

Chapter 24 Reading Guide: Industrialization and Imperialism: The Making of the European Global Order

Chapter Summary. Western European industrialization fundamentally altered the nature of European overseas expansion. In previous times, Europeans sought distant material goods or new all-giant rivals. Now, instead of goods, industrialization brought new markets for expansion. Raw materials were needed to fuel industrial growth, and markets were required for its manufacturing production. Christian missionaries sought converts, but private initiative replaced state direction. Another change was that the increased power of the West made it less European imperial rivalries more than indigenous opposition. Europeans had gained the capacity to push into and occupy territories once closed for them by disease or local resistance.

What were the Europeans seeking in expansion before the Industrial Revolution?

What did Europe need now?

What was the change in missionary movements from earlier expansion to now?

Now that Europe didn't fear the Ottomans, who were the Europeans in competition with?

Why had European trade monopolies not colonized Asia and Africa?

What had been the #1 problem with Europe controlling what happened in their names?

PROTOTYPE: THE DUTCH ADVANCE ON JAVA

What was the Dutch relationship with the Indonesian kingdom in the 1600s?

How were they able to advance their position beyond that monopoly over spices?

LeVasseur, Yvonne S. Gentzler, 2003 **Kindness Wars** Noel A. Cazenave, 2023-09-15 Kindness Wars rescues our understanding of kindness from the clutches of an intellectually and morally myopic popular psychology and returns it to the stage of big ideas in keeping with the important Enlightenment era debates about human nature and possibilities Cazenave conceptualizes kindness not just as a benevolent feeling a caring thought or a generous action but as a worldview a theory or an ideology that explains who we are and justifies how we treat others Here kindness wars refer to the millennia old kindness theory and ideological conflicts over what kind of societies humans can and should have The book's title denotes the two types of kindness wars it analyzes conflict over 1 whether to be kind or not i.e. the conflicts between kindness and other societal values and ideologies and 2 what it means to be kind i.e. the wars within kindness over different ideas as to what it means to be kind and to whom Using a conflict theoretical perspective Kindness Wars examines the history of the kindness concept its many struggles with opposing notions of our true nature and possibilities and what the lessons of that history and those battles offer us toward the development of a large robust and politically engaged conceptualization of kindness
