Japanese New York Olga Kanzaki Sooudi,2014-10-31 Spend time in New York City and soon enough you will encounter some of the Japanese nationals who live and work there young English students office workers painters and hairstylists New York City one of the world s most vibrant and creative cities is also home to one of the largest overseas Japanese populations in the world Among them are artists and designers who produce cutting edge work in fields such as design fashion music and art Part of the so called creative class and a growing segment of the neoliberal economy they are usually middle class and college educated They move to New York for anywhere from a few years to several decades in the hope of realizing dreams and aspirations unavailable to them in Japan Yet the creative careers they desire are competitive and many end up working illegally in precarious low paying jobs Though they often migrate without fixed plans for return nearly all eventually do and their migrant trajectories are punctuated by visits home Japanese New York offers an intimate ethnographic portrait of these Japanese creative migrants living and working in NYC At its heart is a universal question how do adults reinvent their lives In the absence of any

material or social need what makes it worthwhile for people to abandon middle class comfort and home for an unfamiliar and insecure life Author Olga Sooudi explores these questions in four different venues patronized by New York's Japanese a grocery store and restaurant where hopeful migrants work part time as they pursue their ambitions a fashion designer's atelier and an art gallery both sites of migrant aspirations As Sooudi's migrant artists toil and network biding time until they make it in their chosen industries their optimism is complicated by the material and social limitations of their lives The story of Japanese migrants in NYC is both a story about Japan and a way of examining Japan from beyond its borders The Japanese presence abroad a dynamic process involving the moving settling and return to Japan of people and their cultural products is still underexplored Sooudi's work will help fill this lacuna and will contribute to international migration studies to the study of contemporary Japanese culture and society and to the study of Japanese youth while shedding light on what it means to be a creative migrant worker in the global city today
