Castle The Citadel and The Stars Look Down many of which are based on mistaken autobiographical readings of Cronin's fiction itself Incorporating an account of Cronin's tempestuous relationship with his publisher Victor Gollancz and new revelations about the author's private life Davies's book paints a clearer portrait of both Cronin the writer and Cronin the man

**A Treatise on Northern Ireland, Volume II** Brendan O'Leary, 2019-04-17 This landmark synthesis of political science and historical institutionalism is a detailed study of antagonistic ethnic majoritarianism Northern Ireland was coercively created through a contested partition in 1920 Subsequently Great Britain compelled Sinn Féin's leaders to rescind the declaration of an Irish Republic remain within the British Empire and grant the Belfast Parliament the right to

secede If it did so a commission would consider modifying the new border The outcome however was the formation of two insecure regimes North and South both of which experienced civil war while the boundary commission was subverted In the North a control system organized the new majority behind a dominant party that won all elections to the Belfast parliament until its abolition in 1972 The Ulster Unionist Party successfully disorganized Northern nationalists and Catholics Bolstered by the Specials a militia created from the Ulster Volunteer Force this system displayed a pathological version of the Westminster model of democracy which may reproduce one party dominance and enforce national ethnic religious and cultural discrimination How the Unionist elite improvised this control regime and why it collapsed under the impact of a civil rights movement in the 1960s take center stage in this second volume of *A Treatise on Northern Ireland* The North's trajectory is paired and compared with the Irish Free State's incremental decolonization and restoration of a Republic Irish state building however took place at the expense of the limited prospect of persuading Ulster Protestants that Irish reunification was in their interests or consistent with their identities Northern Ireland was placed under British direct rule in 1972 while counter insurgency practices applied elsewhere in its diminishing empire were deployed from 1969 with disastrous consequences On January 1 1973 however the UK and Ireland joined the then European Economic Community Many hoped that would help end conflict in and over Northern Ireland Such hopes were premature Northern Ireland appeared locked in a stalemate of political violence punctuated by failed political initiatives [The Lawyers Reports Annotated, Book 1-70, 1905](#) [International Books in Print, 1997](#) **Translation, Travel, Migration** Loredana Polezzi, 2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory both practices seen as metaphors of mobility and flux linked to globalized post modern society Travel is a multiple activity encompassing temporary and voluntary displacement repeated movement exile economic migration diaspora Places of origin are often plural and unstable in spite of the enduring appeal of traditional labels such as mother country or patrie The multiple interfaces between translation travel and migration are the focus of all contributions in this special issue Starting from different points of view and using a variety of methodologies the authors raise fundamental questions about the way in which we perceive the link between language national or ethnic identity and individual voice Topics range from the interaction between travel travel narratives and translation in early English representations of China to the special role played by interpreters in mediating the first contact between a literate and a non literate culture from the multiple functions and audiences addressed by contemporary Romani literature and its translation to the political as well as cultural implications of translating popular music across the Bosphorus A number of the articles focus on detailed textual analysis covering the intersection between exile self translation and translingualism in the work of Manuel Puig the uses and limitations of translation in the works of migrant authors or the impact on figurations of Europe of experimental work embracing polylingualism Collectively these contributions also underline the importance of a closer examination of our assumptions

about who the translators and the interpreters are and what roles they play in our society      *Religious Statecraft*  
Mohammad Ayatollahi Tabaar, 2018-05-08 Since the 1979 revolution scholars and policy makers alike have tended to see Iranian political actors as religiously driven dedicated to overturning the international order in line with a theologically prescribed outlook This provocative book argues that such views have the link between religious ideology and political order in Iran backwards Religious Statecraft examines the politics of Islam rather than political Islam to achieve a new understanding of Iranian politics and its ideological contradictions Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran's factional and international politics demonstrating that religious narratives in Iran can change rapidly frequently and dramatically in accordance with elites threat perceptions He argues that the Islamists gambit to capture the state depended on attaining a monopoly over the use of religious narratives Tabaar explains how competing political actors strategically develop and deploy Shi'a inspired ideologies to gain credibility constrain political rivals and raise mass support He also challenges readers to rethink conventional wisdom regarding the revolution Ayatollah Khomeini the U.S. embassy hostage crisis the Iran Iraq War the Green Movement nuclear politics and U.S. Iran relations Based on a micro level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs Religious Statecraft constructs a new picture of Iranian politics in which power drives Islamist ideology      The fortunes of Maurice Cronin M.
