Failed States The Abuse Of Power And The Assault On Democracy

Virginia Held

Failed States The Abuse Of Power And The Assault On Democracy:

Failed States Noam Chomsky, 2007-04-03 It is hard to imagine any American reading this book and not seeing his country in a new and deeply troubling light The New York Times Book Review The world's foremost critic of U S foreign policy exposes the hollow promises of democracy in American actions abroad and at home The United States has repeatedly asserted its right to intervene militarily against failed states around the globe In this much anticipated follow up to his international bestseller *Hegemony or Survival* Noam Chomsky turns the tables showing how the United States itself shares features with other failed states suffering from a severe democratic deficit eschewing domestic and international law and adopting policies that increasingly endanger its own citizens and the world Exploring the developments in U S foreign and domestic policy Chomsky reveals Washington's plans to further militarize the planet greatly increasing the risks of nuclear war He also assesses the dangerous consequences of the occupation of Iraq documents Washington's self exemption from international norms including the Geneva conventions and the Kyoto Protocol and examines how the U S electoral system is designed to eliminate genuine political alternatives impeding any meaningful democracy Forceful lucid and meticulously documented *Failed States* offers a comprehensive analysis of a global superpower that has long claimed the right to reshape other nations while its own democratic institutions are in severe crisis Systematically dismantling the United States pretense of being the world's arbiter of democracy *Failed States* is Chomsky's most focused and urgent critique to date Failed States, 2024

Chomsky and Dershowitz Howard Friel, 2013-09-21 Through the lens of a careful assessment of the political views of MIT's Noam Chomsky and Harvard's Alan Dershowitz the two protagonists of a Cambridge based feud over the past forty years author Howard Friel chronicles an American intellectual history from the U S war in Vietnam in the 1960s to the contemporary debate about the Israel Palestine conflict Major findings reveal the consistency of Chomsky's principled support of international law human rights and civil liberties and a reversal by Dershowitz from support in the 1960s to opposition of those legal standards today Friel's volume argues that a Chomskyan adherence by the United States to international law and human rights would reduce the threat of terrorism and preserve civil liberties that the Dershowitz backed war on terrorism increases the threat of terrorism and undermines civil liberties and that the incremental but steady transition toward a preventive state threatens the permanent suspension of civil liberties in the United States *The Power of Creative Reasoning* Lual A. Deng, 2013 Seventy two percent of South Sudan's population is under thirty years of age It is this generation that must create a new South Sudanese identity that is inclusive of all its nationalities In *The Power of Creative Reasoning* author Lual A Deng shows how the ideas and concepts touted by Dr John Garang could facilitate the advancement of the ideals of freedom liberty and human dignity *The Power of Creative Reasoning* provides an insider's perspective on Garang a visionary leader who used a combination of strategic thinking and a path goal approach to resolve complex societal problems Deng has coined the term Garangism as the pursuit of Sudanese commonality with conviction

courage consistency and creativity to end all forms of marginalization Deng shows how Garang employed symbolic logic in the form of Venn Diagrams to articulate the vision of New Sudan and presents ten powerful ideas to help the Sudanese as they are facing serious challenges of leadership democratic governance sustained peace economic growth poverty and corruption The Power of Creative Reasoning communicates that the leadership of the new Sudan can manage these challenges by internalizing Garang's ideas

Author Beowulf Sheehan, 2018-10-09 A beautiful and moving collection of photographs by Beowulf Sheehan whose work captures the essence of 200 of our most prominent writers historians journalists playwrights and poets Beowulf Sheehan is considered to be his generation's foremost literary portrait photographer having made portraits of the literary luminaries of our time across the globe from Roxane Gay to Masha Gessen Patti Smith to Zadie Smith Karl Ove Knausgaard to J K Rowling and Jonathan Franzen to Toni Morrison In Authors Sheehan presents the most insightful intimate and revealing portraits of these artists made in his studio in their homes in shopping malls and concert halls on rooftops and in parking lots on the beach and among trees surrounded by flowers and in clock towers Following an enlightening foreword by Salman Rushdie Beowulf Sheehan shares an essay offering insights in the poignant and memorable moments he experienced while making these portraits A treasure gift for readers and lovers of portrait photography Authors is the only book of its kind to appear in more than a decade

