## **Channelling Mobilities Channelling Mobilities:**

**Channelling Mobilities** Valeska Huber, 2013-08 This book examines the people using and passing by the Suez Canal to reassess the history of globalisation before 1914      Reliability of High Mobility SiGe Channel MOSFETs for Future CMOS Applications Jacopo Franco, Ben Kaczer, Guido Groeseneken, 2013-10-19 Due to the ever increasing electric fields in scaled CMOS devices reliability is becoming a showstopper for further scaled technology nodes Although several groups have already demonstrated functional Si channel devices with aggressively scaled Equivalent Oxide Thickness EOT down to 5 a 10 year reliable device operation cannot be guaranteed anymore due to severe Negative Bias Temperature Instability This book focuses on the reliability of the novel Si Ge channel quantum well pMOSFET technology This technology is being considered for possible implementation in next CMOS technology nodes thanks to its benefit in terms of carrier mobility and device threshold voltage tuning We observe that it also opens a degree of freedom for device reliability optimization By properly tuning the device gate stack sufficiently reliable ultra thin EOT devices with a 10 years lifetime at operating conditions are demonstrated The extensive experimental datasets collected on a variety of processed 300mm wafers and presented here show the reliability improvement to be process and architecture independent and as such readily transferable to advanced device architectures as Tri Gate finFET devices We propose a physical model to understand the intrinsically superior reliability of the MOS system consisting of a Ge based channel and a SiO<sub>2</sub> HfO<sub>2</sub> dielectric stack The improved reliability properties here discussed strongly support Si Ge technology as a clear frontrunner for future CMOS technology nodes

*The Mobility-Security Nexus and the Making of Order* Heidi Hein-Kircher, Werner Distler, 2022-07-21 The book explores the complex multi directional connections of the mobility security nexus in the re ordering of states empires and markets in historical perspective Contributing to a vivid academic debate the book offers in depth studies on how mobility and security interplay in the emergence of order beyond the modern state While mobilities studies migration studies and critical security studies have focused on particular aspects of this relationship such as the construction of mobility as a political threat or the role of infrastructure and security we still lack comprehensive conceptual frameworks to grasp the mobility security nexus and its role in social political and economic orders With authors drawn from sociology International Relations and various historical disciplines this transdisciplinary volume historicizes the mobility security nexus for the first time In answering calls for more studies that are both empirical and have historical depth the book presents substantial case studies on the nexus ranging from the late Middle Ages right up to the present day with examples from the British Empire the Russian Empire the Habsburg Empire Papua New Guinea Rome in the 1980s or the European Union today By doing so the volume conceptualizes the mobility security nexus from a new innovative perspective and further highlights it as a prominent driving force for society and state development in history This book will be of much interest to researchers and students of critical security studies mobility studies sociology history and political science      *Handbook of Urban Mobilities* Ole B. Jensen, Claus

Lassen, Vincent Kaufmann, Malene Freudendal-Pedersen, Ida Sofie Gøtzsche Lange, 2020-05-18 This book offers the reader a comprehensive understanding and the multitude of methods utilized in the research of urban mobilities with cities and the urban as its pivotal axis It covers theories and concepts for scholars and researchers to understand observe and analyse the world of urban mobilities The Handbook of Urban Mobilities facilitates the understanding of urban mobilities within a historic conscience of societal transformation It explores key concepts and theories within the mobilities turn with a particular urban framework as well as the methods and tools at play when empirical urban mobilities research is undertaken This book also explores the urban mobilities practices related to commutes particular modes of moving the exploration of everyday life and embodied practices as they manifest themselves within urban mobilities and the themes of power conflict and social exclusion A discussion of urban planning public control and governance is also undertaken in the book wherein the themes of infrastructures technologies and design are duly considered With chapters written in an accessible style this handbook carries timely contributions within the contemporary state of the art of urban mobilities research It will thus be useful for academics and students of graduate programmes and post graduate studies within disciplines such as urban geography political science sociology anthropology urban planning traffic and transportation planning and architecture and urban design

**Networking Operatic Italy** Francesca Vella, 2022-01-26 A study of the networks of opera production and critical discourse that shaped Italian cultural identity during and after Unification Opera's role in shaping Italian identity has long fascinated both critics and scholars Whereas the romance of the Risorgimento once spurred analyses of how individual works and styles grew out of and fostered specifically Italian sensibilities and modes of address more recently scholars have discovered the ways in which opera has animated Italians social and cultural life in myriad different local contexts In *Networking Operatic Italy* Francesca Vella reexamines this much debated topic by exploring how where and why opera traveled on the mid nineteenth century peninsula and what this mobility meant for opera Italian cities and Italy alike Focusing on the 1850s to the 1870s Vella attends to opera's encounters with new technologies of transportation and communication as well as its continued dissemination through newspapers wind bands and singing human bodies Ultimately this book sheds light on the vibrancy and complexity of nineteenth century Italian operatic cultures challenging many of our assumptions about an often exoticized country

