- Characters are the people or animals in a story.
- The main character is the person at the center of the story. Example: Rikki-tikki-tavi is the main character.
- Supporting characters have smaller parts in the story. Examples: Nag and Darzee.

distinct approaches to character development as well as the implications for parents educators and policymakers committed to fostering powerful school culture in their own school communities      *The Character Conundrum* Matt Lloyd-Rose,2017-10-10 The Character Conundrum is a practical guide for developing confidence independence and resilience in primary and secondary classrooms Tackling the hotly contested question of what role schools can play in developing character the book untangles the big debates in this area and outlines how teachers can support their pupils to develop the skills and mindsets that will help them to thrive academically Based on a combination of ground level investigations and academic research the book offers a simple evidence based approach that can be implemented at every level of school life The key to this approach is being deliberate and consistent knowing which mindsets skills and habits you re trying to develop and planning the details of your classroom culture relationships routines and instruction so that they align and combine to address your aims When you do this the author contends seemingly minor changes to your practice can have a major effect on pupils The book contains a step by step guide to bringing this approach to life in your classroom including a framework of pupil outcomes a flowchart of teacher actions classroom case studies and a wealth of tried and tested strategies from primary and secondary schools across the UK A lack of confidence independence and resilience is a major barrier to learning for many pupils and dilutes other efforts that schools make to support them The Character Conundrum argues that teachers can help pupils develop these characteristics in any school context and illustrates how they can do so within and through their day to day teaching Written with passion and clarity it will be essential reading for primary and secondary teachers as well as policy makers with an interest in character grit and resilience and any education professionals committed to giving students greater ownership of their learning and setting them up to succeed      *Educating Character Through Stories* David Carr,Tom Harrison,2015-01-14 What could be the point of teaching such works of bygone cultural and literary inheritance as Cervantes Don Quixote and Shakespeare s The Merchant of Venice in schools today This book argues that the narratives and stories of such works are of neglected significance and value for contemporary understanding of human moral association and character However in addition to offering detailed analysis of the moral educational potential of these and other texts the present work reports on a pioneering project recently pursued by the Jubilee Centre for Character and Virtues concerned precisely with the use of these and other stories for moral and character education in schools The success of the Knightly Virtues project is an inspiring story in its own right and should therefore be of enormous interest to all schools teachers and parents rightly concerned with this all important aspect of their children s educational development      **Building Character Through Multicultural Literature** Rosann Jweid,Margaret Rizzo,2004 A comprehensive reference to 50 titles that will help children cultivate ethics assume personal responsibility and practice moral judgment in unfamiliar cultural contexts      **Making ALL Kids Smarter** John DeLandtsheer,2010-11-09 A hands on guide for challenging ALL kids to think create and aspire John DeLandtsheer brings 40 years of experience to this motivating resource that shows teachers how to raise the
