**Forthcoming Books** Rose Arny, 2004 **The Lithic Assemblages of Qafzeh Cave** Erella Hovers, 2009-06-09 This book presents the first comprehensive description of the lithic assemblages from Qafzeh Cave one of only two Middle Paleolithic sites in the Levant that has yielded multiple burials of early anatomically modern Homo sapiens AMHs The record from this region raises the question of possible long term temporal overlap between early AMHs and Neanderthals For this reason Qafzeh has long been one of the pivotal sites in debates on the origins of AMHs and in attempts to compare and contrast the two species adaptations and behavior Although the hominin fossils from the site were published years ago until now the associated archaeological assemblages were incompletely described often leading to conflicting interpretations This monograph includes a thorough technological analysis of the lithic assemblages incorporated in their geological and sedimentological contexts This description serves as a springboard for regional comparisons as well as a more general discussion about Middle Paleolithic behavior which is relevant to important and as yet unresolved questions on the origins of modern behavior patterns The volume includes a wide ranging and up to date bibliography that provides the middle range for discussing the ecological context and behavioral complexity of the Middle Paleolithic period and ends with some thought provoking conclusions about the dynamic human interactions that existed in the region during this time *The Arabian Seas: Biodiversity, Environmental Challenges and Conservation Measures* Laith A. Jawad, 2021-03-30 The Arabian Seas Marine Region encompasses marine areas from Djibouti to Pakistan including the northern part of Somalia the Red Sea the Arabian Persian Gulf and parts of the Arabian Sea Human pressures on the coastal and marine environments are evident throughout the region and have resulted in harmful environmental effects Oil and domestic urban and industrial pollutants in

several areas of this part of the world have caused local habitat degradation eutrophication and algal blooms Further coastal landfill dredging and sedimentation as well as nutrient and sediment runoff from phosphate mining agriculture and grazing and reduction in freshwater seepage due to groundwater extraction are all contributing to the degradation of coastal environments This book discusses aspects not covered in other books on the region which largely focus on marine biodiversity and examines several environmental challenges that are often ignored but which have a significant impact on the environment Evaluating the status quo it also recommends conservation measures and examines the abiotic factors that play a major main role in the environmental changes Lastly the book addresses the biodiversity of the area providing a general context for the conservation and management measures discussed [Preview](#) ,1988 [Disease and Healing in the Indus Civilisation](#) Robert Arnott,2024-04-25 This book provides insights into health disease and healing in the Indus Civilisation during the third to early second millennia BCE Based on original research it examines skeletal remains material culture and environmental factors The book sheds light on diseases healing practices and public health in this ancient civilization

Pagan Britain Ronald Hutton, 2014-05-13 Britain's pagan past with its mysterious monuments atmospheric sites enigmatic artifacts bloodthirsty legends and cryptic inscriptions is both enthralling and perplexing to a resident of the twenty first century In this ambitious and thoroughly up to date book Ronald Hutton reveals the long development rapid suppression and enduring cultural significance of paganism from the Paleolithic Era to the coming of Christianity He draws on an array of recently discovered evidence and shows how new findings have radically transformed understandings of belief and ritual in Britain before the arrival of organized religion Setting forth a chronological narrative Hutton along the way makes side visits to explore specific locations of ancient pagan activity He includes the well known sacred sites Stonehenge Avebury Seahenge Maiden Castle Anglesey as well as more obscure locations across the mainland and coastal islands In tireless pursuit of the elusive why of pagan behavior Hutton astonishes with the breadth of his understanding of Britain's deep past and inspires with the originality of his insights

*The Connected Past* Tom Brughmans, Anna Collar, Fiona Susan Coward, 2016 One of the most exciting recent developments in archaeology and history has been the adoption of new perspectives which see human societies in the past as in the present as made up of networks of interlinked individuals This view of people as always connected through physical and conceptual networks along which resources information and disease flow requires archaeologists and historians to use new methods to understand how these networks form function and change over time The Connected Past provides a constructive methodological and theoretical critique of the growth in research applying network perspectives in archaeology and history and considers the unique challenges presented by datasets in these disciplines including the fragmentary and material nature of such data and the functioning and change of social processes over long timespans An international and multidisciplinary range of scholars debate both the rationale and practicalities of applying network methodologies addressing the merits and drawbacks of specific techniques of analysis for a range of datasets and research questions and demonstrating their approaches with concrete case studies and detailed illustrations As well as revealing the valuable contributions archaeologists and historians can make to network science the volume represents a crucial step towards the development of best practice in the field especially in exploring the interactions between social and material elements of networks and long term network evolution

*The Art of Being a Parasite* Claude Combes, 2020-06-05 Parasites are a masterful work of evolutionary art The tiny mite *Histiogaster* a parasite of *Drosophila* launches itself in an incredible display of evolutionary engineering like a surface to air missile at a fruit fly far above its head Gravid mussels such as *Lampsilis*

ventricosa undulate excitedly as they release their parasitic larval offspring conning greedy predators in search of a tasty meal into hosting the parasite The Art of Being a Parasite is an extensive collection of these and other wonderful and weird stories that illuminate the ecology and evolution of interactions between species Claude Combes illustrates what it means to be a parasite by considering every stage of its interactions from invading to reproducing and leaving the host An accessible and engaging follow up to Combes s Parasitism this book will be of interest to both scholars and nonspecialists in the fields of biodiversity natural history ecology public health and evolution *Library of Congress Catalogs* Library of Congress,1979

*Bibliography of the History of Medicine* ,1993 *Bodies of Maize, Eaters of Grain: Comparing material worlds, metaphor and the agency of art in the Preclassic Maya and Mycenaean early civilisations* Marcus Jan Bajema,2017-09-30 This book offers a comparative study of the civilisations of the Late Preclassic lowland Maya and Mycenaean Greece The approach used here seeks to combine traditional iconographic approaches with more recent models on metaphor and the social agency of things **The Oxford Handbook of Zooarchaeology** Umberto Albarella, Mauro Rizzetto, Hannah Russ, Kim Vickers, Sarah Viner-Daniels,2017-03-23 Animals have played a fundamental role in shaping human history and the study of their remains from archaeological sites zooarchaeology has gradually been emerging as a powerful discipline and crucible for forging an understanding of our past The Oxford Handbook of Zooarchaeology offers a cutting edge compendium of zooarchaeology the world over that transcends environmental economic and social approaches seeking instead to provide a holistic view of the roles played by animals in past human cultures Incisive chapters written by leading scholars in the field incorporate case studies from across five continents from Iceland to New Zealand and from Japan to Egypt and Ecuador providing a sense of the dynamism of the discipline the many approaches and methods adopted by different schools and traditions and an idea of the huge range of interactions that have occurred between people and animals throughout the world and its history Adaptations of human animal relationships in environments as varied as the Arctic temperate forests deserts the tropics and the sea are discussed while studies of hunter gatherers farmers herders fishermen and even traders and urban dwellers highlight the importance that animals have had in all forms of human societies With an introduction that clearly contextualizes the current practice of zooarchaeology in relation to both its history and the challenges and opportunities that can be expected for the future and a methodological glossary illuminating the way in which zooarchaeologists approach the study of their material this Handbook will be invaluable not only for specialists in the field but for anybody who has an interest in our past and the role that animals have played in forging it **Lab Manual and Workbook for Physical Anthropology** Diane L.
