Clean Coaching Angela Dunbar, 2016-10-14 Most coaches today see their role as mainly non-directive, helping to uncover their coachee's own wisdom. However, coaches may unwittingly and unconsciously constrain what their coachees talk and think about, getting in the way of unique self-generated solutions. Clean Coaching provides a different, simple yet highly effective approach to one-to-one facilitation. It is a style, strategy and set of techniques that help coachees gain insight and make changes through discovering

more about their own insider perspective of themselves and the world around them Through the use of specifically phrased structured coaching questions the coach's own biased perspectives are stripped from their language ensuring the coachee's unique personal experience is honoured In Clean Coaching Angela Dunbar explains how this approach works in practical terms with descriptions of how to structure a Clean Coaching session and the steps to take within such a session The book gives detailed descriptions of the kinds of questions to ask and provides a wealth of analogues examples and case studies to bring the descriptions alive offering a clear blueprint for action In addition the book explains where Clean Coaching has come from describing the development of Clean Language and other Clean approaches by the psychologist and psychotherapist David Grove It also tracks how Clean approaches have been adopted and adapted by other practitioners Dunbar draws on current research in the fields of developmental neurological cognitive and social psychology to demonstrate why Clean Coaching works so successfully Exploring Clean Coaching in detail and informed by both research and practice this book will be a valuable resource for coaches at all levels including executive coaches and those in training as well as managers and executives acting in a coaching capacity
