*U.S. Army The Applied Critical Thinking Handbook* , Why Red Teaming The premise of the program at the University of Foreign Military and Cultural Studies UFMCS is that people and organizations court failure in predictable ways that they do so by degrees almost imperceptibly and that they do so according to their mindsets biases and experience which are formed in large part by their own culture and context The sources of these failures are simple observable and lamentably often repeated They are also preventable and that is the point of red teaming Our methods and education involve more than Socratic discussion and brainstorming We believe that good decision processes are essential to good outcomes To that end our curriculum is rich in divergent processes red teaming tools and liberating structures all aimed at decision support We educate people to develop a disposition of curiosity and help them become aware of biases and behavior that prevent them from real positive change in the ways they seek solutions and engage others We borrow techniques methods frameworks concepts and best practices from several sources and disciplines to create an education and practical applications that we find to be the best safeguard against individual and organizational tendencies toward biases errors in cognition and groupthink Red teaming is diagnostic preventative and corrective yet it is neither predictive or a solution Our goal is to be better prepared and less surprised in dealing with complexity What is Red Teaming Red teaming is a function that provides commanders an independent capability

to fully explore alternatives in plans operations concepts organizations and capabilities in the context of the operational environment OE and from the perspectives of partners adversaries and others A Red Team performs three general types of tasks Support to operations planning and decision support Critical review and analysis of already existing plans Intelligence support Threat Emulation UFMCS provides education for the first two tasks TRADOC s Intelligence School and Center provides education on the third In order for a Red Team to effectively contribute to decision making all of the following elements are required The ability to think critically about the problem While this may seem obvious the reality is that critical thinking is a skill set that requires training education and tools The Army assimilates people from different backgrounds across the nation One of the drawbacks of that assimilation is our military tendency to reflect the same biases and perspectives We pride ourselves in common values which while ingrained in the Army culture are not universal outside of that culture Thinking critically and challenging the group is an unnatural act for military staffs Doing so effectively requires tools and methods that enable leaders to see different perspectives Red Teams require top cover to be allowed to challenge the conventional wisdom and the organization s leaders No matter the quality of the Red Team or the methods they employ dictatorial or toxic leaders are incompatible with successful red teaming Red teaming is not easy and not everyone can do it Red Teamers must be effective written and oral communicators They must have credibility in the area in which they are providing red teaming insights They must be able to constructively challenge the plan This means focusing on what is truly important able to explain why it is being challenged and offering some alternative ways to think about the problem

Current Issues and Enduring Questions Sylvan Barnet,Hugo Adam Bedau,John O'Hara,2019-09-27 Current Issues and Enduring Questions is a text and reader that serves as an extensive resource for teaching argument persuasive writing critical thinking and research It includes readings on topics that matter to students such as being seen as the other and student loan forgiveness issues that students will want to engage with and debate Comprehensive coverage of classic and contemporary approaches to argument includes Aristotelian Toulmin Rogerian and a range of alternative views such as analyzing and writing about visual arguments This new edition does more than ever to make argument concepts clear and to give students strategies for crafting effective arguments For today s ever increasingly visual learners who are challenged to separate what s real from what s not new activities and visual flowcharts support information literacy Newly annotated readings highlight important rhetorical moves And new readings explore controversial issues such as mass incarceration cultural appropriation and the way computer algorithms make biased decisions *Teaching for Critical Thinking* Stephen D. Brookfield,2011-10-18 While notions of what constitutes critical thinking vary educators politicians and employers all agree that critical thinking skills are necessary for well educated citizens and a key capacity for successful employees In *Teaching for Critical Thinking* Stephen Brookfield explores how students learn to think critically and what methods teachers can use to help In his engaging conversational style Brookfield establishes a basic protocol of critical thinking that focuses on students

uncovering and checking assumptions exploring alternative perspectives and taking informed actions The book fosters a shared understanding of critical thinking and helps all faculty adapt general principles to specific disciplinary contexts Drawing on thousands of student testimonies the book identifies the teaching methods and approaches that are most successful when teaching students to think read and write critically Brookfield explains when to make critical thinking the classroom focus how to encourage critical discussions and ways to reach skeptical students He outlines the basic components required when reviewing a text critically and shows how to give highly specific feedback The book also addresses how to foster critical thinking across an institution beginning with how it can be explained in syllabi and even integrated into strategic plans and institutional missions Brookfield stresses the importance of teachers modeling critical thinking and demonstrates himself how to do this Crammed with activities and techniques this how to guide is applicable in face to face online and hybrid classrooms of all sizes Each exercise includes detailed instructions examples from different academic disciplines and guidance for when and how to best use each activity Any reader will come away with a pedagogic tool kit of new ideas for classroom exercises new approaches to designing course assignments and new ways to assess students ability to practice critical analysis

**Current Issues and Enduring Questions** Sylvan Barnet, Hugo Adam Bedau, 2002 A concise text on critical thinking reading writing and argument The three chapters in Part One show students how to recognize and evaluate assumptions as a prelude to annotating summarizing and analyzing arguments The three chapters in Part Two help students apply their critical thinking and reading skills to the tasks of writing analytical critical and research based papers in MLA or APA style The six chapters in Part Three uniquely introduce students to alternative approaches to argument A comprehensive and flexible argument reader with two anthologies In addition to the 48 readings throughout the text Parts Four and Five comprise an anthology with 55 selections that prompt students to think and write critically about 13 pressing current issues Part Six the second anthology contains 29 classic selections that explore three enduring philosophical questions In depth casebooks multiple readings on controversial topics appear in both the text and the reader New to the sixth edition is coverage of visual rhetoric with images updated and expanded research features and more student writing
