## **Examples Of Personification Rainforest:**

Animism in Rainforest and Tundra Marc Brightman, Vanessa Elisa Grotti, Olga Ulturgasheva, 2012-08-15 Amazonia and Siberia classic regions of shamanism have long challenged western understandings of man's place in the world. By exploring the social relations between humans and non-human entities credited with human-like personhood not only animals and plants but also things such as artifacts, trade items or mineral resources from a comparative perspective this volume offers valuable insights into the constitutions of humanity and personhood characteristic of the two areas. The contributors conducted their ethnographic fieldwork among peoples undergoing transformative processes of their lived environments such as the depletion of natural resources and migration to urban centers. They describe here fundamental relational modes that are being tested in the face of change presenting groundbreaking research on personhood and agency in shamanic societies and contributing to our global understanding of social and cultural change and continuity.

**States of Grace** Patrícia I. Vieira, 2018-04-01 Provides in-depth analyses of key moments in Brazilian utopianism including theological, political, matriarchal, environmental and work-free utopias. *States of Grace* offers a novel approach to the study of Brazilian culture through the lens of utopianism. Patrícia I. Vieira explores religious and political writings, journalistic texts, sociological studies and literary works that portray Brazil as a utopian land of the future where dreams of a coming messianic age and of social and political emancipation would come true. The book discusses crucial utopian moments such as the theological, political, utopia proposed by Jesuit Priest Antônio Vieira, matriarchal utopias like the egalitarian society of the Amazons, work-free utopias that abolished the boundaries separating toil and play and ecological utopias where humans and nonhumans coexist harmoniously. The uniqueness of the book's approach lies in rethinking the link between messianic and utopian texts as well as the alliances forged between progressive religious, socioeconomic, political and ecological ideas.
