Emotions Matter A Relational Approach To Emotions:

Emotions Matter Alan Hunt, Kevin Walby, Dale Spencer, 2012-01-01 The chapters comprising this edited volume originate from a workshop organized at Carleton University in May of 2009 **Emotions Matter** Dale Spencer, Kevin Walby, Alan Hunt, 2012-03-07 The sociology of emotions has recently undergone a renaissance raising new questions for the social sciences How should we define and study emotions How are emotions related to perennial sociological debates about structure power and agency **Emotions Matter** brings together leading international scholars to build on and extend sociological understandings of emotions Moving beyond reductionist approaches that frame emotions as idiosyncratic states of mind the scholars in this collection conceptualize emotions as the experience of social relations Empirical and theoretical chapters demonstrate how emotions relate to sociological theories of interaction the body gender and communication Pushing the boundaries of sociology and stimulating debate for related fields **Emotions Matter** offers diverse relational approaches that illustrate the crucial importance of emotions to the sociological imagination **Emotions in Sport Coaching** Paul Potrac, Andy Smith, Lee Nelson, 2018-12-07 Emotions are widely acknowledged as an inextricable feature of human behaviour experience and interaction They are arguably the glue that can bind people together or alternatively drive them apart While social scientists have paid increasing attention to the centrality of emotions in social and pedagogical relationships the sport coaching literature has remained largely free of emotions Indeed there remains a paucity of scholarship exploring how emotions such as excitement joy anger anxiety guilt pride and embarrassment may be reproduced in as well as through the social interactions and contextual relations that constitute coaching Similarly we know very little about how these and other emotions are embodied in the everyday practice of individuals and groups The aim of this book was to generate new and exploratory insights into the emotions that are an inherent feature of social relations and individual experience in coaching Using a variety of psychological and sociological frameworks the chapters in this book not only explore the interconnections between emotion identity cognition and learning but they also serve as a platform for stimulating further inquiry in this topic area The chapters were originally published in a special issue of *Sports Coaching Review*

The Border and Its Bodies Thomas E. Sheridan, Randall H. McGuire, 2019-11-12 *The Border and Its Bodies* examines the impact of migration from Central America and Mexico to the United States on the most basic social unit possible the human body It explores the terrible toll migration takes on the bodies of migrants those who cross the border and those who die along the way and discusses the treatment of those bodies after their remains are discovered in the desert The increasingly militarized U S Mexico border is an intensely physical place affecting the bodies of all who encounter it The essays in this volume explore how crossing becomes embodied in individuals how that embodiment transcends the crossing of the line and how it varies depending on subject positions and identity categories especially race class and citizenship Timely and wide ranging this book brings into focus the traumatic and real impact the border can have on those who attempt

to cross it and it offers new perspectives on the effects for rural communities and ranchers An intimate and profoundly human look at migration The Border and Its Bodies reminds us of the elemental fact that the border touches us all

Histories of Emotion Rüdiger Schnell,2020-11-23 This study addresses two desiderata of historical emotion research reflecting on the interdependence of textual functions and the representation of emotions and acknowledging the interdependence of studies on the premodern and modern periods in the history of emotion Contemporary research on the history of emotion is characterised by a proliferation of studies on very different eras authors themes texts and aspects The enthusiasm and confidence with which situations actions and interactions involving emotions in history are discovered however has led to overly direct attempts to access the represented objects emotions feelings affects as a result too little attention has been paid to the conditions and functions of their representations That is why this study engages with the emotion research of historians from an unashamedly philological perspective Such an approach provides among other things insights into the varied often contradictory observations that can be made about the history of emotion in modernity and premodernity

Love's Refraction Jillian Deri,2015-03-27 Popular wisdom might suggest that jealousy is an inevitable outcome of non monogamous relationships In Love s Refraction Jillian Deri explores the distinctive question of how and why polyamorists people who practice consensual non monogamy manage jealousy Her focus is on the polyamorist concept of compersion taking pleasure in a lover s other romantic and sexual encounters By discussing the experiences of queer lesbian and bisexual polyamorous women Deri highlights the social and structural context that surrounds jealousy Her analysis making use of the sociology of emotion and feminist intersectionality theory shows how polyamory challenges traditional emotional and sexual norms Clear and concise Love s Refraction speaks to both the academic and the polyamorous community Deri lets her interviewees speak for themselves linking academic theory and personal experiences in a sophisticated engaging and accessible way

Emotions in Second Language Teaching Juan de Dios Martínez Agudo,2018-03-12

This edited volume explores the multifaceted nature of teacher emotions presenting current research from different approaches and perspectives focused towards the second language classroom Twenty three chapters by well known scholars from the applied linguistics TESOL and educational psychology fields provide the reader with a holistic picture of teacher emotions making this collection a significant contribution to the field of second language teaching Given the emotional nature of teaching the book explores a number of key issues or dimensions of L2 teachers emotions that were until now rarely considered The contributions present the views of a select group of applied linguistic researchers and L2 teacher educators from around the world This international perspective makes the book essential reading for both L2 teachers and