How Terrorism Is Wrong Virginia Held, 2011-03-04 What is terrorism How is it different from other kinds of political violence Why exactly is it wrong Why is war often thought capable of being justified On what grounds should we judge when the use of violence is morally acceptable It is often thought that using violence to uphold and enforce the rule of law can be justified that violence used in self defense is acceptable and that some liberation movements can be excused for using violence but that terrorism is always wrong How persuasive are these arguments and on what bases should we judge them How Terrorism is Wrong collects articles by Virginia Held along with much new material It offers a moral assessment of various forms of political violence with terrorism the focus of much of the discussion Here and throughout Held examines possible causes discussed including the connection between terrorism and humiliation Held also considers military intervention conventional war intervention to protect human rights violence to prevent political change and the status and requirements of international law She looks at the cases of Rwanda Kosovo Iraq and the Israeli Palestinian conflict Finally she explores questions of who has legitimate authority to engage in justifiable uses of violence whether groups can be responsible for ethnic violence and how the media should cover terrorism Held discusses appropriate ways of engaging in moral evaluation and improving our moral recommendations concerning the uses of violence Just war theory has been developed for violence between the military forces of conflicting states but much contemporary political violence is not of this kind Held considers the guidance offered by such traditional moral theories as Kantian ethics and utilitarianism and also examines what the newer approach of the ethics of care can contribute to our evaluations of violence Care is obviously antithetical to violence since violence destroys

what care takes pains to build but the ethics of care recognizes that violence is not likely to disappear from human affairs and can offer realistic understandings of how best to reduce it *Debating War* David Lorenzo,2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America s place in the international power structure

The Democratic Republic of the Congo, Broken State, Collapse of Law, Human Rights Violations, Veil of Injustice and Constitutional Smokescreens—A Case Study in State Failure: Felix Kaputu,2024-07-25 For over twenty five years the Democratic Republic of the Congo has been depicted by the media as a nation in turmoil Armed militias and armies ravage villages stealing crops and minerals while proxy wars displace countless citizens Political violence corruption and social insecurity plague the nation leading to a humanitarian crisis where fundamental human rights are routinely violated This book delves into the harrowing realities of life in Congo where public education and healthcare are in shambles and most people live on less than two dollars a day Amidst this political leaders enjoy exorbitant salaries while public servants endure poverty This empirical research critically examines the gap between the constitutional provisions of human rights and their implementation presenting stark indicators of a failed state By analyzing the human rights situation from the Universal Declaration of Human Rights to the current state Constitution the book reveals the Congo s descent into chaos and calls for accountability for its violations **Competition and Cooperation in Social and Political Sciences** Isbandi

Rukminto Adi,Rochman Achwan,2017-12-01 The book contains essays on current issues in Social and Political Sciences such as the issues of governance and social order social development and community development global challenges and inequality civil society and social movement IT based community and social transformation poverty alleviation and corporate social responsibility and gender issues Asia and the Pacific are the particular regions that the conference focuses on as they have become new centers of social and political development Therefore this book covers areas that have been traditionally known as the social and political areas such as communication studies political studies governance studies criminology

sociology social welfare anthropology and international relations **The Political Theory of Political Thinking** Michael Freeden, 2013-08-08 This book is the first to explore systematically what it means to think politically Using detailed contemporary and historical material and investigating both professional and amateur forms of political thinking this study challenges much accepted wisdom on the topic arguing that it is to be approached as a cluster of interacting features

