Critique Of Everyday Life Volume Ii:

Critique of Everyday Life: Foundations for a sociology of the everyday Henri Lefebvre, 1991 Henri Lefebvre's three volume *Critique of Everyday Life* is perhaps the richest most prescient work by one of the twentieth century's greatest philosophers. The first volume presented an introduction to the concept of everyday life. Written twenty years later this second volume attempts to establish the necessary formal instruments for analysis and outlines a series of theoretical categories within everyday life such as the theory of the semantic field and the theory of moments. The moment at which the book appeared 1961 was significant both for France and for Lefebvre himself he was just beginning his career as a lecturer in sociology at Strasbourg and then at Nanterre and many of the ideas which were influential in the events leading up to 1968 are to be found in this critique. In its impetuous often undisciplined prose the reader may catch a glimpse of how charismatic a lecturer Lefebvre must have been. **Henri Lefebvre** Andrew Merrifield, 2013-10-18 Philosopher sociologist and urban theorist Henri Lefebvre is one of the great social theorists of the twentieth century. This accessible and innovative introduction to the work of Lefebvre combines biography and theory in a critical assessment of the dynamics of Lefebvre's character thought and times. Exploring key Lefebvrian concepts Andy Merrifield demonstrates the evolution of Lefebvre's philosophy while stressing the way his long and adventurous life of ideas and political engagement live on as an enduring and inspiring interrelated whole. *Critique of Everyday Life* Henri Lefebvre, 2014-05-06 Henri Lefebvre's magnum opus a monumental exploration of contemporary society. Henri Lefebvre's three volume *Critique of Everyday Life* is perhaps the richest most prescient work by one of the twentieth century's greatest philosophers. Written at the birth of post war consumerism the *Critique* was a philosophical inspiration for the 1968 student revolution in France and is considered to be the founding text of all that we know as cultural studies as well as a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism. A work of enormous range and subtlety Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet one which remains the only source of resistance and change. This is an enduringly radical text untimely today only in its intransigence and optimism. **Henry Green** Nick Shepley, 2016-08-04 Henry Green *Class Style and the Everyday* offers a critical prism through which Green's fiction from his earliest published short stories as an Eton schoolboy through to his last dialogic novels of the 1950s can be seen as a coherent subtle and humorous critique of the tension between class style and realism in the first half of the twentieth century. The study extends on going critical recognition that Green's work is central to the development of the novel from the twenties to the fifties acting as a vital bridge between late modernist inter war post war and postmodernist fiction. The overarching contention is that the shifting and destabilizing nature of Green's oeuvre sets up a predicament similar to that confronted by theorists of the everyday. Consequently each chapter acknowledges the indeterminacy of the writing whether it be the non singular functioning or malfunctioning of the

name the open ended purposefully ambiguous nature of its symbols the shifting cinematic nature of Green s prose style the sensitive but resolutely unsentimental depictions of the working classes and the aristocracy in the inter war period the impact of war and its inconsistent irruptions into daily life or the ways in which moments or events are rapidly subsumed back into the flux of the everyday their impact left uncertain Critics have historically offered up singular readings of Green s work or focused on the poetic or recreative qualities of certain works particularly those of the 1940s Green s writing is undoubtedly poetic and extraordinary but this book also pays attention to the clichéd meta textual and uneventful aspects of his fiction

Understanding Henri Lefebvre Stuart Elden,2004-03-01 Henri Lefebvre has been celebrated as one of the most influential social theorists of the twentieth century Understanding Henri Lefebvre places Lefebvre in his historical and intellectual context and analyzes the extraordinary range of his work across politics philosophy history literature and culture Particular emphasis is given to Lefebvre s trilogy of inspirational thinkers Hegel Marx and Nietzsche his links to contemporaries such as Heidegger Axelos and the Situationists and his critiques of existentialism and structuralism Analysis of his writings on cities are balanced with those on rural communities the production of space connected to ideas of time and history and everyday life linked to the festival and cultural revolution Understanding Henri Lefebvre offers the most wide ranging and reliable account of this central theorist available

Fascism, the War, and Structures of Feeling in Italy, 1943-1945 Simonetta Falasca-Zamponi,2023 By bringing to life the cultural imaginaries and practices of the past Fascism the War and Structures of Feeling in Italy 1943 1945 raises ostensibly intractable questions on the epochal impact of what often appears as inconsequential the typically unseen and seemingly banal power of everyday experiences

Henri Lefebvre, Metaphilosophy, and Modernity Patrick Gamsby,2025-08-22 Henri Lefebvre Metaphilosophy and Modernity provides a new interpretation of the work of Henri Lefebvre 1901 1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre s The Production of Space as the point of departure and or on his theorizing of everyday life with his multi volume Critique of Everyday Life as the focal point This book argues that it is Lefebvre s concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre s writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology

Urban Aesthetics in Early Modern London Christopher D'Addario,2023-06-15 A new literary history of the origins of metaphysical poetry in the urban environment of early modern London considering the work of John Marston Thomas Nashe John Manningham and John Donne

