Emerging Media Dynamics Xigen Li:

Emerging Media Xigen Li, 2015-12-07 *Emerging Media* provides an understanding of media use in the expanding digital age and fills the void of existing literature in exploring the emerging new media use as a dynamic communication process in cyberspace. It addresses emerging media dynamics during the second decade of online communication, the Web 2.0 era, after Mosaic and Netscape. The current status of emerging media development calls for extended exploration of how emerging media are used in different patterns and contexts, and this volume answers that call. It is a comprehensive examination of emerging media evolution and concurrent social interaction. This collection provides a comprehensive analysis of digital media use and online communication with empirical data. Contains both theoretical and empirical studies which not only test communication and related theories in the age of digital media but also provide new insights into important issues in digital media use and online communication with significant theoretical advances. Spotlights studies that use a variety of research methods and approaches including surveys, content analysis, and experiments. This volume will be invaluable to researchers of communication and new media and will serve advanced undergraduate and graduate students studying media and digital communication. With an international scope, it appeals to readers around the world in all areas that utilize new media technologies.

Digital Immigrants and Media Integration Sally J. McMillan, 2023-07-03 In *Digital Immigrants and Media Integration* The Smartphone Is the Synthesizer Sally J. McMillan draws insights from the lived experience of digital immigrants who are Baby Boomers and who grew up without digital mobile technologies and have transitioned to become smartphone users. McMillan traces key points in media evolution that shaped the communication tools that digital immigrants use today, demonstrating that continued incremental change has led to a

shift in focus from media types to media interfaces with smartphones becoming ubiquitous and indispensable the smartphone she posits is now firmly tied to identity Although the telegraph was the first medium to allow the message to arrive before the messenger and initiated the transition from cool to hot media it is the smartphone that has fully synthesized communication forms and functions into a single digital and mobile device Through collecting and analyzing these personal and public histories McMillan finds that digital immigrants continue to seek a balance between value and ease and between breadth and depth of communication Scholars of communication media ecology and technology will find this book of particular interest

Internet Newspapers Xigen Li, 2013-09-13 *Internet Newspapers The Making of a Mainstream Medium* examines newspapers on the Internet and addresses the emergence of online newspapers and the delivery of news through this outlet Utilizing empirical research chapters explore the theoretical and practical issues associated with Internet newspapers and examine the process through which online newspapers have grown into a mainstream medium Contributions to this work emphasize three key areas the structure and presentation of newspapers on the Internet the medium as an interactive process and the ways in which the public interacts with Internet newspapers This collection makes a substantial contribution to the understanding of newspapers on the Internet covering their development and changes as well as the impact that news delivery through this medium has had on other media audiences and society It also sheds light on improving operation and performance of Internet newspapers to better serve the public and gain competitive knowledge The volume encourages additional scholarship in this area and also shows how researchers can benefit from an empirical approach to their examination of Internet newspapers *Internet Newspapers* will appeal to scholars researchers and students of journalism and mass communications and can be used as a supplementary text in advanced courses covering journalism communication technology and mass media and society
