*Representing Childhood and Atrocity* Victoria Nesfield, Philip Smith, 2022-12-01 Atrocity presents a problem to the writer of children's literature To represent events of such terrible magnitude and impersonal will as the Holocaust the transatlantic slave trade or the Rwandan genocide such that they fit into a three act structure with a comprehensible moral and a happy ending is to do a disservice to the victims Yet to confront children with the fact of widescale violence without resolution is to confront them with realities that may be emotionally disturbing and even damaging Despite these challenges however there exists a considerable body of work for and about children that addresses atrocity To examine the ways in which writers and artists have attempted to address children's experience of atrocity this collection brings together original essays by an international group of scholars working in the fields of child studies children's literature comics studies education English literature and Holocaust genocide and memory studies It covers a broad geographical range and includes works by established authors and emerging voices [American Literature in Transition, 1940-1950](#) Christopher Vials, 2017-12-28 In the aftermath of World War II the United States emerged as the dominant imperial power and in US popular memory the Second World War is remembered more vividly than the American Revolution *American Literature in Transition 1940-1950* provides crucial contexts for interpreting the literature of this period Essays from scholars in literature history art history ethnic studies and American studies show how writers intervened in the global struggles of the decade the Second World War the Cold War and emerging movements over racial justice gender and sexuality labor and decolonization One recurrent motif is the centrality of the political impulse in art and culture Artists and writers participated widely in left and liberal social movements that fundamentally transformed the terms of social life in the twentieth century not by advocating specific legislation but by changing underlying cultural values This book addresses all the political impulses fueling art and literature at the time as well as the development of new forms and media from modernism and noir to radio and the paperback

**Essentials of Integrating the Language Arts** David Yellin, 2017-05-12 B 11 Sports Books **The Palgrave Handbook of Holocaust Literature and Culture** Victoria Aarons, Phyllis Lassner, 2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation. The chapters consider diverse generational perspectives: survivor writing, second and third generation, and genres: memoirs, poetry, novels, graphic narratives, films, video testimonies, and other forms of literary and cultural expression. In turn, these perspectives create interactions among generations, genres, temporalities, and cultural contexts. The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past. As such, the chapters in this volume pose options for reading Holocaust texts, offering openings for further discussion and exploration. The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story, a narrative that materially extends our inquiry into that history.
