General's Award winner, Marie-Claire Blais has changed the literary landscape of the nation. An indispensable source for information on both Blais's works and on the wealth of criticism devoted to the writer, this bibliography also provides accurate and insightful details about manuscript and archival material. Oore and MacLennan have fully annotated all of the critical material concerned with Blais's writing, and their book also includes thorough coverage of Blais-related radio and television broadcasts in France and Canada, as well as a guide to all published interviews with this important writer. An essential text to Blais scholars and of great interest to students and researchers in both Canadian and Québec literature and in women's studies and comparative literature.
