**Animals and Ourselves** Kathy Merlock Jackson, Kathy Shepherd Stolley, Lisa Lyon Payne, 2020-09-25 The relationship between humans and animals has always been strong symbiotic and complicated Animals real and fictional have been a mainstay in the arts and entertainment figuring prominently in literature film television social media and live performances Increasingly though people are anthropomorphizing animals assigning them humanoid roles tasks and identities At the same time humans such as members of the furry culture or college mascots find pleasure in adopting animal identities and characteristics This book is the first of its kind to explore these growing phenomena across media The contributors to this collection represent various disciplines to include the arts humanities social sciences and healthcare Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving

**Cats of Africa** Luke Hunter, 2013-06-25 There is nowhere on Earth like Africa for observing wild cats A week spent in the superb national parks and game reserves produces almost guaranteed sightings of the three most spectacular and sought after species lions cheetahs and leopards Yet alongside the big three Africa is home to a further seven species of cat far less conspicuous than their larger cousins Of these the caracal serval and African wildcat are marginally better known while few people have seen the remaining four the black footed cat African golden cat jungle cat and sand cat Rarely observed and little understood most have never been the focus of dedicated scientific research This book covers all 10 species Inevitably the bias is towards the large well studied cats but it includes all that is known about the smaller species including observations and data from their Asian range or from captivity to fill in some gaps Chapters deal with evolution and anatomy predation social systems reproduction and survival competition and conflict and conservation and include the most current research findings from around the continent Supported by a wealth of dramatic and beautiful images this is a comprehensive overview of the cat family in Africa from the famous and popular African parks with their celebrated safari friendly felids to the few remaining places on the continent uninhabited by people where a wild cat may spend its entire life without feeling the effects of the human presence Unfortunately such untrammelled freedom is rare The challenges facing cats in Africa are profound Only one the ubiquitous domestic cat does not require dedicated conservation activity to ensure its survival for the next century More than at any time in history the fate of Africa's wild cats is in our hands

Gavin,2013-02 Life at DrTom s is a diverse collection of easy to digest anecdotes about human behavior wildlife children wives and more from the perspective of a retired Ivy League professor DrTom taught classes in biology and conservation at Cornell University for almost 30 years and he conducted research on birds and mammals in the U S and abroad But he has found that observing humans and describing the human condition are as interesting as the study of wild animals DrTom writes with a somewhat cynical view about his own species in a way that will make you say hey I never thought of that Spanning six decades DrTom describes the colorful experiences that vary from studying squirrels on a cattle ranch in Idaho living in the rainforest of Costa Rica attending a geisha like party in Korea playing tennis for Ohio State to smoking a cigar while sipping a scotch in the forest surrounding his New York home These moments have sharpened his power of observation and informed his impression of what makes human behavior so curious But this life long exploration of what makes life interesting has generated the tangible he celebrates the most the memory of these rich encounters Readers will have no difficulty relating to DrTom s observations and conclusions about the experiences he shares You will see yourself in many of the uncanny situations in which he has found himself as a father grandfather husband teacher and retired baby boomer Regardless of your age gender or educational background the prose will make you laugh or pause or think more deeply about what you see around you

*Whispers of Leopard* Dr Sanjay Kumar Dhiman, 2023-11-30 Man and leopards have been living in close proximity since ages but in the last century the situation has turned against the latter due to some natural and mostly man made factors Therefore the peaceful coexistence between the two has been replaced by constant skirmishes Strangely when we witness a rise in such conflicts in other parts of the country there is a friendly and sacred bond seen between the Rabaris and these cats in Jawai and Bera in the Pali district of Rajasthan where leopards are revered by Rabaris who term themselves as devotees of the Hindu God Shiv Bhagat and describe leopards as the dwellers of the jungle Banwasi This is indeed a mystery that remains unresolved to this date and requires detailed explanations and straightforward answers The book *Whispers of Leopard* seeks to provide insight into the natural world from the leopard's perspective As human leopard conflicts rise fostering a compassionate attitude towards these creatures becomes crucial It will be useful to those interested in wildlife conservation and exploration
