from his breakthrough Scanners 1981 through his most recognizable films such as The Fly 1986 and more recent works Editor Simon Riches and a collaboration of scholars introduce the filmmaker's horrific storylines and psychologically salient themes that reveal his pioneering use of the concept of body horror as well as his continued aim to satirize the modern misuse of science and technology The Philosophy of David Cronenberg also explores the mutation of self authenticity and the human mind as well as language and worldviews While Cronenberg's films have moved from small market cult classics to mainstream successes his intriguing visions of humanity and the self endure

David Cronenberg Peter Morris, 1994 The Modern Fantastic Michael Grant, 2000-11-30 In The Fly one of Seth Brundle's experiments goes disastrously wrong and the chimpanzee he was attempting to transport from one telepod to the other ends up in the second device a quivering mass of flesh the process of teleportation has turned it inside out and yet it remains in unimaginable agony alive David Cronenberg is undoubtedly one of the great directors of transgression violating boundaries between the subjective and the objective and even more spectacularly between the human and the non human This collection of seven critical essays explores the multifaceted nature of Cronenberg's achievement and ranges from Jonathan Crane's reassessment of Cronenberg's place within horror cinema to Parveen Adams intensely focused discussion of Crash Other essays examine the place of the homoerotic body in Cronenberg's films view M Butterfly in relation to modern notions of literature place the earlier work in its historical context address the complexity and ambiguity derived from certain fundamental contrasts underpinning much of his work and discuss some of the shortcomings of critical writings on Cronenberg The book also includes a recent interview with the director together with a full filmography and bibliography An important analysis for students and scholars of contemporary film and popular culture **The Shape of Rage** Academy of Canadian Cinema, 1983 Met bibliogr filmogr cred Ook aanwezig als L horreur int rieure les films de David Cronenberg Paris ditions du cerf etc 1992 258 p ill 23 cm 7e Art ISSN 0768 1496 90 ISBN 2 204 04125 4 The Politics of Insects Scott Wilson, 2011-08-18 Canadian film director David Cronenberg has long been a figure of artistic acclaim and public controversy Bursting into view with a trio of shocking horror films in the 1970s Cronenberg's work has become increasingly complex in its sensibilities and inward looking in its concerns and themes This trajectory culminates in the multiplex successes of his most recent films which appear to conclude a straightforward evolutionary arc that begins in the cold outside of shock horror and arrives in the warm embrace of commercial and critical success Scott Wilson argues persuasively that Cronenberg s career can be divided into broad thematic stages and instead offers a complex examination of the relationship between three inter related terms the director as auteur the industry that support or denies commercial opportunity and the audience who receive interpret and support or decry the vision represented on screen The Politics of Insects provides an opportunity to explore Cronenberg's films in relation to each other in terms of their thematic continuity and in terms of their relationship to

industrial concerns and audience responses Cult Film as a Guide to Life I.O. Hunter, 2016-09-08 Cult Film as a Guide to Life investigates the world and experience of cult films from well loved classics to the worst movies ever made Including comprehensive studies of cult phenomena such as trash films exploitation versions cult adaptations and case studies of movies as different as Showgirls Room 237 and The Lord of the G Strings this lively provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world Using his expertise in two fields I O Hunter also explores the important overlap between cult film and adaptation studies He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences emotional investment not only in texts but also in the relationships between them and how such bonds of caring are structured over time. The book s emergent theme is cult film as lived experience With reference mostly to American cinema Hunter explores how cultists with their powerful emotional investment in films care for them over time and across numerous intertexts in relationships of memory nostalgia and anticipation Transcendence and Film David P. Nichols, 2019-05-23 In this edited collection of essays ten experts in film philosophy explore the importance of transcendence for understanding cinema as an art form They analyze the role of transcendence for some of the most innovative film directors David Cronenberg Karl Theodor Dreyer Federico Fellini Werner Herzog Stanley Kubrick David Lynch Terrence Malick Yasujiro Ozu and Martin Scorsese Meanwhile they apply concepts of transcendence from continental philosophers like Alain Badiou Gilles Deleuze Martin Heidegger Michel Henry Edmund Husserl Karl Jaspers S ren Kierkegaard Maurice Merleau Ponty Friedrich Nietzsche and Jean Paul Sartre Each of the ten chapters results in a different perspective about what transcendence means and how it is essential to film as an art medium Several common threads emerge among the chapters The contributors find that the limitations of human existence are frequently made evident in moments of transcendence so as to bring characters to the margins of their assumed world At other times transcendence goes immanent so as to emerge in experiences of the surprising nearness of being as though for a radical intensification of life Film can also exhibit ciphers of transcendence whereby symbolic events open us to greater realizations about our place in the world Lastly the contributors observe that transcendence occurs in film not simply from isolated moments forced into a storyline but in a manner rooted within an ontological rhythm peculiar to the film itself
