**Factors that Affecting Budget Utilization in Nekemte Technical College** Keno Telila, 2015-11-26 Over the world Higher Learning Institutions want to be efficient effective accountable and responsive to the needs of its customers particularly students In order to produce skilled man power demanded by national economy higher learning institutions particularly Colleges should have to use limited resources allocated by the government in economic ways This is reach if and only if these institutions Have and implement effective budgeting systems The budget is a quantitative expression of the plan against which the actual results can be compared and measured Budgets are used to encourage communication coordination s performance evaluation controlling and force managers to think about a head Also budget is a time bound financial planning most of the

time a year However usually budget is not properly utilized in Ethiopian public organizations due to certain factors in which Nekemte Technical and vocational college is not an odd Therefore the general purpose of this study was to assess factors that influencing budget utilization in Nekemte Technical and vocational college **Ethiopian Journal of Development Research** ,2002

**Evidence on the Benefits of Integrating Mental Health and HIV into Packages of Essential Services and Care** Olumide Abiodun ,Theddeus Iheanacho,Saheed Akinmayowa Lawal,2024-10-25 As the 21st century continues to unfold emerging re emerging and newly emerging infectious diseases will become more pronounced These infectious diseases like Coronavirus disease COVID 19 which has led to 6 330 802 deaths globally as of 28th June 2022 contend with other existing global health priorities such as mental health HIV AIDs cancers malaria and monkeypox The COVID 19 pandemic has forced many countries to focus their attention and resources on tackling the disease paying less attention to other public health issues such as the need to integrate mental health services into HIV care But investing in mental health and psychosocial support and ensuring the integration of mental health and HIV interventions are critical for achieving universal health coverage ensuring health equity and ending the AIDS epidemic WHO 2022 6 **Challenges and Opportunities for Agricultural Intensification of the Humid Highland Systems of Sub-Saharan Africa** Bernard Vanlauwe,Piet van Asten,Guy Blomme,2014-10-07 The humid highlands in sub Saharan Africa SSA are characterized by high population densities and require intensification The Consortium for Improving Agriculture based Livelihoods in Central Africa CIALCA has set up a research for development platform in various mandate areas in DR Congo Burundi and Rwanda aiming to identify improved production market and nutrition options and facilitating the access for development partners to these options This platform is supported by capacity building multi stakeholder dialogue and monitoring and evaluation efforts The conference facilitated by CIALCA aimed to i take stock of the state of the art in agricultural intensification in the highlands of SSA and ii chart the way forward for agricultural research for development in the humid highlands of SSA and more specifically in the recently launched Humidtropics Consortium Research Programme through keynote oral and poster presentations and strategic panel discussions **The Soils of Ethiopia** Berhanu Debele,1994 **Social Determinants of Women's Health in Low and Middle Income Countries** Rubeena Zakar,Parveen Ali,Gaurang Baxi ,Sarosh Iqbal,2024-11-11 It is well established that the social determinants of health SDH highly influence health outcomes and inequities This is particularly true in low and middle income countries where women are deprived of their basic rights including access to health services appropriate nutrition and education Socio cultural practices such as child marriages forced marriages cousin marriages female genital mutilation and son preference undermine women health and well being Additionally various negative stereotypes such as pregnancy and childbirth related taboos dowry and honor related violence restrictions on women s mobility and social participation are significantly associated with women s health status To improve women s sexual and reproductive health societies must take comprehensive and integrated measures to address these cultural stereotypes

and harmful sociocultural practices against women A SDH approach dictates that health is shaped importantly by various individual factors and community norms that further enable or constrain health Individual factors include education income ethnicity and the environment wherein people live including their families communities and workplace Macro level social factors include the labor market schools healthcare systems legal systems institutionalized practices and ideologies In many low and middle income countries women are still socially excluded and economically marginalized They lack opportunities for education economic growth and political participation There are many social drivers associated with maternal health Many negative life experiences such as infertility and perinatal loss poverty discrimination social inequalities lack of autonomy violence economic dependency and isolation have long lasting impact on mothers mental health and wellbeing To comprehensively understand the drive of maternal health a multilevel and bio social approach of social determinants of women s health is integral

**Working with indigenous knowledge** Fhumulani M. Mulaudzi,Rachel T. Lebesse,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has

remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research
