

**A Geographer's World****Section 2****MAIN IDEAS**

1. The five themes of geography help us organize our studies of the world.
2. The six essential elements of geography highlight some of the subject's most important ideas.

**Key Terms and Places**

**absolute location** a specific description of where a place is

**relative location** a general description of where a place is

**environment** an area's land, water, climate, plants and animals, and other physical features

**Section Summary****THE FIVE THEMES OF GEOGRAPHY**

Geographers use themes in their work. A theme is a topic that is common throughout a discussion or event. Many holidays have a theme, such as the flag and patriotism on the Fourth of July.

There are five major themes of geography: Location, Place, Human-Environment Interaction, Movement, and Regions. Geographers can use these themes in almost everything they study.

Location describes where a place is. This may be specific, such as an address. This is called an **absolute location**. It may also be general, such as saying the United States is north of Central America. This is called a **relative location**.

Place refers to an area's landscape. The landscape is made up of the physical and human features of a place. Together, these features give a place its own identity apart from other places.

Human-Environment Interaction studies how people and their environment affect each other. The **environment** includes an area's physical features, such as land, water, weather, and animals. Geographers study how people change their environment (by building, for example). They also
