Rajini, 2023-08-07 Ayurvedic Herbal Preparations in Neurological Disorders provides a comprehensive and mechanistic understanding of the therapeutic potential of many ayurvedic herbal preparations in disease management Examining research data for evidence based ayurvedic approaches this volume begins with a focused introduction to major ayurvedic plants discussing various mechanisms underlying their neuromodulatory potential in preclinical and clinical settings Major subsets of ayurvedic plants are discussed including Bacopa monnieri Centella asiatica Withania somnifera and others This volume outlines the importance of integrative approaches along with existing treatments in the intervention management of Alzheimer s disease Parkinson s disease depressive mood disorders epilepsy schizophrenia and more More than a mere compilation of studies this volume identifies relevant gaps for future research avenues and encourages interdisciplinary collaboration and sharing of knowledge to together identify the most efficacious ayurvedic approaches Highlighting recent developments e g Ayurgenomics Ayurhar and other pertinent research for neuroprotection this book is crucial for anyone researching or working in the field of neurological disorder treatment and prevention Provides a focused introduction to major Ayurvedic plants and their therapeutic potential in the management of neurodegenerative diseases Discusses various mechanisms underlying the neuromodulatory potential of several ayurvedic herbal preparations in preclinical and clinical settings Examines major subsets of ayurvedic plants e g Bacopa monnieri Centella asiatica Withaniasomnifera and others and potential of several other plants in various neurological disorders Outlines the importance of integrative approaches along with existing treatments in the intervention management of depressive mood disorders epilepsy schizophrenia and more Highlights recent developments e g Ayurgenomics Ayurhar and other pertinent research for neuroprotection

Nanotechnology Applications in Medicinal Plants and their Bionanocomposites Shivaji H. Pawar, 2024-05-02 This book focuses on advances in nanomaterials and bionanocomposites for their applications in medicinal plants Nanotechnology applications in medicinal plants is a recent addition to Ayurveda the ancient Indian medical system Nanotechnology offers immense opportunities for the improvement of quality of life through

applications in nanomedicine and food systems This book provides basic knowledge about the role of nanotechnology in developing a sustainable form of Ayurveda utilising bionanocomposites It will be useful to students of nanosciences Ayurvedic medicines biological sciences medical sciences physics chemistry biotechnology and engineering sciences The book is the first of its kind and is based on interdisciplinary research from a variety of experts in their fields

Formulating Pharma-, Nutra-, and Cosmeceutical Products from Herbal Substances Anupama Singh, Hitesh Kulhari, Vikas Anand Saharan, 2025-07-31 A practical and up to date discussion of the formulation and design of dosage forms and delivery systems containing herbal ingredients In *Formulating Pharma Nutra and Cosmeceutical Products from Herbal Substances Dosage Forms and Delivery Systems* a team of distinguished researchers delivers a step by step approach to preparing and manufacturing dosage forms and delivery systems Intuitively organized with comprehensive coverage of the fundamentals functional materials manufacturing and marketing of pharmaceutical nutraceutical and cosmeceutical products the book also examines regulatory issues of quality safety and efficacy The authors discuss essential formulation development and delivery information for novel and controlled delivery systems of herbal ingredients Readers will also find A thorough introduction to the basic principles of developing modern pharma nutra and cosmeceutical products from herbal substances Comprehensive explorations of conventional formulations including issues of stability Practical discussions of advanced formulations including chronotherapeutic delivery systems liposome based delivery of phytoconstituents and nanoparticle mediated delivery of herbal actives Complete treatments of regulatory challenges including nonclinical characterization and documentation for marketing authorizations of herbal formulations Perfect for professionals working in the herbal drug natural product and dietary supplement industries *Formulating Pharma Nutra and Cosmeceutical Products from Herbal Substances* will also benefit academic researchers and graduate students studying herbal research cosmetics and pharmaceutical sciences

Herbal Pharmacopeia Arshad Farid, 2025-05-09 This book comprehensively explores the intersection between traditional herbal medicine and cutting edge nanotechnology The chapters introduce modern techniques used in herbal extraction and analysis The principles of drug discovery from plants are discussed with a focus on the identification and development of bioactive compounds that have therapeutic potential It discusses the pharmacological properties biotechnological approaches in drug development and challenges in the formulation and standardization of herbal medicines Emerging trends and applications of nanotechnology in herbal pharmacotherapy such as nanoparticle synthesis enhanced bioavailability using nanocarriers safety assessments novel and targeted delivery systems and regulatory considerations are thoroughly discussed Additionally it includes a comparative analysis of traditional and nano formulated approaches and their implementation in clinical settings Towards the end the book reviews the regulatory considerations for herbal products and future perspectives in herbal pharmacopeia This book is intended for researchers clinicians and professionals in herbal medicine pharmacology and nanotechnology