Theory of World Security Ken Booth, 2007-12-20 What is real What can we know How might we act This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times Arguing that the concept of security in world politics has long been imprisoned by conservative thinking Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives Booth suggests that human society globally is facing a set of converging historical crises He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business as usual and for planning to reconstruct a more cosmopolitan future Theory of World Security is a challenge both to well established ways of thinking about security and alternative approaches within critical security studies Humanitarian Crises and International Relations 1959-2013 Fabienne Le Hou  rou, 2014-03-12 Humanitarian Crises and International Relations 1959 2013 presents a brief study of the relations between sovereign nations from 1959 to the current Afghanistan crisis post NATO intervention Each chapter is going to analyze a specific crisis in a chronological order The chapters demonstrate how humanitarian crises linked to civil and military conflicts have reshaped international relations in our world today This book is a key tool for students undertaking courses related to the history of international relations as well as human rights and on international migrations The topics in this book are connected to different disciplines Anthropology History and Political Science and attempt to trace the most important change in the history of international relations related to the world crisis viz civil or external conflicts *Solving the Climate Crisis through Social Change* Gar W. Lipow, 2012-03-12 This book presents an accessible and easy to follow argument that the climate crisis is a side effect of inequality and injustice and demonstrates how strategies such as large scale social investment will prove far more effective in reducing greenhouse gas pollution than cap and trade or other forms of free market environmentalism Solving the Climate Crisis through Social Change Public Investment in Social Prosperity to Cool a Fevered Planet offers a new approach to battling the climate crisis arguing that the massive waste that caused the current environmental crisis resulted not only from fundamental structural flaws in markets but also from social inequality lack of democracy and a deeply flawed foreign policy Rather than providing the typical doomsday perspective it offers realistic optimism about the expanding climate crisis highlighting the convergence between the necessary steps to save the planet and what needs to be done to improve the lives of Americans The author s discussion of the United States s role in the climate crisis spans subjects as varied as the 17th century forests of New England the evolution of housework over 200 years

the American addiction to the automobile the lettuce fields of California in the 1970s and the Guano wars in 19th century Bolivia Chile and Peru This book will appeal to a wide range of readers from the interested general public to students academics professionals and other experts The main section presents a clear and accessible survey of the economic social and political causes of the climate crisis accompanied by potential solutions while extensive appendixes offer in depth and technical discussions

Trump and the Remaking of American Grand Strategy Bastiaan van Apeldoorn, Jaša Veselinović, Naná de Graaff, 2023-07-27 This book offers a comprehensive explanatory account of Trump's foreign policy by assessing its nature determining the extent to which it broke with the policy of preceding presidencies and explaining how this shift came about We argue that Trump has succeeded in remaking America's grand strategy by unmaking its long standing strategy of what we call Open Door Globalism a strategy of economic expansionism through the promotion of open markets across the globe and its institutionalization into a US led liberal world order Trump has broken with Open Door Globalism in probably lasting ways by adopting an outlook and strategy of neo mercantilist economic nationalism based upon an America First redefinition of US sovereignty and national interests We explain this Trumpian shift in US foreign policy by focusing on the social sources of Trump's foreign policy making elite's agency analysing it both in terms of foreign policy makers embeddedness in elite networks and within the changing global and domestic context The latter coupled with a crisis of established elite power also indicates why Biden has not returned to Open Door Globalism but doubled down on some aspects of the Trumpian economic nationalist break

Routledge Handbook of Political Islam Shahram Akbarzadeh, 2012-03-12 The Routledge Handbook of Political Islam provides a multidisciplinary overview of the phenomenon of political Islam one of the key political movements of our time Drawing on the expertise from some of the top scholars in the world it examines the main issues surrounding political Islam across the world from aspects of Muslim integration in the West to questions of political legitimacy in the Muslim world Bringing together an international team of renowned and respected experts on the topic the chapters in the book present a critical account of Theoretical foundations of political Islam Historical background Geographical spread of Islamist movements Political strategies adopted by Islamist groups Terrorism Attitudes towards democracy Relations between Muslims and the West in the international sphere Challenges of integration Gender relations Presenting readers with the diversity of views on political Islam in a nuanced and dispassionate manner this handbook is an essential addition to the existing literature on Islam and politics It will be of interest across a wide range of disciplines including political science Islamic studies sociology and history