**Empire and mobility in the long nineteenth century** David Lambert, Peter Merriman, 2020-06-08 Mobility was central to imperialism from the human movements entailed in exploration travel and migration to the information communications and commodity flows vital to trade science governance and military power While historians have written on exploration commerce imperial transport and communications networks and the movements of slaves soldiers and scientists few have reflected upon the social cultural economic and political significance of mobile practices subjects and infrastructures that underpin imperial networks or examined the qualities of movement valued by imperial powers and agents at different times This collection explores the intersection of debates on imperial relations

colonialism and empire with emerging work on mobility In doing this it traces how the movements of people representations and commodities helped to constitute the British empire from the late eighteenth century through to the Second World War

**Mobility and Biography** Sarah Panter, 2015-12-14 The subject of transnational lives has only recently gained importance in historical research With its transnational approach to mobility and biography this volume brings together research on aspects of mobility and biography across different times and spaces to open up new interdisciplinary perspectives Networks movements and the capacity to become socially or spatially mobile in and across Europe are not only analysed as structural factors but rather seen as connected to concrete practices of mobility among different groups in the spheres of business politics and the arts from Jewish merchants via legal and financial advisors all the way to musicians

*Borders and Mobility Control in and between Empires and Nation-States*, 2022-10-24 In a modernist interpretation of migration controls nation states play a major role This book challenges this interpretation by showing that comprehensive migration checks and permanent border controls appeared much earlier in early modern dynastic states and empires and predated nation states by centuries The 11 contributions in this volume explore the role of early modern and modern dynastic kingdoms and empires in Europe the Middle East and Eurasia and the evolution of border controls from the 16th to the 20th century They analyse how these states interacted with other polities such as emerging nations states in Europe North America and Australia and what this means for a broader reconceptualization of mobility in Europe and beyond in the longue durée Contributors are Tobias Brinkmann Vincent Denis Sinan Din er Josef Ehmer Irial A Glynn Sabine Jesner Olga Katsiardi Hering Leo Lucassen Ikaros Mantouvalos Leslie Page Moch Jovan Pe alj Lewis H Siegelbaum Annemarie Steidl and Megan Williams

**Borders and Freedom of Movement in the Holy Roman Empire** Luca Scholz, 2020-01-16 In the Holy Roman Empire no prince can forbid men passage in the common road wrote the English jurist John Selden In practice moving through one the most fractured landscapes in human history was rarely as straightforward as suggested by Selden s account of the German liberty of passage Across the Old Reich mobile populations from emperors to peasants defied attempts to channel their mobility with actions ranging from mockery to bloodshed In this study Luca Scholz charts this contentious ordering of movement through the lens of safe conduct an institution that was common throughout the early modern world but became a key framework for negotiating freedom of movement and its restriction in the Empire *Borders and Freedom of Movement in the Holy Roman Empire* draws on sources discovered in twenty archives from newly unearthed drawings to first hand accounts by peasants princes and prisoners Scholz s maps shift the focus from the border to the thoroughfare to show that controls of moving goods and people were rarely concentrated at borders before the mid eighteenth century Uncovering a forgotten chapter in the history of free movement the author presents a new look at the unstable relationship of political authority and human mobility in the heartlands of old regime Europe

**The Global Histories of Books** Elleke Boehmer, Rouven Kunstmann, Priyasha Mukhopadhyay, Asha Rogers, 2017-07-26 This book is an edited volume of essays that

showcases how books played a crucial role in making and materialising histories of travel scientific exchanges translation and global markets from the late eighteenth century to the present While existing book historical practice is overly dependent on models of the local and the national we suggest that approaching the book as a cross region travelling and therefore global object offers new approaches and methodologies for a study in global perspective By thus studying the book in its transnational and inter imperial textual inter textual and material dimensions this collection will highlight its key role in making possible a global imagination shaped by networks of print material readers publishers and translators

**Transport Revolution and Travels to Asia, 1860s-1920s** Tomasz Ewertowski, Wacław Forajter, Oliwia Gromadzka, 2025-02-11 During the long 19th century a technological revolution occurred leading to the emergence of new means of transport such as steamships railways cars aeroplanes bicycles and rickshaws This transport revolution not only fundamentally transformed modes of travel and made distant lands more accessible but it also significantly impacted how travellers experienced the world The authors of this volume aim to deepen the understanding of the influence of these new modes of transportation and their coexistence with older ones by incorporating a comprehensive range of sources written by both European and Asian travellers The approach presented in this volume is inspired by the anthropology of the senses the sociology of travel and the cultural history of transport These methodological frameworks are applied to accounts of travels to from and within Asia This perspective enables a focus on various contexts not visible in Europe including imperialism Eurocentric approaches to modernisation and the reactions of colonised peoples to these developments

*The Secret Police and the Soviet System* Michael David-Fox, 2023-10-24 Even more than thirty years after the dissolution of the Soviet Union the role of the secret police in shaping culture and society in communist USSR has been difficult to study and defies our complete understanding In the last decade the opening of non Russian KGB archives notably in Ukraine after 2015 has allowed scholars to explore state security organizations in ways not previously possible Moving beyond well known cases of high profile espionage and repression this study is the first to showcase research from a wide range of secret police archives in former Soviet republics and the countries of the former Soviet bloc some of which are rapidly closing or becoming inaccessible once again Rather than focusing on Soviet leadership *The Secret Police and the Soviet System* integrates the secret police into studies of information technology economics art and ideology The result is a state of the art portrait of one of the world's most notorious institutions the legacies of which are directly relevant for understanding Vladimir Putin's Russia today

