Character Deborah L. Rhode, 2019-08-02 Americans claim to care about character Over four fifths want it taught in public schools and 95 percent think that a president's character is important And historically philosophers educators politicians religious leaders judges and the general public have agreed that character should be valued and reinforced Yet in the United States the institutions charged with that mission have consistently fallen short Simply put too little effort has been made to understand the importance of character and the strategies that can best develop and support it After first exploring the history of the concept over time Deborah Rhode turns her focus to the institutions that have traditionally fostered good character families

schools youth organizations civic groups and political organizations However as we have increasingly de emphasized the subject a trend that is most evident in our politics our awareness of its shaping influence has waned Indeed we often focus on the wrong things when it comes to fostering good character For instance almost a third of the workforce is covered by licensing laws requiring good moral character even occupations where the need for screening is not self evident florist fortune teller and frog farmers Character also plays a pivotal role in the criminal justice system in defining guilt punishment and eligibility for parole All too often these legal requirements are idiosyncratic inequitable and subject to race and class bias Millions of Americans who have convictions for minor offenses are excluded from a vast range of occupations and benefits without evidence that such exclusion serves the public interest We can do better she stresses and outlines a powerful program for reform Rhode punctuates the book through a series of portraits of exemplary individuals whose good character made them who they were Ida B Wells Jane Addams Martin Luther King Mother Teresa Nelson Mandela Albert Schweitzer and Thurgood Marshall All of these individuals had flaws but through their commitments to both social justice and helping the less fortunate they all demonstrate the power and importance of strong character *Editorial Messages from the President of the Sherwin-Williams Company to His Organization* Walter Horace Cottingham,1916 **Journal of the House of Representatives of the ...
