The English Renaissance has been the focus of intense interpretive activity It has been a scene of trial for the critical methodologies of deconstruction feminism new historicism psychoanalytic poststructuralism and cultural studies Trials of Authorship extends and challenges this theoretically informed criticism Jonathan Crewe argues that the commitment to innovation transgression and radical change has increasingly obscured some powerfully resistant elements both in Renaissance culture and in these critical discourses themselves He calls for a recognition of defensive perverse and self limiting trends in Renaissance writing and also of the conservative investment by critics in the Renaissance as a cultural epoch Crewe focuses on the relatively stable poetic and cultural forms operative in the Renaissance He argues that these established forms which shape poetic composition social interaction and individual identity are subject to only limited reconstruction by English authors in the sixteenth century They facilitate and limit literary and social expression and result in more sharply conflicted literary production than current critics have been willing to acknowledge Moreover Crewe argues that while this literary production is dominantly masculinist it nevertheless reveals the stresses of negotiating complex structures of class and gender history and culture The literary results are accordingly varied and do not lend themselves to uniform interpretation Trials of Authorship presents a consecutive reading of English Renaissance authors from Wyatt to Shakespeare and redraws the existing picture of the English Renaissance in the sixteenth century It does so by concentrating on authors whose canonical status is somewhat precarious namely the poets Wyatt Surrey and Gascoigne and the non literary authors of two Tudor prose biographies The book makes a case for the continuing significance of all the texts in question while its emphasis on them also constitutes an intentional shift away from the Elizabethan period towards that of Henry VIII This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 Bibliotheca Smithiana, pars altera. A catalogue of the remaining part of the ... library of Joseph Smith ... and of many other collections James Robson (bookseller.),1773 **A Catalogue of an Extensive and Valuable Collection of Ancient and Modern Books; Consisting of Many Thousand Volumes, ... to be Sold this Day, by Robert Faulder, ... 1797** Robert Faulder,1797

Thomas More Richard Marius,2013-02-13 Most previous biographers of Thomas More have sought to prove him a saint in this the first full scale biography of More in half a century Richard Marius a leading Reformation historian seeks to restore

the man More's life spanned a tumultuous period in Western history. He was born in 1478 into a society still medieval in its customs and laws. But by the time of his death in 1535, England was already shaken to its depths by the powerful and unsettling ideas of the Renaissance. Marius draws upon important recent research and his profound knowledge of More's own voluminous writing to make a coherent whole of the life and work of the immensely complex man who was both a product of the times and a singular figure in them. He gives us More the boy, his London childhood, his deep respect for his father who rose from a tradesman's background to become a judge of the highest court in the land, a council of fathers was to rule More's kingdom of Utopia. More the youth sent at about age twelve to serve in the household of the powerful and political Bishop Morton, later struggling to choose between the priesthood and the lures of secular life, marriage and a career in the great world. More the Londoner, the city man, lawyer, graduate of the Inns of Court, member of the rising middle class with its drive for an achievement and position. We see More the humanist man of letters as Marius treats in full his friendship with Erasmus, his now controversial History of Richard III from which Shakespeare's Richard derives, and the originals and meanings of his most famous work Utopia. More the family man is revealed in his relationship with his father, his two wives and his children, as far more complex than the sanctified image of legend. Marius explores More's public career as Lord Chancellor, as champion of the Catholic church, and finally as martyr to the old faith. He shows us a man who although he hated and feared tyrants, always believes that authority as a source of order was necessary to the public good, a man who as royal counselor and Lord Chancellor upheld his king until the very moment when in response to Henry's final tyranny he chose to die the King's good servant but God's first. Marius also demonstrates that it was the centuries-old authority of the Catholic Church that More revered, that he was as suspicious of papal supremacy as of any tyranny. The man Marius ultimately reveals is one more passionate and driven in his family life, his convictions, his persecution of heretics, than the serene hero of *A Man For All Seasons*. But he is also a man possessed of such wit, integrity and charm that he was loved not only by his family but by almost everyone who knew him. It is the special triumph of this biography that with its rare combination of impeccable scholarship and narrative power, we are brought into the presence of a whole person with all his flaws and virtues, and that by the time More meets his death, he has become familiar and important to us not merely as a historical figure but also as a human being.

Northern Humanism in European Context, 1469-1625 Fokke Akkerman, Arie Johan Vanderjagt, A. H. Van Der Laan, 1999. This is the third and final volume of a set of studies on the development of humanism in the northern Netherlands and the adjoining parts of Germany between 1469 when in the oldest letters preserved of Rudolph Agricola and Rudolph von Langen first mention is made of a group of early humanist scholars at the Adwert monastery near Groningen and 1625 when the humanist Ubbo Emmius died who was the first rector of the university of Groningen. The earlier two volumes are *Rodolphus Agricola Phrisius 1444-1485* 1988 and *Wessel Gansfort 1419-1489* and *Northern Humanism* 1993. This last volume has papers on Regnerus Praedinius 1510-1559, Alexander Hegius ca. 1433-1498, Alexander Candidus 1555, Wessel Gansfort
