powered world domination After Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses Top Gear returned to become the irreverent funny and often controversial show we now know and love The Star in a Reasonably Priced Car the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment Recent series have been defined by their madcap challenges such as driving across Africa in clapped out bangers with predictably hilarious results However the show's most shocking moment came in 2006 when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph Clarkson Hammond and May they are the politically incorrect joking stone washed denim wearing bloke hero trio for the modern ish age This brilliant detailed book is fitting tribute to the show its presenters and its most memorable moments **The Mobility Society** Paul Warburton, 2023-12-13 Over the last century and a half modern life has largely been characterized by stability and predictability where individuals settled in one place and followed familiar routines The late 19th century saw the rise of global brands and transportation advancements making the world smaller in a virtual sense and more accessible in a logistical one By the 1990s global brands and easy transport were the norm yet the patterns of life remained largely unchanged About three decades ago the pace of change quickened dramatically Ties to a fixed location weakened economic forces shifted and telecommunications shifted from landlines to cellular and IP services Norms around employment shifted giving rise to the gig economy Companies like Amazon and Uber reshaped expectations leading to an anything anywhere anytime culture The Mobility Society emerged a constant evolution transcending place and time This transformation is expertly explored and defined by the insightful mind of Paul Warburton who has been at the forefront of this movement for over a decade His Now Near Far structure has become a powerful tool in planning and understanding the changes that lie ahead This book weaves together the complex web of technological and societal changes shaping the Mobility Society For those involved in these transformations this book offers fascinating insights while for those in policymaking roles it is a crucial guide to understanding and preparing for the inevitable evolution ISBN 9781468605877 ISBN 9781468605884 ISBN 9781468605891 DOI 10.4271/9781468605884 Encyclopaedia Britannica Book of the Year 2010, 2010 **Watching the Wheels** Damon Hill, 2016-09-08 The Sunday Times 1 Bestseller shortlisted for the Cross Sports Book Award In 1996 Damon Hill was crowned Formula One World Champion For the first time ever he tells the story of his journey through the last golden era of the sport when he took on the greats including Ayrton Senna and Michael Schumacher and emerged victorious as World Champion in 1996 stepping out of the shadow of his legendary father Graham Hill Away from the grid Watching the Wheels The Autobiography is an astonishingly candid account of what it was like to grow up as the son of one of the country's most famous racing drivers It also tells the unflinching story of dealing with the grief and chaos that followed his father's tragically early death in an aircraft accident in 1975 when Damon was fifteen years old Formula One drivers have always been aware of their mortality and the rush that comes with the danger of racing was as intoxicating for Hill as it had been for

his father's generation until he came face to face with catastrophe when his team mate Ayrton Senna was killed in 1994. The swirling emotions that Hill was faced with in light of the death of Senna was a defining moment for his generation of drivers and for the first time ever Hill talks candidly about the impact that Senna had on his life even as he watched his own son step into motor racing. Courageously honest and hugely rewarding. Watching the Wheels is a return to the last golden era of F1 racing whose image still burns ferociously for those who love the sport for what it reveals about human skill in the face of near certain death. **Lights Out, Full Throttle** Damon Hill, Johnny Herbert, 2020-10-15. Calling all petrolheads. Lights Out Full Throttle is the riotously funny tour through the best, worst and downright outrageous of F1. Shortlisted for the Telegraph Sports Entertainment Book of the Year Award. Johnny and Damon have become the one constant for passionate British F1 fans in a rapidly changing landscape. They have earned cult status as commentators and pundits with viewers loving their unerring dedication to the sport's greatness. Johnny and Damon assess the good, the bad and the ugly of the F1 enthusiast's paradise. Whether you're a fan of Nigel, Niki, Kimi or Britney, pine for the glory days of Brabham, Williams, Jim Clark and Fangio or believe that Lewis Hamilton will retire as the GOAT. Lights Out Full Throttle gets you to the front of the grid without the inconvenience of having to leave your seat. **Autocar**, 2006.