Negotiating the Mediated City Zlatan Krajina,2013-11-26 This book is an interdisciplinary empirical investigation

of how people interact with public screens in their daily lives In more and more surprising locations screens of various kinds appear within the sightlines of passers by in contemporary cities Outdoor advertisers target audiences which are increasingly mobile public art uses screens to interrogate urban change while postmodern architecture finds electronic imagery a suitable tool of expression Traditionally urban sociology research has assumed that people seek to filter urban stimuli but recent accounts of public screens suggest producers design and position display interfaces site specifically so as to engage with those moving past This study offers insight both into the dynamics of actual encounters and into the long term process of how people learn to live with repeated invitations to consume media in public spaces The book includes four cases street advertising underground transport advertising and installation art in London UK and media facade architecture in Zadar Croatia Krajina shows that maintaining familiarity with everyday surroundings in media cities that change beyond citizens control is a temporary achievement and a recursive struggle Finalist for the Jane Jacobs Urban Communication Foundation book award 2014

Reimagining Urban Marxisms Francesco Biagi, 2025-06-24 This volume presents an interdisciplinary and international revaluation of urban Marxisms Bringing together the main critical Marxist perspectives from around the world on contemporary urban studies it engages with a range of issues connected to the urban question such as urban sprawl housing and increasing rates of urbanization across the globe With attention to the manner in which the three axes of class gender and race play a fundamental role in contemporary social phenomena it interweaves different issues that are inextricably linked in matters of urban inequality The book bridges a significant gap between urban studies and Marxist theories by reviving Marx and Engels ideas in the context of analyzing urban studies in the twenty first century The objective is to bring together diverse perspectives and directions of the ongoing debate on the urban question Although there are multiple Marxisms and theoretical currents inspired by Marxism that seek to understand the urban and spatial transformations of today there has been a lack of comprehensive scholarship that systematically brings them together to frame this debate The goal is to unite the main critical Marxist perspectives on contemporary urban studies Reimagining Urban Marxisms will therefore appeal to scholars across disciplines with interests in Marxist analyses of contemporary urban and spatial transformations and the phenomenon of planetary urbanization

Routledge Handbook of Social and Cultural Theory Anthony Elliott, 2020-12-30 If today students of social theory read Jurgen Habermas Michael Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Julia Kristeva and Slavoj Zizek The second edition of the Routledge Handbook of Social and Cultural Theory is fully revised and updated to provide students teachers and researchers with a comprehensive critical guide to the major traditions of thought in social and cultural theory as well as tracing the complex intellectual connections between these distinct but related approaches to understanding society and culture The Handbook edited by acclaimed sociologist Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and

cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are also new chapters on mobilities and migrations as well as posthumanism The Handbook written in a clear and direct style will appeal to a wide audience of students and scholars The extensive references and sources will direct students to areas of further study

Critique of Everyday Life Henri Lefebvre, 2014-05-06 The three volume text by Henri Lefebvre is perhaps the richest most prescient work about modern capitalism to emerge from one of the twentieth century's greatest philosophers and is now available for the first time in one complete volume Written at the birth of post war consumerism Critique was an inspiration for the 1968 student revolution in France It is a founding text of cultural studies and a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet remaining the only source of resistance and change This is an enduringly radical text untimely today only in its intransigence and optimism

Modernism and Theory Stephen Ross, 2009-05-07 Modernism and Theory boldly asks what role theory has to play in the new modernist studies The three sections comprise expositions and debates on modernist topics by leading contributors and the book concludes with an afterword from Fredric Jameson

Visions of the City David Pinder, 2013-11-12 Visions of the City is a dramatic history of utopian urbanism in the twentieth century It explores radical demands for new spaces and ways of living and considers their effects on planning architecture and struggles to shape urban landscapes The author critically examines influential utopian approaches to urbanism in western Europe associated with such figures as Ebenezer Howard and Le Corbusier uncovering the political interests desires and anxieties that lay behind their ideal cities He also investigates avant garde perspectives from the time that challenged these conceptions of cities especially from within surrealism At the heart of this richly illustrated book is an encounter with the explosive ideas of the situationists Tracing the subversive practices of this avant garde group and its associates from their explorations of Paris during the 1950s to their alternative visions based on nomadic life and play David Pinder convincingly explains the significance of their revolutionary attempts to transform urban spaces and everyday life He addresses in particular Constant's New Babylon finding within his proposals a still powerful provocation to imagine cities otherwise The book not only recovers vital moments from past hopes and dreams of modern urbanism It also contests current claims about the end of utopia arguing that reconsidering earlier projects can play a critical role in developing utopian perspectives today Through the study of utopian visions it aims to rekindle elements of utopianism itself A superb critical exploration of the underside of utopian thought over the last hundred years and its continuing relevance in the here and now for thinking about possible urban worlds The treatment of the Situationists and their milieu is a revelation
