Facing Two Ways The Story Of My Life:

Facing Two Ways Shidzue Hirota Ishimoto, baroness, Shizue Katō, Shidzue Ishimoto, 1984 *Facing Two Ways, the Story of My Life*, by Baroness Shidzue Ishimoto ... Baroness Shidzue Ishimoto, 1935 **Facing Two Ways** Baroness Shidzue Ishimoto, 1963 **Japanese Women and the Transnational Feminist Movement Before World War II** Taeko Shibahara, 2014-04-04 This book traces the development of feminist consciousness in Japan from 1871 to 1941 Taeko Shibahara uncovers some fascinating histories as she examines how middle class women navigated between domestic and international influences to form ideologies and strategies for reform They negotiated a humanitarian space as Japan expanded its nationalist militarist imperialist and patriarchal power Focusing on these women's political awakening and activism Shibahara shows how Japanese feminists channeled and adapted ideas selected from international movements and from interactions with mainly American social activists Japanese Women and the Transnational Feminist Movement before World War II also connects the development of international contacts with the particular contributions of Ichikawa Fusae to the suffrage movement Ishimoto Shidzue to the birth control movement and Gauntlett Tsune to the peace movement by touching on issues of poverty prostitution and temperance The result provides a window through which to view the Japanese women's rights movement with a broader perspective A New Woman of Japan Helen M. Hopper, 2019-03-13 This perceptive detailed biography traces the life of Kat Shidzue one of Japan's most powerful female activists and politicians Kat's activism initially was sparked by her friendship with Margaret Sanger who inspired Kat to found a Japanese birth control movement in the 1920s Towards a Comparative History of Coalfield Societies Andy Croll, 2017-05-15 Few areas of labour history have received as much attention as the coal industry with miners often finding themselves at the centre of studies on working class political and industrial history Yet whilst much has been written about the struggles of miners and their unions in particular countries their national confrontations and political organization much less work has been done on the regional communities and how they related both to the national and international picture The central theme of this volume is to transcend such overarching national models and to focus instead on local coal mining societies which can then be compared and contrasted to similar communities elsewhere In so doing the book is able to tackle a number of familiar labour history themes in a more nuanced way exploring issues of political activism and class relationships from the perspectives of gender ethnicity race and specific localized cultural traditions As the chapters in this volume illustrate such an approach can offer rich and often surprising conclusions in many cases challenging the accepted notion of miners as the vanguard of militant working class political activism Adopting a regional approach that compares coalfield communities from five continents this volume reflects coalfield experiences on a truly global scale By looking at what made communities unique as well as what they shared in common a much fuller understanding of the workplace neighbourhood family identity and political organization is possible Underlining the strong connections between politics community and identity this work emphasizes

the challenges and opportunities available to labour historians pushing forward the boundaries of the discipline in new and exciting ways

Searching for Japan Michele Monserrati, 2020-03-27 This book pursues the specific case of Italian travel narratives in the Far East through a focus on the experience of Japan in works by writers who visited the Land of the Rising Sun beginning in the Meiji period 1868 1912 and during the concomitant opening of Japan s relations with the West Drawing from the fields of Postcolonial and Transnational Studies analysis of these texts explores one central question what does it mean to imagine Japanese culture as contributing to Italian culture Each author shares in common an attempt to disrupt ideas about dichotomies and unbalanced power relationships between East and West Proposing the notion of relational Orientalism this book suggests that Italian travelogues to Japan in many cases pursued the goal of building imaginary transnational communities predicated on commonalities and integration by claiming what they perceived as Oriental as their own In contrast with a long history of Western representations of Japan as inferior and irrational Searching for Japan identifies a positive overarching attitude toward the Far East country in modern Italian culture Expanding the

horizon of Italian transnational networks normally situated within the Southern European region this book reinstates the existence of an alternative Euro Asian axis operating across Italian history
