*Characters of Shakespeare's Plays* is an 1817 book of criticism of Shakespeare's plays written by early nineteenth century English essayist and literary critic William Hazlitt. *Characters of Shakespeare's Plays* consists primarily of Hazlitt's impressions of and thoughts about all of William Shakespeare's plays he believed to be genuine. It was the first book of the kind that anyone had yet written. His main focus is on the characters that appear in the plays but he also comments on the plays' dramatic structure and poetry, referring frequently to commentary by earlier critics as well as the manner in which the characters were acted on stage. The essays on the plays themselves: there is a Preface as well as an essay on *Doubtful Plays of Shakespeare* and one on the *Poems and Sonnets* number thirty-two but with two of the essays encompassing five of the plays, the plays discussed amount to thirty-five in number. Though each essay constitutes a chapter in a book in style and length, they resemble those of Hazlitt's miscellaneous collection *The Round Table* published also in 1817, a collaboration with Leigh Hunt which followed the model for periodical essays established a century earlier in *The Spectator*. Though Hazlitt could find much to appreciate in the comedies, tragedy was to him inherently more important and he weights the tragedies much more heavily. In this he differed from Johnson who thought Shakespeare best at comedy. The greatest of the plays were tragedies, particularly *Macbeth*, *Othello*, *King Lear* and *Hamlet*, and Hazlitt's comments on tragedy are often integrated with his ideas about the significance of poetry and imaginative literature in general. As he expressed it at the end of *Lear*, tragedy describes the strongest passions and the greatest strength of genius is shewn here in describing the strongest passions for the power of the imagination in works of invention must be in proportion to the force of the natural impressions which are the subject of them.

*Character and the Supernatural in Shakespeare and Achebe* Kenneth Usongo,2021-03-09 Through mainly a New Historicist critical approach this book explores how Shakespeare and Achebe employ supernatural devices such as prophecies dreams gods goddesses beliefs and divinations to create complex characters Even though these features indicate the preponderance of the belief in the supernatural by some people of the Elizabethan Jacobean and traditional Igbo societies Shakespeare and Achebe primarily use the supernatural to represent the states of mind of their protagonists Both writers appropriate supernatural features to mirror tragic flaws such as ambition arrogance impulsiveness and fear that contribute

to the downfall of Macbeth Lear Okonkwo and Ezeulu We relate to some of these characters because they project our inner minds principal drives that may be hidden within us Therefore Shakespeare and Achebe s preoccupation with the supernatural adds subtlety to their characterization and enhances their readability by situating their art beyond time place or particularity