*Security Unbound* Jef Huysmans, 2014-05-09 Security concerns have mushroomed Increasingly numerous areas of life are governed by security policies and technologies *Security Unbound* argues that when insecurities pervade how we relate to our neighbours how we perceive international politics how governments formulate policies at stake is not our security but our democracy Security is not in the first instance a right or value but a practice that challenges democratic institutions and actions We are familiar with emergency policies in the name of national security challenging parliamentary processes the space for political dissent and fundamental rights Yet security practice and technology pervade society heavily in very mundane ways without raising national security crises in particular through surveillance technology and the management of risks and uncertainties in many areas of life These more diffuse security practices create societies in which suspicion becomes a default way of relating and governing relations ranging from neighbourhood relations over financial transactions to cross border mobility *Security Unbound* demonstrates that governing through suspicion poses serious challenges to democratic practice Some of these challenges are familiar such as the erosion of the right to privacy others are less so such as the post human challenge to citizenship *Security unbound* provokes us to see that the democratic political

stake today is not our security but preventing insecurity from becoming the organising principle of political and social life

**Flooded Pasts** William Carruthers, 2022-12-15 *Flooded Pasts* examines a world famous yet critically underexamined event UNESCO's International Campaign to Save the Monuments of Nubia 1960-80 to show how the project its genealogy and its aftermath not only propelled archaeology into the postwar world but also helped to recolonize it In this book William Carruthers asks how postwar decolonization took shape and what role a colonial discipline like archaeology forged in the crucible of imperialism played as the new nations asserted themselves in the face of the global Cold War As the Aswan High Dam became the centerpiece of Gamal Abdel Nasser's Egyptian revolution the Nubian campaign sought to salvage and preserve ancient temples and archaeological sites from the new barrage's floodwaters Conducted in the neighboring regions of Egyptian and Sudanese Nubia the project built on years of Nubian archaeological work conducted under British occupation and influence During that process the campaign drew on the scientific racism that guided those earlier surveys helping to consign Nubians themselves to state led resettlement and modernization programs even as UNESCO created a picturesque archaeological landscape fit for global media and tourist consumption *Flooded Pasts* describes how colonial archaeological and anthropological practices and particularly their archival and documentary manifestations created an ancient Nubia severed from the region's population As a result the Nubian campaign not only became fundamental to the creation of UNESCO's 1972 World Heritage Convention but also exposed questions about the goals of archaeology and heritage and whether the colonial origins of these fields will ever be overcome

**France in the World** Patrick Boucheron, Stéphane Gerson, 2019-04-09 Short essays offer a kaleidoscopic provocative history of France and its place within the world from its prehistoric frescoes to Coco Chanel to the terrorist attacks of 2015 New Yorker A major work exhaustive controversial and fresh and entirely relevant to Anglophone readers that redefines how we write about national and world history Guardian Bringing together an impressive group of established and up and coming historians this bestselling French history conceives of France not as a fixed rooted entity but instead as a place and an idea in flux moving beyond all borders and frontiers shaped by exchanges and mixtures Presented in chronological order from 34 000 BC to modern day each chapter covers a significant year from its own particular angle the marriage of a Viking leader to a Carolingian princess proposed by Charles the Fat in 882 the Persian embassy's reception at the court of Louis XIV in 1715 the Chilean coup d'état against President Salvador Allende in 1973 that mobilized a generation of French left wing activists *France in the World* combines the intellectual rigor of an academic work with the liveliness and readability of popular history With a brand new preface aimed at an international audience this English language edition will be an essential resource for Francophiles and scholars alike

*The British Empire and the Hajj* John Slight, 2015-09-21 The British Empire governed more than half the world's Muslims John Slight traces the empire's complex interactions with the Hajj the annual pilgrimage to Mecca from the 1860s when an outbreak of cholera led Britain to engage reluctantly in medical regulation of pilgrims to the Suez Crisis of

1956 He gives voice to pilgrims and officials alike

**Seeking Bread and Fortune in Port Said** Lucia

Carminati, 2023-08-08 Seeking Bread and Fortune in Port Said probes migrant labor's role in shaping the history of the Suez Canal and modern Egypt. It maps the everyday life of Port Said's residents between 1859 when the town was founded as the Suez Canal's northern harbor and 1906 when a railway connected it to the rest of Egypt. Through groundbreaking research, Lucia Carminati provides a ground-level perspective on the key processes touching late nineteenth-century Egypt: heightened domestic mobility and immigration intensified urbanization, changing urban governance and growing foreign encroachment. By privileging migrants' prosaic lives, Seeking Bread and Fortune in Port Said shows how unevenness and inequality laid the groundwork for the Suez Canal's making.