teacher educators Feelings at the Margins Thomas Stodulka, Birgitt Röttger-Rössler, 2014-06-18 This book integrates social anthropological political and historical perspectives on the emotional impact of marginalization stigmatization and violence in present day Indonesia The authors combined focus on regional particularities and universal dimensions of experiencing and dealing with social economic and psychological adversities targets scholars who share regional interest in the archipelago and researchers concerned with theoretical aspects of the interplay between power asymmetries agency emotion and culture *Social Psychology of Emotion* Darren Ellis, Ian Tucker, 2015-04-17 The study of emotion tends to breach traditional academic boundaries and binary linguistics It requires multi modal perspectives and the suspension of dualistic conventions to appreciate its complexity This book analyses historical philosophical psychological biological sociological post structural and technological perspectives of emotion that it argues are important for a viable social psychology of emotion It begins with early ancient philosophical conceptualisations of pathos and ends with analytical discussions of the transmission of affect which permeate the digital revolution It is essential reading for upper level students and researchers of emotion in psychology sociology psychosocial studies and across the social sciences *Sociological Understandings of Teachers' Emotions: A Short Introduction, Critical Review, and the Way Forward* Kwok Kuen Tsang, 2014-10-01 Teachers emotions have been issues drawing the attentions of educational scientists Since teachers emotions has been regarded as a psychological phenomenon the educational scientists explain how teachers feel and how their feelings affect educational process with psychological theories However more and more educational scientists note that teachers emotions are socially constructed and the social construction of teachers emotions is not explained by the psychological theories As a result they switch their theoretical perspectives from psychology to sociology In the literature the sociological theories they have employed include the labor process theory theory of bureaucracy emotional labor theory post structuralism theory of emotional geographies and identity theory Nevertheless each of the theories has some limitations Therefore the goals of this book is to 1 introduce and review the sociological theories which are applied to explain teachers emotions critically and 2 propose a sociological framework and research agenda for further studies based on the critically review Practical Feelings Marci D. Cottingham, 2022 Tracing emotions across work leisure social media and politics Practical Feelings counters old myths and shows how emotions are practical resources for tackling individual and collective challenges We do not usually think of our emotions as practical often they are nuisances to overcome momentary mysteries to solve or fleeting sensations to savor before getting back to the business of living But emotions interlace the practical elements of daily life In Practical Feelings Marci D Cottingham develops a theory of emotion as practical resources By integrating the sociology of emotion with practice theory Cottingham covers diverse areas of social life to show the range of an emotion practice approach and trace how emotions are put to use in divergent domains Spanning work leisure digital interactions and the political sphere Cottingham portrays nurses sports fans social media users and political actors in more

complex holistic ways Practical Feelings provides the conceptual tools needed to examine emotions as effort energy and embodied resources that calibrate us to the social world

Junior and Youth Grassroots Football Culture Jimmy O'Gorman, 2018-02-02 Football is ubiquitously acknowledged as The Global Game and or The People s Game everyday all encompassing terms familiar to anyone with an interest in football which illustrate albeit nebulously the game s international reach and popularity Yet much academic and popular attention has been and continues to be narrowly centred on topics pertaining to the elite and professional aspects of the game At a time when there appears to be an ever widening gap between the grassroots and elite levels of the sport this book brings together for the first time a collection of research articles dedicated solely to youth and junior grassroots football The intention is to generate future inquiry encourage theoretical debate and stimulate empirical research on topics and issues within the relatively marginalised area of the game that is youth and junior grassroots football The collection represents a preliminary consideration of what is already currently known about grassroots football and no less importantly point towards what remains unknown and under researched but which deserves much more attention than has been given hitherto As such the collection includes contributions from practitioners and researchers alike Topics included range from the provision organisation and development of grassroots football in one national association to broader issues such as the sources of enjoyment in participation the lived experiences of junior players and coaches to the causes of youth dropout from football In addition the significance of social stratification and various forms of social division which structure children s participation in grassroots football are discussed These include female participation and the role of elite female role models and issues relating to the participation of immigrant youth The book is intended to appeal to practitioners academics and football enthusiasts alike This book was originally published as a special issue of Soccer Society

African Traditional Medicine: Autonomy and Informed Consent Peter Ikechukwu Osuji, 2014-07-18 This book focuses on informed consent in African

Traditional Medicine ATM ATM forms a large portion of the healthcare systems in Africa WHO statistics show that as much as 80% of the population in Africa uses traditional medicine for primary health care With such a large constituency it follows that ATM and its practices should receive more attention in bioethics By comparing the ethics of care approach with the ATM approach to Relational Autonomy In Consent RAIC the authors argue that the ATM focus on consent based on consensus constitutes a legitimate informed consent This book is distinctive insofar as it employs the ethics of care as a hermeneutic to interpret ATM The analysis examines the ethics of care movement in Western bioethics to explore its relational approach to informed consent Additionally this is the first known study that discusses healthcare ethics committees in ATM

Working Class Experiences of Social Inequalities in (Post-) Industrial Landscapes Lars Meier, 2021-05-17 Based on qualitative research among industrial workers in a region that has undergone deindustrialisation and transformation to a service based economy this book examines the loss of status among former manual labourers Focus lies on their emotional experiences nostalgic memories hauntings from the past and attachments to their former places of work to transformed neighbourhoods as well as to public space Against this background the book explores the continued importance of class as workers attempt to manage the declining recognition of their skills and a loss of power in an established outsider figuration A study of the transformation of everyday life and social positions wrought by changes in the social structure in urban landscapes and in the structures of feeling this examination of the dynamic of social identity will appeal to scholars of sociology anthropology and geography with interests in post industrial societies social inequality class and social identity