Herbal Medicines and Nutritional Supplements

for Health Benefits Megh R. Goyal, Anamika Chauhan, 2025-10-14 The immense benefits of herbal medicines are rapidly being discovered today through modern research as globalization has made more and more herbs available worldwide. Research on biomolecular effects of herbs and their antioxidant activity has gained great momentum due to the apparent links between oxidative stress, ageing and disease. This new book is a consolidation of the latest cutting edge research on herbal medicines and their benefits, challenges and potential as well as consumption patterns and business and marketing opportunities. The book takes a look at the challenges and attitudes of consumers and administrators toward herbal supplements and also covers marketing and supply chain issues and outlines the economic and business opportunities for herbal supplements in various locales and nations. The volume goes on to explore interactions, dosing and analysis, providing information on clinical trials for nutritional and herbal supplements as well as risks, toxicity and safety concerns with regard to herbal medicines. Food safety standards and regulations for herbal supplements are also addressed. The final section emphasizes using herbal supplements for a range of health conditions such as how the immune boosting qualities of herbal supplements can be used to treat conditions such as low libido, boils, fever, diabetes, blood pressure, osteoporosis, herpes, insomnia, Alzheimer's disease and more.

Pharmacognosy Rupika Delgoda, 2016-11-11 *Pharmacognosy: Fundamentals, Applications and Strategies* explores a basic understanding of the anatomy and physiology of plants and animals, their constituents and metabolites. This book also provides an in-depth look at natural sources from which medicines are derived, their pharmacological and chemical properties, safety aspects and how they interact with humans. The book is vital for future research planning, helping readers understand the makeup, function and metabolites of plants in a way where the history of their usage can be linked to current drug development research, including in vitro, in vivo and clinical research data. By focusing on basic principles, current research and global trends, this book provides a critical resource for students and researchers in the areas of pharmacognosy, pharmacy, botany, medicine, biotechnology, biochemistry and chemistry. Covers the differences between animal and plant cells to facilitate an easier transition to how the body interacts with these entities. Contains practice questions at the end of every chapter to test learning and retention. Provides a single source that covers fundamental topics and future strategies with the goal of enabling further research that will contribute to the overall health and well-being of mankind.

Herbs, Spices and Medicinal Plants Mohammad B. Hossain,Nigel P. Brunton,Dilip K. Rai,2020-08-17 The latest research on the health benefits and optimal processing technologies of herbs and spices This book provides a comprehensive overview of the health benefits analytical techniques used and effects of processing upon the physicochemical properties of herbs and spices Presented in three parts it opens with a section on the technological and health benefits of herbs and spices The second part reviews the effect of classical and novel processing techniques on the properties of herbs spices The third section examines extraction techniques and analytical methodologies used for herbs and spices Filled with contributions from experts in academia and industry Herbs Spices and Medicinal Plants Processing Health Benefits and Safety offers chapters covering thermal and non thermal processing of herbs and spices recent developments in high quality drying of herbs and spices conventional and novel techniques for extracting bioactive compounds from herbs and spices and approaches to analytical techniques It also examines purification and isolation techniques for enriching bioactive phytochemicals medicinal properties of herbs and spices synergy in whole plant medicine potential applications of polyphenols from herbs and spices in dairy products biotic and abiotic safety concerns and adverse human health effects and regulation of metal contaminants in terrestrial plant derived food and phytopharmaceuticals Covers the emerging health benefits of herbs and spices including their use as anti diabetics anti inflammatories and anti oxidants Reviews the effect of classical and novel processing techniques on the

properties of herbs and spices Features informed perspectives from noted academics and professionals in the industry Part of Wiley's new IFST Advances in Food Science series Herbs Spices and Medicinal Plants is an important book for companies research institutions and universities active in the areas of food processing and the agri food environment It will appeal to food scientists and engineers environmentalists and food regulatory agencies

