O'Rourke,Ben Koush,2024-05-07 The idea for this book came about when architectural historian Kathryn O Rourke and architect photographer Ben Koush collaborated on a piece on postmodern architecture for Texas Architect The two enjoyed working together with O Rourke writing and

Koush providing visuals and together with UTP developed the framework for a similarly rich book length treatment of modern architecture in Texas. Conceived to be accessible to a general readership, this project explores in photographs and words approximately fifty years of Texas modern architecture from the 1930s to the 1980s. As O'Rourke writes, "In this period modern architecture and Texas grew and changed at an astonishing pace. The state became a significant force in national and international affairs chiefly as a consequence of the oil industry and the presence of politically powerful Texans in Washington D.C. Major buildings, many designed by regionally and nationally prominent architects, followed the money in the state as the influence and image of Texas grew. Relentless ambition, a forward looking attitude, and a strong sense of place combined to make Texans particularly receptive to modern architecture's implication of newness, its future oriented image, and its capacity to reinterpret historical forms in novel ways. While many books on Texas architecture focus on one building type, residential architecture, courthouses, and so on, this project adopts a broader lens. A dozen chapters, presented under four thematic headings, explore buildings through a variety of frameworks: there are the inescapable forces of heat and money, essential functions like caregiving and government, and groupings for leisure and multi building sites such as museums and campuses. In each of these sections, the authors present a constellation of buildings with one central example and several supporting ones. So, for instance, the God chapter presents O'Neil Ford's Little Chapel in the Woods in Denton as its main building, alongside the Antioch Baptist Church in San Antonio and the Congregation Rodef Shalom in Waco. This sort of geographical diversity, with big cities sitting alongside smaller and lesser studied places, runs through the volume as a whole."
