[Frameworks for Social Science Research](#) Andrea J. Bingham, Robert Mitchell, Daria S. Carter, 2024-02-13 This practical book offers a guide to finding choosing and applying theoretical frameworks to social sciences research and provides researchers with the scaffolding needed to reflect on their philosophical orientations and better situate their work in the existing landscape of empirical and theoretical knowledge Using a multifaceted approach the book provides clear definitions primary tenets historical context highlights of the challenges and contemporary discussion and perhaps more importantly concrete and successful examples of studies that have drawn on and incorporated each theoretical framework The authors define and explain the connections among such concepts as ontology epistemology paradigm theory theoretical frameworks conceptual frameworks and research methodology describe the process of finding and effectively using theoretical and conceptual frameworks in research and offer brief overviews of particular theories within the following disciplines sociology psychology education leadership public policy political science economics organizational studies and business The book also has a dedicated chapter on critical theories and for each theory provides a definition explores how the theory is useful for researchers discusses the background and foundations outlines key terms and concepts presents examples of theoretical applications and gives an overview of strengths and limitations This book offers a useful starting point for any researcher interested in better situating their work in existing conceptual and theoretical knowledge but it will be especially useful for graduate students and early career researchers who are looking for clear definitions of complex terms and concepts and for an introduction to useful theories across disciplines **Information Sources in the Social Sciences** David Fisher, Sandra Price, Terry Hanstock, 2018-02-19 No detailed description available for Information Sources in the Social Sciences

Social Media Marketing and Customer-Based Brand Equity for Higher Educational Institutions Charitha Harshani Perera, Rajkishore Nayak, Long Van Thang Nguyen, 2022-09-30 This book examines the extent to which social media marketing influences the customer based brand equity of higher education institutes Higher education institutions operate in a strong competitive environment due to the homogenous nature of their services and always look for new marketing

strategies to be competitive in the marketplace Therefore building customer based brand equity has become crucial for higher education institutions to differentiate themselves from others to attract prospective students Social media based marketing facilitated prospective students to communicate and collaborate to gather information relevant to higher education institutions and their respective brand equity However many models on customer based brand equity received limited support in the higher education sector particularly in emerging Asian countries As such drawing from social information processing theory this book empirically investigates how higher education institutions can develop customer based brand equity by using social media marketing and subjective norms mediated by brand credibility taking cross country comparisons between Sri Lanka and Vietnam The book goes on to examine the applications and implications of the findings for higher education institutions in developing branding strategies through social media
