Urban Sediment Removal Robert Brinkmann, Graham A. Tobin, 2012-12-06 There is not an extensive literature on street sweeping. Much of the research that has been completed exists in the gray area of technical reports and government documents. Furthermore, a great deal of this research is locally based and has not been widely published. Indeed, our review of the scientific literature revealed that while storm water quality has received a lot of attention, few academicians have been involved in street sweeping research per se. Thus, throughout our research into street sweeper effectiveness, sweeping protocols, and sweeping practices, we wished that there had been a book summarizing some of the important issues associated with street sweeping. As our frustration grew, we realized that we were uniquely poised to write such a book as our research had encompassed a variety of different projects including sweeper testing, waste management, and related storm water quality. Also, early on in this exercise, we recognized that there was a growing demand for information about street sweeping policies and management, especially for studies focusing on the effectiveness of different sweeping schedules, on waste management operations, and on non-point pollution reduction practices associated with storm water runoff. It was abundantly clear that there was a profound lack of research on street sweeping that could assist with developing local, regional, or national policies. There was, in effect, little guidance for city managers on these issues. A Modest Proposal in the Context of Swift's Irish Tracts Maria-Angeles Ruiz Moneva, 2020-06-12 Swift's *A Modest Proposal* has always aroused the interest not just of literary critics but also of linguists and pragmatists. Within the latter approaches, the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount. However, it seems that within pragmatics, the analysis has been restricted so far to the 1729 work itself. In the present author's view, it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance, theoretical framework, and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the Irish Question. It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of *A Modest Proposal*. *Performing Religion* Gregory F. Barz, 2016-08-09 *Performing Religion* considers issues related to Tanzanian kwayas. Kiswahili choirs, musical communities most often affiliated with Christian churches, and the music they make known as nyimbo za kwaya choir songs or muziki wa kwaya choir music. The analytical approach adopted in this text, focusing on the communities of kwaya, is one frequently used in the fields of ethnomusicology, religious studies, culture studies, and philosophy for understanding diversified social processes.
