Developing Core Literacy Proficiencies, Grade 7 Odell Education, 2016-08-08 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts Literacy units spanning grades 6 12 that provide student centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards CCSS Reading Closely for Textual Details Making Evidence Based Claims Making Evidence Based Claims about Literary Technique Grades 9 12 Researching to Deepen Understanding Building Evidence Based Arguments The program approaches literacy through the development of knowledge literacy skills and academic habits Throughout the activities students develop their literacy along these three paths in an integrated engaging and empowering way Knowledge The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance These

texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time but also contain the complexity of expression necessary for developing college and career ready literacy skills. Literacy Skills The program articulates and targets instruction and assessment on twenty CCSS aligned literacy skills ranging from making inferences to reflecting critically. Students focus on this set of twenty skills throughout the year and program continually applying them in new and more sophisticated ways. Academic Habits The program articulates twelve academic habits for students to develop, apply and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as preparing and completing tasks that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system centered around the literacy skills and academic habits allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

Evidence-Based Interventions for Students with Learning and Behavioral Challenges Richard J. Morris, Nancy Mather, 2008-01-14 This book assembles into one volume summaries of school based intervention research that relates to those who deal on a regular basis with the growing body of students having high incidence learning disabilities and/or behavior disorders, special educators, school psychologists, and clinical child psychologists. Chapter authors begin with an overview of their topic followed by a brief section on historical perspectives before moving on to the main section, a critical discussion of empirically based intervention procedures. In those instances where evidence based prescriptions can legitimately be made, authors discuss best practices and the conditions, e.g., classroom environment, teacher expertise, under which these practices are most effective. A final section deals with policy issues. Think Tank Library Paige Jaeger, Mary Boyd Ratzer, 2014-12-04 Transform your library into a think tank by helping teachers create an active learning environment in which students question, investigate, synthesize, conclude, and present information based on Common Core standards. The rigors of today's mandated academic standards can repurpose your library's role as a steward of the Common Core State Standards (CCSS) at your school. This guide will help you help teachers present exciting, field-tested lessons for elementary grades K through 5, addressing developmental steps and individual differences in key competencies in the CCSS. Authors and educators Mary Ratzer and Paige Jaeger illustrate how brain-based learning helps students become deep critical thinkers and provide the lesson plans to coax the best thinking out of each child. This tool book presents strategies to help learners progress from novice to expert thinker, challenge younger students with questions that lead to inquiry, incorporate rigor into lessons, and use model lesson plans to change instruction. Beginning chapters introduce the basics of instruction and provide ideas for expert cognitive growth of the brain. Sample lessons are aligned with key curriculum areas including science, social studies, music, art, and physical education.
