We live in an age of artificial intelligence Machines think and act in ever more complex ways making suggestions and decisions on our behalf While AI might be seen as practical and profitable issues of data surveillance algorithmic control and sexist and racist bias persist In this rapidly changing landscape social analysis of AI risks getting scaled down to issues of ethics responsibility and fairness While these are important issues they must be addressed not from an AI first perspective but more thoroughly in terms of power and contention Approaching artificial intelligence from the often overlooked perspective of critical social theory this book provides a much needed intervention on how both old and new theories conceptualize the social consequences of AI Questions are posed about the ideologies driving AI the mythologies surrounding AI and the complex relationship between AI and power Simon Lindgren provides a way of defining AI as an object of social and political critique and guides the reader through a set of contentious areas where AI and politics intersect In relation to these topics critical theories are drawn upon both as an argument for and an illustration of how AI can be critiqued Given the opportunities and challenges of AI this book is a must read for students and scholars in the humanities social sciences and STEM disciplines

Critical theory and social pathology

Neal Harris, 2022-11-29 In the neoliberal world of the twenty first century the progressive academy urgently needs a vehicle for normative social research Critical theory once answered this call but today its programme is in crisis The pathologies of recognition approach popular among contemporary critical theorists aids neoliberalism rather than challenging it in part because it is unable to grasp the structural nature of power To offer an alternative this book returns to the work of Erich Fromm and Herbert Marcuse using it as the basis for a revived social theoretical foundation As the first generation of critical theorists knew thought itself can be reified our imaginations debased and our desires artificially induced We need to think beyond recognition and embrace a more potent and aggressive form of social critique true to the founding spirit of the Frankfurt School

Critical Theory, Poststructuralism and 'Nietzsche's Paradox' Nektarios Kastrinakis, 2025-07-18 Critical Theory Poststructuralism and Nietzsche's Paradox addresses a fundamental question in the exchange between Critical Theory and poststructuralism is poststructuralism justified in its critique of dialectical thinking and in the conclusion of this critique that we need to leave dialectics behind us to properly understand the social world When Deleuze's book Nietzsche and Philosophy was first published back in 1962 it caused a sensation in France and its Nietzschean critique of Hegelian dialectics played a pivotal role in the emergence of the current of thought we call poststructuralism However to what extent is this critique valid and justified This question has never been adequately investigated With this book Nektarios Kastrinakis attempts such an investigation through the exploration of the influence of Nietzsche in both Deleuze and Adorno More specifically he investigates a paradox in 20th century philosophy the paradox of Nietzsche Nietzsche is claimed by Deleuze to be a fierce critic of Hegel's dialectics and by authors like Gillian Rose and Karin

Bauer to be the originator of Adorno's negative dialectics Kastrinakis argues that there are in fact at least two Nietzsches one with an irrationalistic and one with a rationalistic critique of identity thinking on which both poststructuralism Deleuze and Critical Theory Adorno respectively lay a legitimate claim He moreover enacts the missing in the literature debate between Adorno and Deleuze which concludes that Adorno's critique of identity thinking his negative dialectics when modified to include an affirmative moment at its heart unacknowledged by Adorno himself can effectively challenge Deleuze's Nietzschean critique of dialectics Critical Theory Poststructuralism and Nietzsche's Paradox intervenes in the boundary between political philosophy and philosophy and will be of interest to scholars of Nietzsche Deleuze Adorno but also generally of poststructuralism and Critical Theory in these disciplines