Self-Defence in International and Criminal Law Onder Bakircioglu, 2011-05-11 The book provides a broad and interdisciplinary approach to the doctrine of self defence in both domestic criminal and international law In particular it focuses on the requirement of imminence which deals with the question of when individuals or States may legitimately resort to defensive force against a serious danger or harm Drawing from scholarship across law history politics and philosophy this book explores the permissibility of employing

preventive force under the law of individual and national self defence The book illustrates how the law of international self defence and in particular the requirement of imminence has been subjected to controversy in parallel with its domestic counterpart In both disciplines the debate over imminence is centred on similar concerns issues and tensions despite the fact the arguments put forward are designed to address different scenarios The book surveys the roots role rationale and objectives of self defence and questions whether the requirement of imminence should be removed from the traditional contours of the self defence doctrine in national and international law

Governmental Power Market-Ing in the VU-CHAOS World Wongmahesak, Kittisak, Gohwong, Srirath, Pavapanunkul, Shayut, Mahittichatkul, Nasaran, 2023-09-29 *Governmental Power Market Ing in the VU CHAOS World* is a thought provoking book that explores the blended concepts of state governance marketing and management This book offers a comprehensive examination of the dynamics and implications of governmental power in a rapidly changing world Delve into this text to investigate the concept of government and its significance as well as the rise of gerontocracy where the elders exert influence over the state game both in theory and practice Further chapters explore topics such as the hidden agenda behind the development of government in governmental power marketing theory the sources and status of government strategies and behavior of governments as buyers The influences that shape governmental buying behavior and the implications for controlling governmental power are also examined Readers will gain insights into future trends in government theory and practice including strategic approaches for stateless players and net states Case studies and comparative applications offer real world examples and practical implications *Governmental Power Market Ing in the VU CHAOS World* is an essential resource for academics researchers policymakers and anyone interested in understanding the complex interplay between governmental power and market dynamics in today s evolving global landscape

Global Issues Shirley A. Fedorak, 2013-11-29 *Global Issues* is a pedagogically rich book that addresses prominent issues of contemporary concern

American Dissidents Kathryn Gay, 2011-12-12 Anarchists civil rights advocates dissidents and political pundits have all played key roles in shaping our nation Examining modern day individuals like WikiLeaks Bradley Manning and conservative video prankster James O Keefe as well as those of prior decades like Cesar Chavez this book profiles controversial figures across history The two volume *American Dissidents An Encyclopedia of Activists Subversives and Prisoners of Conscience* is a work that is as interesting as it is important spotlighting men and women who are heroes to some outlaws and villains to others The 150 individuals profiled in this encyclopedia represent diverse ethnic racial and religious backgrounds as well as various movements and ideologies They are authors anarchists civil rights advocates communists entertainers environmentalists government officials labor organizers libertarians military personnel pacifists political activists from the left and right religious leaders and suffragettes all of whom have labored to change the social economic and political landscapes of the United States Each of the profiles of 2 000 words or more offers not only biographical data but also information to help readers place the individuals

within the context of events that surrounded and influenced their activities Because objectivity is a key consideration of the work entries include both praise and criticism *Common Good Politics* Colin Tyler, 2016-11-04 This book examines the British tradition of common good politics both historically and in the contemporary world We live in a time when many anti Conservative parties and voters feel a profound sense of crisis and disorientation over political principles and policy directions As a result many people are turning to common good politics as an alternative to state centred socialism and laissez faire individualism Colin Tyler explores the practical and intellectual history of the British idealist tradition which flourished from the 1870s to the 1920s before applying the principles of common good politics to contemporary issues These issues include the positive roles that can be played by conflict within democratic societies the radical demands of social justice in a diverse world the continuing influence of Bush s war on terror international society and free speech under Tony Blair and David Cameron and the relationships between economic migration social justice and the common good The book will appeal particularly to students and scholars interested in British politics internationalism and political theory
