Encounters Russian Avant Garde Michael Craig:

Encounters with the Russian Avant-Garde Michael Craig, 2015-12-01 Encounters with the Russian Avant garde complements the series of six films made by Michael Craig and Copernicus Films about the Russian Avant garde of the 1920s and 30s Fully illustrated including stills from most of the films it is not only an account or explanation but also an introduction or to be more specific an encounter with this exciting phenomenon The title reflects an active relationship firstly through the experience of living in Moscow for many years plus a direct encounter with the buildings the architecture and the very territory in which much of the avant garde arose and to some extent still exists Encounter suggests something more casual unexpected and unstructured but also a sense of living in the avant garde and being part of it After all it was the intention of the Russian Avant garde to connect with the real lived world and to take art out of the galleries and onto the streets and squares of Moscow

Bakhtin in the Fullness of Time Craig Brandist, Michael Gardiner, E Jayne White, Carl Mika, 2020-05-21 This book takes the works of Mikhail Bakhtin as its inspiration in the contemplation of the potential of dialogic scholarship for philosophy of education While Bakhtin's work has been widely received in educational studies in recent years the academic literature does not sufficiently convey the sophistication of his cultural historical works Selected works on the limits and perspectives of Mikhail Bakhtin are presented in the book In doing so the contributors seek to interpret the work of the Bakhtin Circle in a complex contemporary world Layering and drawing from the many ideas explored by the Circle during their collective lifetimes and those that influenced their work each chapter offers a different dimension of thought concerning issues facing societies remote or perhaps not so remote from the world of post revolutionary Russia In the post 2008 era during which financial crises have morphed into global recession and which characterise growing social inequities widespread political instabilities and further environmental decline and resource depletion what is needed more than ever is a twenty first century Bakhtin one that is occupied with the distinct challenges our times present to all of us The individual contributors to Bakhtin in the Fullness of Time aim to contribute to a revisioning and reassessment of Bakhtin through a diverse series of engagements with both his legacy and future promise In contemplating Bakhtin in the fullness of time historical perspectives and contributions must be encountered in a contemporary understanding that will contribute to philosophy of education today The chapters in this book were originally published in the journal Educational Philosophy and Theory

on the legacy of Jerzy Grotowski this book is composed of a series of reflections on the Stanislavskian lineage of practitioners and related authors in an attempt to revive awareness of the original path traced by the Russian master and to refine certain ambiguities in contemporary training In a new media age of image and sound accompanied by a proliferation of new technologies and means to communicate emphasised by the COVID 19 crisis a classic question comes to be asked of us again What is the essence and the principal objective of the work of the performer Is performing art still necessary While proposing a theoretical advancement of the discipline and an historical overview of the relevant practices this book provides tools for a better understanding of the traditional function of the performer s practice as work on the self for its ecological renaissance through a conscient use of trance attention and altered states of consciousness This book offers insight for students in drama theatre and performance courses studying acting and performance at university
