Climate Change 2022 - Impacts, Adaptation and Vulnerability Intergovernmental Panel on Climate Change (IPCC), 2023-06-22 The Working Group II contribution to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change IPCC provides a comprehensive assessment of the scientific literature relevant to climate change impacts adaptation and vulnerability The report recognizes the interactions of climate ecosystems and biodiversity and human societies and integrates across the natural ecological social and economic sciences It emphasizes how efforts in adaptation and in reducing greenhouse gas

emissions can come together in a process called climate resilient development which enables a liveable future for biodiversity and humankind The IPCC is the leading body for assessing climate change science IPCC reports are produced in comprehensive objective and transparent ways ensuring they reflect the full range of views in the scientific literature Novel elements include focused topical assessments and an atlas presenting observed climate change impacts and future risks from global to regional scales Available as Open Access on Cambridge Core

Ideological and Political Bias in Psychology Craig L. Frisby, Richard E. Redding, William T. O'Donohue, Scott O. Lilienfeld, 2023-09-13 This book examines the traditional assumptions made by academics and professionals alike that have embedded sociopolitical biases that impede practice and undermine efforts to achieve an objective scientific status If allowed to go unchallenged the credibility of psychology as a discipline is compromised This contributed volume thoroughly and comprehensively examines this concern in a conceptually and empirically rigorous manner and offers constructive solutions for minimizing undue political influences within the field of psychology Societies in the 21st century desperately need reliable psychological science but we don't have it This important volume explains one of the main reasons why we are making little progress on any issue that gets contaminated by the left right culture war because the field of psychology is an enthusiastic member of one of the two teams so it rejects findings and researchers who question its ideological commitments The authors of this engaging volume also show us the way out They diagnose the social dynamics of bias and point to reforms that would give us the psychology that we need to address 21st century problems Jonathan Haidt Thomas Cooley Professor of Ethical Leadership NYU Stern School of Business and author of *The Righteous Mind* The boundaries of free speech censorship moral cultures social justice and ideological biases are among the many incendiary topics discussed in this book If you are looking for a deep dive into real world contemporary controversies *Ideological and Political Bias in Psychology* fits the bill The chapters are thoughtful and thought provoking Most readers will find something to agree with and something to rage at in almost every chapter It just may change how you think about some of these topics Diane F Halpern Professor of Psychology Emerita Claremont McKenna College and Past President American Psychological Association Unless the political left is always correct about everything in which case we wouldn't need to do research we could just ask a leftist the growing political monoculture of social science is a major barrier to our search for the truth This volume shows how ideological bias should be treated as a source of research error up there with classic methodological flaws like non random assignment and non blind measurement Steven Pinker Johnstone Professor of Psychology Harvard University and the author of *Rationality* An important read for academics curious about how their politics fashions beliefs that too often are uncritically taken for granted and for non academics wondering why we can't shake off the politics that so influences scientific work Vernon Smith Nobel Laureate in Economic Sciences and George L Argyros Chair in Finance and Economics Chapman University Advances and deepens empirically rigorous scholarship into biased political influences affecting academic and professional psychology Offers constructive solutions for minimizing undue

political influences within psychology and moving the field forward Serves as a resource for psychological academicians researchers practitioners and consultants seeking to restore the principles of accurate science and effective practice to their respective areas of research *Bulletin of the Atomic Scientists* ,1985-08 **Bulletin of the Atomic Scientists** ,1983-06

Routledge Handbook of Environmental Displacement and Migration Robert McLeman,François Gemenne,2018-03-09 The last twenty years have seen a rapid increase in scholarly activity and publications dedicated to environmental migration and displacement and the field has now reached a point in terms of profile complexity and sheer volume of reporting that a general review and assessment of existing knowledge and future research priorities is warranted So far such a product does not exist The Routledge Handbook of Environmental Displacement and Migration provides a state of the science review of research on how environmental variability and change influence current and future global migration patterns and in some instances trigger large scale population displacements Drawing together contributions from leading researchers in the field this compendium will become a go to guide for established and newly interested scholars for government and policymaking entities and for students and their instructors It explains theoretical conceptual and empirical developments that have been made in recent years describes their origins and connections to broader topics including migration research development studies and international public policy and law and highlights emerging areas where new and or additional research and reflection are warranted The structure and the nature of the book allow the reader to quickly find a concise review relevant to conducting research or developing policy on particular topics and to obtain a broad reliable survey of what is presently known about the subject **Fire in California's Ecosystems** Jan W. van

Wagtendonk,2018-06-08 Fire in California s Ecosystems describes fire in detail both as an integral natural process in the California landscape and as a growing threat to urban and suburban developments in the state Written by many of the foremost authorities on the subject this comprehensive volume is an ideal authoritative reference tool and the foremost synthesis of knowledge on the science ecology and management of fire in California Part One introduces the basics of fire ecology including overviews of historical fires vegetation climate weather fire as a physical and ecological process and fire regimes and reviews the interactions between fire and the physical plant and animal components of the environment Part Two explores the history and ecology of fire in each of California s nine bioregions Part Three examines fire management in California during Native American and post Euro American settlement and also current issues related to fire policy such as fuel management watershed management air quality invasive plant species at risk species climate change social dynamics and the future of fire management This edition includes critical scientific and management updates and four new chapters on fire weather fire regimes climate change and social dynamics *Century Edition of The American Digest* ,1901 **INIS Atomindex** ,1988 **The Chicago Legal News** ,1885 *Lake Tahoe Watershed Assessment: Untitled* ,2000 **Security and Post-Conflict Reconstruction** Robert Muggah,2008-11-04 This book provides a critical analysis of the changing

discourse and practice of post conflict security promoting interventions since the Cold War such as disarmament demobilization and reintegration DDR and security sector reform SSR Although the international aid and security sectors exhibit an expanding appetite for peace support operations in the 21st Century the effectiveness of such interventions are largely untested This book aims to fill this evidentiary gap and issues a challenge to conventional approaches to security promotion as currently conceived by military and peace keeping forces drawing on cutting edge statistical and qualitative findings from war torn areas including Afghanistan Timor Leste Sudan Uganda Colombia and Haiti By focusing on specific cases where the United Nations and others have sought to contain the presumed sources of post conflict violence and insecurity it lays out a new research agenda for measuring success or failure This book will be of much interest to students of peacebuilding peacekeeping conflict resolution conflict and development and security studies in general
