**Developmental-Behavioral Pediatrics E-Book** William B. Carey, Allen C. Crocker, Ellen Roy Elias, Heidi M. Feldman, William L. Coleman, 2009-04-28 The fourth edition of Developmental Behavioral

Pediatrics the pioneering original text emphasizes children's assets and liabilities not just categorical labels. It includes fresh perspectives from new editors Drs William Coleman, Ellen Elias and Heidi Feldman as well as further contributions from two of the original editors William B Carey M D and Allen C Crocker M D. This comprehensive resource offers information and guidance on normal development and behavior, genetic influences, the effect of general physical illness and psychosocial and biologic factors on development and behavior. It is also sufficiently scholarly and scientific to serve as a definitive reference for researchers, teachers and consultants. With a more user friendly design, this resource offers easy access, comprehensive guidance. Features new chapters dealing with genetic influences on development and behavior, crisis management, coping strategies, self esteem, self control and inborn errors of metabolism to cover the considerable advances and latest developments in the field. Focuses on the clinical aspects of function and dysfunction rather than arranging subjects according to categorical labels. Emphasizes children's assets as well as their liability so you get a well developed approach to therapeutic management. Concludes each chapter with a summary of the principle points covered with tables, pictures and diagrams to clarify and enhance the presentation. Offers a highly practical focus emphasizing evaluation, counseling, medical treatment and follow up. Features superb photos and figures that illustrate a wide variety of concepts. Offers access to the full text online through Expert Consult functionality at [www.expertconsult.com](http://www.expertconsult.com) for convenient reference from any practice location. Features new chapters dealing with Genetic Influences on Development and Behavior, Crisis Management, Coping Strategies, Self Esteem, Self Control and Inborn Errors of Metabolism. Presents a new two color design and artwork for a more visually appealing and accessible layout. Provides the latest drug information in the updated and revised chapters on psychopharmacology. Introduces Drs William Coleman, Ellen Elias and Heidi Feldman to the editorial team to provide current and topical guidance and enrich the range of expertise and clinical experience. Covers the considerable advances and latest developments in this subspecialty through updates and revisions to existing material.
