Critical and Social Essays, 2015-07-08 Excerpt from Critical and Social Essays Reprinted From the New York Nation It is told of Carlyle that once when he was thoroughly fatigued in body and mind by the labor of producing one of his works and had then been almost thrown into despair because of the sudden and total destruction of his manuscript before a word of it had gone to the press he shut himself up alone in his room and deliberately read through the complete works of Captain Marryatt This singular proceeding certainly appears to have in it something of that quality of mind which earned for the sage of Chelsea from some of the irreverent the title of The Incoherent Thomas He was able though to give a sound reason for his seemingly absurd and inconsequent behavior He wanted he said to induce in his mind a perfect vacuity of thought and could hit upon no other expedient so well adapted to his purpose Why he should have chosen Captain Marryatt in preference to a hundred or two others it is not easy to see About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Meyer Schapiro's Critical Debates C. Oliver O'Donnell,2019-10-14 Described in the New York Times as the greatest art historian America ever produced Meyer Schapiro was both a close friend to many of the famous artists of his generation and a scholar who engaged in public debate with some of the major intellectuals of his time This volume synthesizes his prolific career for the first time demonstrating how Schapiro worked from the nexus of artistic and intellectual practice to confront some of the twentieth century s most abiding questions Schapiro was renowned for pioneering interdisciplinary approaches to interpreting visual art His lengthy formal analyses in the 1920s Marxist interpretations in the 1930s psychoanalytic critiques in the 1950s and 1960s and semiotic explorations in the 1970s all helped open new avenues for inquiry Based on archival research C Oliver O'Donnell s study is structured chronologically around eight defining debates in which Schapiro participated including his dispute with Isaiah Berlin over the life and writing of Bernard Berenson Schapiro s critique of Martin Heidegger s ekphrastic commentary on Van Gogh and his confrontation with Claude L vi Strauss over the applicability of mathematics to the interpretation of visual art O'Donnell s thoughtful analysis of these intellectual exchanges not only traces Schapiro s philosophical evolution but also relates them to the development of art history as a discipline to central tensions of artistic modernism and to modern intellectual history as a whole Comprehensive and thought provoking this study of Schapiro s career pieces together the separate strands of his work into one cohesive picture In doing so it reveals Schapiro s substantial impact on the field of art history and on twentieth century modernism

New to the Fourth Edition is an excerpt from Adam Hochschild's recent book *King Leopold's Ghost* as well as writings on race by Hegel, Darwin and Galton. Criticism includes a wealth of new materials including nine contemporary reviews and assessments of Conrad and *Heart of Darkness* and twelve recent essays by Chinua Achebe, Peter Brooks, Daphne Erdinast, Vulcan, Edward Said and Paul B. Armstrong among others. Also new to this edition is a section of writings on the connections between *Heart of Darkness* and the film *Apocalypse Now* by Louis K. Greiff, Margot Norris and Lynda J. Dryden. A Chronology and Selected Bibliography are also included.

A Conceptual-analytic Study of Classical Indian Philosophy of Morals Rajendra Prasad, 2008. Using reconstructive ideas available in classical Indian original works, this book makes a departure in the style of modern writings on Indian moral philosophy. It presents Indian ethics in an objective, secular and wherever necessary, critical manner as a systematic, down-to-earth philosophical account of moral values, virtues, rights and obligations. It thereby refutes the claim that Indian philosophy has no ethics as well as the counter claim that it transcends ethics. It demonstrates that moral living proves that the individual, his society and the world are really real and not only taken to be real for behavioral purposes as the Advaitins hold. The self is amoral; being a non-agent, moksha is not a moral value and the Karmic theory because of involving belief in rebirth does not guarantee that the doer of an action is also the experiencer of its results, contrary to what is commonly held. And Indian ethics can sustain itself even if such notions are dropped. Rajendra Prasad calls Indian ethics organismic because along with ethical concerns it also covers issues related to professions, politics, administration, sex, environment, etc. Therefore, in one format it is theoretical and applied, normative and metaethical, humanistic and non-humanistic, etc. of course within the limits of the then cognitive enquiry.
