A Novel Marketplace Evan Brier,2012-02-25 As television transformed American culture in the 1950s critics feared the influence of this newly pervasive mass medium on the nation's literature While many studies have addressed the rhetorical response of artists and intellectuals to mid twentieth century mass culture the relationship between the emergence of this culture and the production of novels has gone largely unexamined In *A Novel Marketplace* Evan Brier illuminates the complex ties between postwar mass culture and the making marketing and reception of American fiction Between 1948 when television began its ascendancy and 1959 when Random House became a publicly owned corporation the way American novels were produced and distributed changed considerably Analyzing a range of mid century novels including Paul Bowles's *The Sheltering Sky* Ray Bradbury's *Fahrenheit 451* Sloan Wilson's *The Man in the Gray Flannel Suit* and Grace Metalious's *Peyton Place* Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat During this anxious historical moment the book business underwent an improbable expansion by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good *A Novel Marketplace* tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture even as publishers formed partnerships with mass culture institutions that foreshadowed the multimedia mergers to come in the 1960s As a foil for and a partner to literary institutions mass media corporations assisted in fostering the novel's development as both culture and commodity

Bradbury Beyond Apollo Jonathan R. Eller,2020-08-22 Celebrated storyteller cultural commentator friend of astronauts prophet of the Space Age by the end of the 1960s Ray Bradbury had attained a level of fame and success rarely achieved by authors let alone authors of science fiction and fantasy He had also embarked on a phase of his career that found him exploring new creative outlets while reinterpreting his classic tales for generations of new fans Drawing on numerous

interviews with Bradbury and privileged access to personal papers and private collections Jonathan R Eller examines the often overlooked second half of Bradbury's working life As Bradbury's dreams took him into a wider range of nonfiction writing and public lectures the diminishing time that remained for creative pursuits went toward Hollywood productions like the award winning series Ray Bradbury Theater Bradbury developed the Spaceship Earth narration at Disney's EPCOT Center appeared everywhere from public television to NASA events to comic conventions published poetry and mined past triumphs for stage productions that enjoyed mixed success Distracted from storytelling as he became more famous Bradbury nonetheless published innovative experiments in autobiography masked as detective novels the well received fantasy The Halloween Tree and the masterful time travel story The Toynbee Convector Yet his embrace of celebrity was often at odds with his passion for writing and the resulting tension continuously pulled at his sense of self The revelatory conclusion to the acclaimed three part biography Bradbury Beyond Apollo tells the story of an inexhaustible creative force seeking new frontiers

Fahrenheit 451-Illustrated Ray Bradbury,

Fahrenheit 451 Ray Bradbury Ray Bradbury, 2020-03-08 Fahrenheit 451 is a dystopian novel by American writer Ray Bradbury Fahrenheit 451 is the temperature at which book paper spontaneously catches fire and burns It is a futuristic novel describing a time when the government has ordered that all books be burned This may seem to be ridiculous and could never be happening but it is starting to happen in real life now today Now we have a president who accuses everything in the press of being fake news He tells his followers who constitute a near majority never to believe the news media He has ordered the arrest and criminal prosecution of the leading law enforcement officers including the Director of the FBI and the Director of the Central Intelligence Agency He has accused most of his political opponents of corruption and crime Nobody knows what is the truth and what is false any more He says that decisions of the highest courts of the United States are almost all fake He openly attacks and criticizes the highest judges of the Supreme Court He says the truth is false and the false is true The result is we the people do not know who or what to believe All the great scientists have found that climate change is real and our time on this earth may be limited but he says climate change is a hoax and we should ignore the works of the scientists This is not the first time this has happened In China Chairman Mao declared his Cultural Revolution and the Great Leap Forwards China has the oldest civilization in the world going back to before Confucius in 551 479 BC Yet during the Cultural Revolution Chairman Mao ordered all the old books burned and destroyed and even ordered the people to destroy their old household furniture I found this out myself in 2011 when I toured China after the World Memory Championships in Guangzhou China As a book publisher I wanted to reprint some old classical works I was shocked to discover that no books were available dated before 1949 and few after that Everything earlier than that had been destroyed I am still hoping that some older Chinese books have been preserved in Taiwan I consider a book dated 1949 to be a relatively new book I usually do not bother with such recent books The destruction of all books in China dated before 1949 is not reported on any website that I have found but I saw with my own eyes that all such books were gone
