*Policing Welfare Fraud* Scarlet Wilcock,2023-12-11 Policing Welfare Fraud charts and interrogates the suite of measures ostensibly designed to combat welfare fraud and non compliance In Australia which serves as the empirical focus of this book these strategies include stringent ID checks pre emptive data surveillance technologies including the infamous and illegal robodebt programme a dedicated fraud hotline and an intelligence led fraud investigation framework Drawing on original documentary and interview data including interviews with fraud investigators this book unpacks the logics that underpin these anti fraud initiatives with a focus on how these initiatives are imbued with logics and practices more readily associated with the criminal justice system The central argument of the book is that the emergence of contemporary welfare compliance regimes represents a form of governing through fraud in which the threat of welfare fraud has effectively necessitated a regime of criminalisation within the welfare state This has been enabled by a broader process of neoliberal welfare reform which has cast suspicion over all welfare use The overall effect of this regime is to restrict access to social security punish welfare recipients and stigmatise welfare use Policing Welfare Fraud also highlights points of contradiction and multiplicity in the enactment of specific welfare compliance initiatives including

attempts by welfare officials to moderate or reformulate these strategies on the ground These findings demonstrate that the criminalisation of welfare is neither uniform nor inexorable and that more progressive welfare reform is possible An accessible and compelling read this book will appeal to students and scholars of criminology sociology politics and those interested in the policing of welfare recipients **The Oxford Handbook of Criminology** Alison Liebling, Shadd Maruna, Lesley McAra, 2017 Beginning with the history of criminology this updated and revised edition deals with topics as diverse as policing substance abuse juvenile crime statistics prisons victims and organised crime in Britain **Policing and Intelligence in the Global Big Data Era, Volume II** Tereza Østbø Kuldova, Helene Oppen Ingebrigtsen Gundhus, Christin Thea Wathne, 2024-09-30 This volume the second of a two volume set offers a rich and unique collection of global perspectives on data driven predictive technologies and the expansion and use of surveillance apparatuses in policing and intelligence both public and private Volume II delves into the epistemologies of data into the imaginaries of accuracy and fantasies of technosolutionism utilizing empirical case studies to interrogate the use of data in policing while raising questions pertaining to governance ethics and knowledge construction The chapters span from exploring the construction of clean and dirty data in private and public policing in South Africa discussions about facial recognition and technopolitics in Brazil the construction of intelligence and organizational learning in Norwegian police ethics and broader questions of transparency data quality and trust in data driven policing to the very topical issues of policing of generative AI and the ways in which both authoritarian and liberal democracies such as China and India use biopolitics to turn social welfare into surveillance Academics and students of criminology social anthropology critical algorithm studies critical sociology and regional studies will find this timely volume of interest **Liquid Criminology** Michael Hviid Jacobsen, Sandra Walklate, 2016-06-17 This book explores the ways in which criminological methods can be imaginatively deployed and developed in a world increasingly characterized by the blurred nature of social reality Whilst recognizing the importance of positivist approaches and research techniques it advocates a commitment to understanding the ways in which those techniques can be used imaginatively at times in combination with less conventional methods discussing the questions concerning risk ethics and access that arise as a result Giving voice to cutting edge research practices both in terms of concepts and methods that shift the criminological focus towards the kind of imaginative work that comprised the foundations of the discipline it calls into question the utility and credentials of mainstream work that fails to serve the discipline itself or the policy questions allied to it A call not to give up on numbers but also not to be defined by statistics and the methods that produce them Liquid Criminology sheds light on a way of doing research for criminology that is not only creative but also critical As such it will appeal to scholars of sociology criminology and social policy with interests in research methods and design **Improving Criminal Justice Workplaces** Paula Brough, Jennifer M. Brown, Amanda Biggs, 2015-10-23 All organisations whether private or public sector seek to improve criminal justice workplace practice from

an evidence base but often find it difficult to effectively translate research findings into policy or design best practice interventions This book provides a direct bridge between academic research in organisational behaviour and the management of workers within criminal justice agencies The public sector in particular is currently experiencing significant funding cuts and increasingly needs to create optimal workplace strategies to maintain frontline services and preserve the well being of the work force The aim of this book is to equip managers with knowledge about key processes and appropriate research methods thereby enabling them to more readily understand and apply academic research to their workplaces The means to translate research findings into implementation strategies are also clearly explained Furthermore essential organisational issues that either impede or enhance productivity employee effectiveness and management responsiveness to change are discussed following a common chapter template of problem definition research and analysis evidence translation implementation and evaluation Written by experts in the field this book applies cutting edge theoretical discussions and research findings to evidence based policy It examines new strategies and best practice in the context of widespread demoralization of staff in the criminal justice sector due to the impact of increased austerity Improving Criminal Justice Workplaces is essential reading for leadership teams managers and supervisors in the court police probation and prison services as well as allied professionals such as forensic psychologists and HR professionals *The Politics of the Police* Benjamin Bowling, Robert Reiner, James W.
