Social Work Practice with Fathers Jennifer L. Bellamy, Brianna P. Lemmons, Qiana R. Cryer-Coupet, Jennifer A. Shadik, 2022-10-31 Social workers need to work with fathers across many service systems but lack guidance on how to do so and most engagement assessment and intervention work for family serving systems is mother and child focused Father inclusive readings and resources are also limited Drawing on the expertise of well regarded research and practice experts in the field this comprehensive book provides guidance to social work practitioners and researchers on how to engage assess

and serve fathers. Instructors can use the text to include fathers in courses on the human behavior and social environment, family systems, clinical practice, diversity, or service systems. Social service systems unfortunately have often struggled to positively engage men as parents. Recent demographic trends indicate that fathers are providing more direct care to children and single father households are one of the most rapidly growing demographic groups in the United States. Barriers to their successful engagement include biases and assumptions about men and fathers, a lack of father-friendly policies and practices in the field, limited training on how to work with fathers, and relatively limited father-inclusive social work research until recently. This book addresses these barriers. It is a guide to social workers in their efforts to better serve men as parents and does so from an ecological and systems perspective. Multiple case examples and practical tools are provided, as well as specific content on major social service systems. Topics explored include Father Engagement, Organizational Father-Friendly Assessments, Interventions with Fathers, Setting the Course for Future Theory Research, and Practice with Fathers. Social Work Practice with Fathers: Engagement, Assessment, and Intervention is a book that could be folded into foundation courses in social work or used by practitioners in the field. It is an essential text for graduate students in social work, psychology, sociology, child development, allied health, and similar disciplines and professions, and a go-to resource for helping professionals, practitioners such as social workers, psychologists, and licensed professional counselors. Advanced undergraduate students in these disciplines and professions also will find the text useful in their studies and work.

School Social Work Leticia Villarreal Sosa, Tory Cox, Michelle Alvarez, 2016. School Social Work: National Perspectives on Practice in Schools aligns with the SSWAA national model. The book approaches diversity from an intersectionality perspective, accounting for the experiences of students based on differences such as sexuality, race, and gender. Authors from across the U.S. provide a national overview of the profession.

Goal-Setting and Problem-Solving in the Tech-Enhanced Classroom Pete Atherton, 2023-02-28. Goal Setting and Problem Solving in the Tech-Enhanced Classroom explores how educators can use technology to create opportunities for more immersive and rewarding learning. As child-age students demonstrate increasing competence with digital tools and investment in learning technologies continues to climb, teachers need grounded, pedagogically attentive insights to help them leverage these devices and platforms in their profession. This book offers a variety of ideas for how pre- and in-service teachers can successfully deploy today's educational technology platforms to serve confident, meaningful teaching and learning. Each chapter includes a concrete learning goal or problem, a narrative of an instructional experience with a specific technology, relevant theoretical and empirical underpinnings, and practical recommendations.
