

I. Introduction

The opening statement is one of the most important components of any trial. It is your first opportunity to present the case to the jury, and to shape the jury's perspective of the entire trial. The opening statement also is your first opportunity to present yourself to the jury, and to establish the kind of credibility that will persuade jurors to trust the testimony, documents, and other evidence that you eventually will submit for their consideration. A superb opening can set you on a path toward winning the case, but a disastrous opening may be difficult to overcome. Thus, the content and the presentation of your opening statement must be developed with care.

As a general rule, counsel may not argue during opening. Rather, the opening statement should serve as a preview of the anticipated testimony, exhibits, and other evidence. Think of the opening statement as a forecast, designed to provide a general understanding and provoke further interest, like the kind of preview you might see on the inside jacket of a novel. The jacket text that introduces a novel typically does not confuse the prospective reader with an overly detailed chronology of events; it does not bore the reader with a recitation of the characters' names in the order they will appear in the book; and it does not command the reader to feel a certain way about the story contained in its pages. Instead, the jacket text captures the essence of the book in a way that gives the reader a general sense of the book's theme, entices the reader to proceed further, and leaves the reader to make his own judgment regarding the final meaning of the story. That is the way jurors should be left at the end of the opening statement – with an understanding of the case's theme, an eagerness to learn more, and an appreciation for the ultimate judgment they will be asked to make.

II. Elements of the Opening Statement

Theme of the Case

In the opening statement, a lawyer should provide the jury with a theme that will serve as a framework for every piece of evidence the jury hears during the case. The theme should communicate how the evidence will fit together, and why your client's position in the case is the right one. For instance, a lawyer defending a discrimination case may have a theme of "unheeded warnings" to communicate that the plaintiff had a chance to improve their performance before termination, but failed to take advantage of the opportunity. Plaintiff's counsel in the same case may have a theme of "repeated disciplinary actions, all motivated by race." Obviously, expressing a theme is difficult to do without bordering on argument – which is improper in the opening statement – but courts generally allow a lawyer to state a theme at the beginning and end of the opening statement, as long as the rest of the opening is not argumentative.

A good way to develop a theme is to try to describe your case in one summary sentence, without legalese, as you might do if you were explaining your case to a non-lawyer family

Mahathir's Islam Sven Schottmann, 2018-09-30 Mahathir Mohamad s legacy as Malaysia s longest serving prime minister 1981 2003 is deeply controversial His engagement with Islam the religion of just over half Malaysia s population has often been dismissed as partisan maneuvering Yet his willingness to countenance a more prominent place for Islam in government and society is what distinguished him from other modernist politicians and his instinct to set Malaysian politics against the backdrop of the wider Muslim world was politically astute Author Sven Schottmann argues that Mahathir s transformative effect on Malaysia can only be fully appreciated if we also take him seriously as one of the postcolonial Muslim world s most significant political thought leaders Schottmann sees Mahathir s representations of Islam as a relatively coherent discourse that can legitimately be described as Mahathir s Islam This discourse contains Mahathir s assessment of the economic political and sociocultural problems facing the contemporary Muslim world and the range of solutions and

corrective measures that he proposed Muslims should adopt His ideas are fraught with flaws and contradictions On the one hand he emphasized the individualistic egalitarian pluralistic democratic and dynamic qualities of Islam On the other his government enacted legislation and acquiesced in the activities of religious bodies that curtailed religious freedoms of both Muslims and non Muslims His ideas contributed to Malaysia s worsening state of interethnic relations yet his insistence that every Muslim had the right to speak for Islam may have paradoxically prepared the ground for a future democratization of Malaysian politics Mahathir s Islam is based on rigorous analysis of Mahathir s speeches interviews and writings which the author is able to link to parallel processes elsewhere in the Muslim world Indonesia the Middle East Pakistan Turkey and diaspora communities in the West Mahathir s Islamic discourse Schottmann suggests must be read against the wider late twentieth century resurgence of religion in general and the post 1970s Islamic revival in particular Balanced in approach and engagingly written this book will be of interest to scholars and students of political science religious studies and others interested in Malaysia Southeast Asia or Mahathir himself