Modern Spectroscopic Techniques for Drug Discovery and Environmental Sustainability Prakash, Om, Kumar, Neeraj, Gangola, Saurabh, Joshi, Samiksha, Nand, Viveka, 2025-04-10 Modern spectroscopic techniques play a pivotal role in advancing both drug discovery and environmental sustainability offering precise and efficient methods for analyzing complex molecular structures and interactions In the field of drug discovery techniques like nuclear magnetic resonance mass spectrometry and infrared spectroscopy enable researchers to identify potential drug candidates monitor their behavior in biological systems and optimize their safety profiles Spectroscopic methods in environmental science are used to detect pollutants monitor ecosystem health and evaluate the impact of human activity on the environment Further research into modern spectroscopic techniques may accelerate scientific discovery while supporting sustainable practices aimed at preserving human health and environmental well being Modern Spectroscopic Techniques for Drug Discovery and Environmental Sustainability explores the various aspects of spectroscopy in drug discovery and environmental sustainability It examines techniques in spectroscopic technology for improving the organized efforts in dealing with drug development and sustainable practices This book covers topics such as nutrient analysis infrared technology and biomarkers and is a useful resource for environmental scientists drug developers biologists academicians and researchers

Ethnopharmacology and OMICS Advances in Medicinal Plants Volume 2 Mukesh Nandave, Rohit Joshi, Jyoti Upadhyay, 2024-10-16 This book delves into diverse facets and applications of medicinal plants It discusses the metabolic transcriptomic and genomic intricacies of medicinal plants shedding light on their chemical compositions genetic makeup and regulatory mechanisms It includes a chapter on nanotechnology investigating the influence of nanoparticles on medicinal plants Subsequent chapters explore functional genomics and genome editing showcasing innovative approaches to modifying plant genetics It also discusses plant associated microorganisms in the microbiome and endophytic fungi Furthermore the book addresses the critical issues of genetic diversity agrotechnology for sustainable production intellectual property rights and the impact of various stresses on medicinal plants This book serves as a valuable resource for researchers educators and students of pharmacology offering a comprehensive understanding of medicinal plants and their evolving role in science and medicine

Nano Medicine and Nano Safety Malay K. Das, Yashwant V. Pathak, 2020-12-09 This book reviews the application of Nanobiotechnology in the development of Nanomedicine while also discussing the latest trends and challenges in the clinical translation of Nanomedicine Nanomedicine refers to the application of Nanotechnology to medicine and holds tremendous potential for achieving improved efficiency bioavailability dose response personalized medicine and enhanced safety as compared to conventional medicines The book first introduces

readers to the basic concepts of Nanomedicine and to technological advances in and applications of Nanotechnology in treatment diagnosis monitoring and drug delivery In turn it reviews the current status of multi functionalization strategies for using Nanoparticles in the targeted delivery of therapeutic agents The book s third and final section focuses on the regulatory and safety challenges posed by Nanomedicine including industry and regulatory agencies efforts to address them

Herbal Medicine in Andrology Ralf Henkel,Ashok Agarwal,2020-11-13 Herbal Medicine in Andrology An Evidence Based Update provides a comprehensive overview of ethnomedical approaches in andrology including ethnopharmacology of plant extracts and relevant bioactive compounds It highlights information on the availability of medicinal plants and the legal and procedural processes involved in developing a marketable product This reference helps clinicians and scientists develop an understanding on how herbal medicine can be used to treat andrological patients in practice Only a limited number of journal articles are available on this topic making this reference a valuable source of information for a large audience including urologists andrologists gynecologists reproductive endocrinologists and basic scientists Provides essential evidence based information about herbal medicine Offers an ethnopharmacological background on bioactive compounds in certain plant extracts Educates the basic scientist and clinician on the use of herbal medicines in andrology Provides an update to recent advances on herbal medicine in andrology from world experts

Introduction to Quality by Design (QbD) N. K. Jain,Neha Bajwa,2024-04-09 This book offers a comprehensive exploration of the Quality by Design QbD methodology guiding readers from theory to practical application with accessible examples It equips readers with both foundational and advanced knowledge emphasizing the critical parameters necessary for designing pharmaceutical products that meet the highest quality standards The book goes beyond theory to demonstrate how to effectively implement QbD principles in various aspects of pharmaceutical research and development including analytical methods formulation and packaging processes Through a step by step approach it prepares researchers in pharmaceutical sciences as well as professionals in the pharmaceutical and healthcare industries including suppliers to successfully integrate QbD into their work
